measurements and the modelling procedure The Bayesian formulation achieves this by formulating the finite element model as the posterior distribution of the model given the measured data within the context of computational statistics and applies these in aeronautical and mechanical engineering Probabilistic Finite Element Model Updating Using Bayesian Statistics contains simple explanations of computational statistical techniques such as Metropolis Hastings Algorithm Slice sampling Markov Chain Monte Carlo method hybrid Monte Carlo as well as Shadow Hybrid Monte Carlo and their relevance in engineering Key features Contains several contributions in the area of model updating using Bayesian techniques which are useful for graduate students Explains in detail the use of Bayesian techniques to quantify uncertainties in mechanical structures as well as the use of Markov Chain Monte Carlo techniques to evaluate the Bayesian formulations The book is essential reading for researchers practitioners and students in mechanical and aerospace engineering

Capitalism at Risk, Updated and Expanded Joseph L. Bower, Herman B. Leonard, Lynn S. Paine, 2020-06-30 Q Who should take the lead in fixing market capitalism A Business not government alone The spread of capitalism worldwide has made people wealthier than ever before But capitalism s future is far from assured Pandemics income inequality resource depletion mass migrations from poor to rich countries religious fundamentalism the misuse of social media and cyberattacks these are just a few of the threats to continuing prosperity that we see dominating the headlines every day How can capitalism be sustained And who should spearhead the effort Critics turn to government In their groundbreaking book Capitalism at Risk Harvard Business School professors Joseph Bower Herman Leonard and Lynn Paine argue that while robust governments must play a role leadership by business is essential For enterprising companies whether large multinationals established regional players or small startups the current threats to market capitalism present important opportunities In this updated and expanded edition of Capitalism at Risk Bower Leonard and Paine set forth a renewed and more urgent call to action With three additional chapters and a new preface the authors explain how the eleven original disruptors of the global market system clash with the digital age and they provide lessons on how to take action Presenting examples of companies already making a difference Bower Leonard and Paine show how business must serve both as innovator and activist developing corporate strategies that effect change at the community national and international levels Filled with rich insights this new edition of Capitalism at Risk presents a compelling and constructive vision for the future of market capitalism
