Jackson, 2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs life and culture The resources of a detailed bibliography directory and journals listing are combined in this single volume forming a unique guide to a multitude of diverse topics British politics government society literature thought arts economics history and geography Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline making this an invaluable manual H. H. Asquith V. Markham Lester, 2019-07-08 H H Asquith Last of the Romans chronicles the life of H H Asquith 1852 1928 the longest serving British prime minister between Lord Liverpool and Margaret Thatcher In this study V Markham Lester argues that the key to understanding Asquith is to recognize the classical virtues he acquired early in his education Employing unpublished sources and documents made public since the last full scale biography of Asquith was published more than forty years ago Lester challenges many interpretations in earlier biographies Previous studies of Asquith have often glossed over his education and early years contending that his development did not contribute materially to his mature outlook On the contrary by examining thoroughly Asquith's early career particularly his tenure as home secretary and his time as a barrister this book offers unappreciated insights into

Asquith's character and development as a political leader Lester further challenges the previous conclusions that Asquith failed as a war leader demonstrating that Asquith succeeded in meeting the novel challenges of World War I and that his accomplishments have been insufficiently understood He explains how Asquith's lifelong reliance on rational thought eloquence and self control produced the impressive leadership required to hold the fragile government together as it struggled to handle the unexpected and unprecedented challenges of world war and to lay the foundation for ultimate victory in the Great War

The Lancashire Giant Ross Murdoch Martin, 2000-01-01 The Lancashire Giant tells the story of a nine year old cotton weaver who went on to carve out two extraordinary careers for himself In the first David Shackleton became a truly dominating presence in the Edwardian trade union movement was the third MP to be elected under the banner of the Labor party and played a critical role in the infancy of the party His second career begun at Winston Churchill's prompting in 1910 took him to the summit of the British civil service and to active participation in the deliberations of Lloyd George's War Cabinet Prominent union officials have frequently become government ministers but none has repeated Shackleton's achievement in becoming the permanent secretary of a ministry This distinctive career is presented and analysed in meticulous detail by Ross Martin The result is a thorough and rounded portrait strengthened by some suggestive analysis of Shackleton as a private individual Labor History An accessible detailed analytic and sympathetic study English Historical Review

Power, Profits, and Patriarchy William G. Staples, Clifford L. Staples, 2001-08-07 Founded in 1791 and in existence for more than two hundred years the Kenrick iron foundry of West Bromwich England produced some of the finest cast iron hardware ever made William and Clifford Staples goal in studying the Kenrick case is to examine how taken for granted assumptions about class gender and familial relations contributed to the longevity of the firm The authors investigation uncovers three distinct political regimes of production that they characterize as successive forms of capitalist patriarchy Indeed it is contended that the Kenricks were able to maintain their power and their profits to a great extent because they were able to use patriarchy to solve pressing organizational problems By balancing a concern with both the materiality of production and its ideological cultural and political moments this book offers new insights into the nature of production politics patriarchy and the historical sociology of capitalism

Vampires, Mummies, and Liberals David Glover, 1996 Glover's efforts reveal a writer who was more wide ranging and politically engaged than his current reputation suggests An Irish Protestant and nationalist Stoker nonetheless drew his political inspiration from English liberalism at a time of impending crisis and the tradition's contradictions and uncertainties haunt his work At the heart of Stoker's writing Glover exposes a preoccupation with those sciences and pseudosciences from physiognomy and phrenology to eugenics and sexology that seemed to cast doubt on the liberal faith in progress He argues that Dracula should be read as a text torn between the stances of the colonizer and colonized unable to accept or reject the racialized images of backwardness that dogged debates about Irish nationhood

Yugoslavia in the British Imagination Samuel Foster, 2021-06-17 Despite Britain entering the 20th century as the dominant world power public discourses were imbued with a cultural pessimism and rising social anxiety Through this study Samuel Foster explores how this changing domestic climate shaped perceptions of other cultures and Britain's relationship to them focusing on those Balkan territories that formed the first Yugoslavia from 1918 to 1941 Yugoslavia in the British Imagination examines these connections and demonstrates how the popular image of the region's peasantry evolved from that of foreign Other to historical victim suffering at the hand of modernity's worst excesses and symbolizing Britain's perceived decline This coincided with an emerging moralistic sense of British identity that manifested during the First World War Consequently Yugoslavia was legitimized as the solution to peasant victimization and as Foster's nuanced analysis reveals enabling Britain's imagined and self-promoted revival as civilization's moral arbiter Drawing on a range of previously unexplored archival sources this compelling transnational analysis is an important contribution to the study of British social history and the nature of statehood in the modern Balkans

Visions of the Press in Britain, 1850-1950 Mark Hampton, 2004 Hampton surveys a diversity of sources to demonstrate that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries

The Literature of War Andrew Rutherford, 1989-01-01 It is widely assumed today that heroism is obsolete as an ideal that heroic virtue is a contradiction in terms and that war literature must be anti war by definition The author argues that the theoretical foundations of these assumptions are inadequate and do not fit the literary facts *The Man Who Would Be Kipling* A. Hagioannu, 2003-11-04 This study places Kipling's fiction in its original cultural intellectual and historical contexts exploring the impact of India America South Africa and Edwardian England on his imperialist narratives Drawing on manuscripts journalism and unpublished writings Hagioannu uncovers the historical significance and hidden meanings of a broad range of Kipling's stories extending the discussion from the best known works to a number of less familiar tales Through a combination of close textual analysis and lively historical coverage *The Man Who Would Be Kipling* suggests that Kipling's political ideas and narrative modes are more subtly connected with lived experience and issues of cultural environment than critics have formerly recognized
