Social Origins of Religion

Roger Bastide,2003 This wide ranging study takes the story of Kenneth Jackson

s Language and History in Early Britain on from the 12th century to the end of the 20th century mainly by using written and oral recordings of place names The main emphasis is on the place names of Cardiganshire now Ceredigion but place names in other parts of Wales are also considered and they are all discussed in the context of historical dialectology American

Sociology of Religion ,2007-08-31 This is a collection of histories of various aspects of American sociology of religion The contributions range from descriptions of early dissertations accounts of changes in theoretical conceptualization the

evolution of studies of particular denominations to the rise of new areas of inquiry such as globalization feminism new religions and the study of the religious traditions of Latino a Americans Taken as a whole the volume complements rather than duplicates commemorative issues of the relevant journals which focused on the scholarly organizations in the field It represents a first effort to develop an organized treatment of the fascinating history of the specialty in the U S A **The**

SAGE Encyclopedia of the Sociology of Religion Adam Possamai,Anthony J. Blasi,2020-02-14 The SAGE Encyclopedia of the Sociology of Religion takes a three pronged look at this namely investigating the role of religion in society unpacking and evaluating the significance of religion in and on human history and tracing and outlining the social forces and influences that shape religion This encyclopedia covers a range of themes from fundamental topics like definitions secularization dimensions of religiosity to such emerging issues as civil religion new religious movements This Encyclopedia also addresses

contemporary dilemmas such as fundamentalism and extremism and the role of gender in religion *Sociologies of Religion*

,2015-07-14 Sociologies of Religion National Traditions presents fourteen histories of the sociological study of religion in a diverse set of nations Each of the histories is newly written by author who are uniquely situated to tell narrate the story of the field in their countries They give us the stories behind major personages theoretical traditions seminal works research institutes and professional associations The histories trace the various ways the field was established in different academic and religious contexts and the trajectories it took in emerging as a scientific specialty **Durkheim's Sociology of**

Religion WSF Pickering,2009-05-28 Religion is central to Durkheim s theory of society and his work laid most of the foundations of the sociology of religion Daring and brilliant though his analysis was its bold claims and questionable premises has made it the subject of ongoing academic debate Durkheim s work on the subject reached a peak with the publication in 1912 of what turned out to be a classic in its field The Elementary Forms of the Religious Life No other book has explained Durkheim s views on religion using the whole corpus of his writings Dr Pickering shows how Durkheim s position developed and explains the themes and theories that run through Durkheim s work This includes Durkheim s attitude towards

secularisation and Christian churches as well as his notion of the contemporary cult of the individual

The Time of the Tribes Michel Maffesoli, 1996-02-27 In this exciting book Michel Maffesoli argues that the conventional approaches to understanding solidarity and society are deeply flawed. He contends that mass culture has disintegrated and that today social existence is conducted through fragmented tribal groupings organized around the catchwords, brand names and sound bites of consumer culture. The book provides a rich backcloth against which to consider the rise of identity politics and the proliferation of lifestyle cultures.

The Colonial Origins of Modern Social Thought George Steinmetz, 2025-02-25 A new history of French social thought that connects postwar sociology to colonialism and empire. In this provocative and original retelling of the history of French social thought, George Steinmetz places the history and development of modern French sociology in the context of the French empire after World War II. Connecting the rise of all the social sciences with efforts by France and other imperial powers to consolidate control over their crisis-ridden colonies, Steinmetz argues that colonial research represented a crucial core of the nascent academic discipline of sociology, especially between the late 1930s and the 1960s. Sociologists who became favored partners of colonial governments were asked to apply their expertise to such social problems as detribalization, urbanization, poverty and labor migration. This colonial orientation permeated all the major subfields of sociological research, Steinmetz contends, and is at the center of the work of four influential scholars: Raymond Aron, Jacques Berque, Georges Balandier and Pierre Bourdieu. In retelling this history, Steinmetz develops and deploys a new methodological approach that combines attention to broadly contextual factors, dynamics within the intellectual development of the social sciences and sociology in particular, and close readings of sociological texts. He moves gradually toward the postwar sociologists of colonialism and their writings, beginning with the most macroscopic contexts which included the postwar reoccupation of the French empire and the turn to developmentalist policies and the resulting demand for new forms of social scientific expertise. After exploring the colonial engagement of researchers in sociology and neighboring fields before and after 1945, he turns to detailed examinations of the work of Aron who created a sociology of empires, Berque the leading historical sociologist of North Africa, Balandier the founder of French Africanist sociology and Bourdieu whose renowned theoretical concepts were forged in war-torn late colonial Algeria.

Bastide on Religion Michel Despland, 2014-12-18 Roger Bastide developed the theory of acculturation which provides a framework for understanding contact between different cultures and beliefs. Bastide on Religion offers a clear introduction to the life and work of this influential scholar. The volume focuses on Bastide's study of Afro-Brazilian religions, in particular his study of Candomblé, a religion born from the contact between African and Brazilian cultures. The book outlines Bastide's work on acculturation, his concept of the relationship between religion and culture, and his challenge to many dominant approaches to economic development.

