Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement **Christian evidences. World together with talks given on the occasion of the seminar cycle entitled Eranos Jung Lectures which took place during the years 2010 2011 to commemorate the 50th anniversary of Carl Gustav Jung's passing. Eminent international scholars gathered to share their work presented here primarily in English along with some chapters in Italian. This publication carries additional special meaning in further consolidating the collaboration with the Fetzer Institute by presenting the manuscripts of the Dialogues on the Power of Love held at Eranos between 2008 and 2011. This project follows the path of the original model of Eranos especially the aspect of dialogue searching for understanding and deepening crucial themes in the contemporary world.

Contents 2011 Eranos Conference About Fragility in the Contemporary World 2008 2011 Fetzer Institute Dialogues at Eranos The Power of Love Love in the Esoteric Traditions Love in the History of Eranos Love and Beauty in the Visual Arts Love and the Social Bond Love and the Musical Arts 2010 2011 Eranos Jung Lectures The Greek word Eranos means a banquet to which every guest contributes. From 1933 onwards the Eranos Conferences took shape in Ascona, Moscia, Switzerland, springing from the idea of Olga Fröbe-Kapteyn to create a Meeting Place of East and West. Under the influence of the psychologist Carl Gustav Jung and other prominent leaders of that era the Eranos Conferences found their way towards symbolical, archetypal and mythological motifs. The Eranos gathering is symbolized by its famous Round Table, the image and meaning of which inspired many of the leading thinkers of the 20th century. For more than 70 years, depth psychologists, philosophers, theologians, orientalists, historians of religions as well as natural scientists find at Eranos a unique place where they could meet and exchange views. The rich collection of Eranos Yearbooks bears testimony to an immense and original work accomplished in various fields of learning.

**Christian Gnosis** Ferdinand Christian Baur, 2020-06-17 Baur published *Die christliche Gnosis* in 1835. It was his first great religious historical study and the most important book on Gnosticism published in the nineteenth century. It is now recognized as having a pivotal status in Baur studies. In it Baur offers a unique thesis about a link between ancient and modern religious philosophy. Gnosis is a type of religious philosophy that contains ideas about the relationship between God, world and human beings as expressed in concrete religious traditions and practices. As such it makes an important contribution to Christian theology. In the first part Baur develops a concept of gnosis in dialogue with his predecessors and contemporaries. He classifies the gnostic systems in terms of how they conceive the relationship of Christianity to Judaism and paganism and then describes them in detail: Valentinus, Ophites, Bardesanes, Saturninus, Basilides, Marcion, Pseudo-Clementines. Following transitional sections on the criticism of and reaction to gnosis in church history, the book ends with

modern religious philosophy Boehme Schelling Schleiermacher and Hegel Baur's first discussion of these major thinkers This book was written over a hundred years before the manuscript discovery at Nag Hammadi which awakened a lively interest in Gnosticism that continues to the present day     Vladimir Solov'ëv William Peter van den Bercken, Manon de Courten, Evert van der Zweerde, 2000 Vladimir Solov'ev 1853-1900 is regarded as the most original and systematic of the Russian philosophers in the 19th century He has once again become the subject of international scholarly attention both in Slavic countries and the West This volume contains selected papers presented at the international conference on Vladimir Solov'ev held at Nijmegen University the Netherlands in September 1998 The scope of this conference was wide ranging dealing with theological metaphysical philosophical and historical themes Though Solov'ev's broad intellectual activity defies any strict attempt at categorisation the editors have classified its major themes under the dual characteristic of reconciliation and polemics Solov'ev was passionately committed to the reconciliation of all beings under the idea of all unity which he attempted to achieve by engaging in uncompromising polemics with his contemporaries The thirty contributors to this volume are specialists from Russia Ukraine Bulgaria Western Europe and the United States The volume makes a significant contribution to the intellectual reassessment of Vladimir Solov'ev since the rediscovery of his philosophical heritage in his own homeland in the 1980s     *A Homiletic and Illustrative Treasury of Religious Thought* , 1889     *Conference of Bishops of the Anglican Communion* , 1920
