Elephants The Deciding Decade:

Elephants Ronald Isaac Orenstein, 1997 *Elephants* International Wildlife Coalition, Ronald Isaac Orenstein, Shoshani, Jeheskel, 1991 The Exploitation of Mammal Populations V.J. Taylor, N. Dunstone, 2012-12-06 Human exploitation of other mammals has passed through three historical phases distinct in their ecological significance though overlapping in time Initially Homo sapiens was a predator particularly of herbivores but also of fur bearing predators From about 11 000 years ago goats and sheep were domesticated in the Middle East rapidly replacing gazelles and other game as the principal source of meat The principal crops including wheat and barley were taken into agriculture at about the same time and the resulting Neolithic farming culture spread slowly from there over the subsequent 10 500 years In a few places such as Mexico Peru and China this Middle Eastern culture met and merged with agricultural traditions that had made a similar but independent transition These agricultural traditions provided the essential support for the industrial revolution and for a third phase of industrial exploitation of mammals In this chapter these themes are drawn out and their ecological significance is investigated Some of the impacts of humans on other mammals require consideration on a world wide basis but the chapter concentrates parochially on Great Britain What have been the ecological consequences of our exploitation of other mammals

2.2 HISTORICAL PHASES OF EXPLOITATION

2.2.1 Predatory man Our nearest relatives chimpanzees orang utans and gorillas are essentially forest species deriving most of their diet from the fruits of forest trees and the shoots and leaves of plants

The White Bone Barbara Gowdy, 2000-06-03 A brilliantly inspired melding of research into the lives of African elephants and the creation of a distinctly original alternative world Joyce Carol Oates The New York Review of Books In *The White Bone* a novel imagined entirely from the perspective of African elephants Barbara Gowdy creates a world whole and separate that illuminates our own For years young Mud and her family have roamed the high grasses swamps and deserts of the sub Sahara Now the earth is scorched by drought and the mutilated bodies of family and friends lie scattered on the ground shot down by ivory hunters Nothing not the once familiar terrain or the age old rhythms of life or even memory itself seems reliable anymore Yet a slim prophecy of hope is passed on from water hole to water hole the sacred white bone of legend will point the elephants toward the Safe Place And so begins a quest through Africa's vast and perilous plains until at last the survivors face a decisive trial of loyalty and courage In *The White Bone* Barbara Gowdy performs a feat of imagination unparalleled in modern fiction Plunged into an alien landscape we orient ourselves in elephant time elephant space elephant consciousness and begin to feel as Gowdy puts it what it would be like to be that big and gentle to be that imperiled and to have that prodigious memory An astonishingly moving saga Kirkus Reviews Gowdy renders this arid African landscape with a subtle gorgeousness reminiscent of Isak Dinesen The Boston Globe Gowdy here performs her greatest creative feat yet Entertainment Weekly Gowdy has a great gift for sensual description Sarah Boxer The New York Times Book Review