Fabrics of Anthropological Knowledge Hande Birkalan-Gedik, Fabiana Dimpflmeier, 2025-07-01 Weaving together a collection of original essays, this book looks at the transnational circulations of people, concepts and

practices in anthropology revealing the many ways that they cross borders The essays focus on European anthropological traditions and beyond including broader transnational interactions to uncover the intricate fabrics of interconnected influences that have shaped anthropology By presenting these diverse threads the volume challenges the notion of singular separated traditions of anthropology and demonstrates how the field has been shaped by a rich plurality of transnational connections negotiations and entanglements in the past and today *Éléments de sociologie religieuse* Roger Bastide,1997

Les El ments de sociologie religieuse publi s en 1935 chez Armand Colin marquent un tournant dans la pens e de Roger Bastide avec cet ouvrage il abandonne la philosophie sa formation initiale pour se tourner vers la sociologie Apr s avoir constat l int r t suscit par les ph nom nes religieux aupr s des sociologues du monde entier il comprend en effet la n cessit de poser les bases d une sociologie religieuse afin de d limiter le champ de ces recherches et d viter ainsi les hypoth s es aventureuses ou arbitraires Dans ce livre Roger Bastide tudie les principaux l ments sociaux de la vie religieuse repr sentations collectives tabous rites et glises puis examine les diff rents syst mes religieux dans le monde et leur rapport avec l ensemble de la vie sociale C est gr ce cette grille d analyse du fait religieux qu il abordera quelques ann es plus tard les religions afro br siliennes et les ph nom nes d acculturation *Structural Anthropology Zero* Claude Levi-Strauss,2021-09-23

This volume of L vi Strauss s writings from 1941 to 1947 bears witness to a period of his work which is often overlooked but which was the crucible for the structural anthropology that he would go on to develop in the years that followed Like many European Jewish intellectuals L vi Strauss had sought refuge in New York while the Nazis overran and occupied much of Europe He had already been introduced to Jakobson and structural linguistics but he had not yet laid out an agenda for structuralism which he would do in the 1950s and 60s At the same time these American years were the time when L vi Strauss would learn of some of the world s most devastating historical catastrophes the genocide of the indigenous American peoples and of European Jews From the beginning of the 1950s L vi Strauss s anthropology tacitly bears the heavy weight of the memory and possibility of the Shoah To speak of structural anthropology zero is therefore to refer to the source of a way of thinking which turned our conception of the human on its head But this prequel to Structural Anthropology also underlines the sense of a tabula rasa which animated its author at the end of the war as well as the project shared with others of a civilizational rebirth on novel grounds Published here in English for the first time this volume of L vi Strauss s texts from the 1940s will be of great interest to students and scholars in anthropology sociology and the social sciences generally *Éléments d'optique électronique* Gaston Dupouy,1951-01-01T00:00:00+01:00

Cet ouvrage est une r dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine **Sociologie Et Religions** Liliane Voyé,Jaak Billiet,1999

What are the relations between sociology and the different religions Christianity with its various branches Judaism Islam Oriental religions sects and New Religious Movements That is the question which this work conceived on the occasion of the XXVth Conference of the International Society for the Sociology of Religion Soci t

Internationale de Sociologie des Religions SISR wishes to clarify The book retraces the varied and troubled history of these relations and also reveals how in opening up its research to other religions besides the Christian sociology is forced to redefine the very object of its field of study What is the religious This question which until recently was considered impertinent informs this book throughout It confronts the necessity of rethinking theories and methodological approaches which constructed in the context of 19th and early 20th century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

Quatre essais d'anthropologie des religions Raphaël

Mathieu Legault-Laberge, 2022-04-20T00:00:00-04:00 Cet ouvrage entend contribuer une vision systématique de l'anthropologie des religions ralliant le fait religieux ce qui constitue l'holistique de l'humain dans ses aspects autant individuels que sociaux Le religieux des églises vangeliques la manipulation de serpents venimeux des fins rituelles et le rite du peyote sont ici abordés en tant que phénomènes s'inscrivant dans des dynamiques complexes qui interpellent notamment l'intégration des personnes immigrantes et la tolérance de pratiques religieuses marginales voire la reconnaissance sociale de ces pratiques Ce livre aborde galement les défis méthodologiques rencontrés par les anthropologues lorsqu'ils mènent des ethnographies auprès de groupes religieux Il propose des pistes de réflexions épistémologiques de ce qu'est la recherche dans le domaine de l'anthropologie des religions recherche conçue comme une création s'inscrivant à l'interface de communautés religieuses et scientifiques et s'ouvrant au plus grand que l'humain
