Wisdom Arun Mago, 2017-02-15 This book is a compilation of small articles and posts. The whole motive of this book is to get people motivated and to become aware of small issues in which we have the tendency to overlook. This book is a serious effort by the author to change the perspective of people. These ideas and definitions are his own, and he wants people to think outside the box. The author believes that this is the best way of getting his messages to the mass public. He wanted to share many ideas. He also believes this is the only best way to convey his messages in small stories and posts. He believes if you even read one post a day, then this will have a great impact on you. The author believes that we do things without thinking about them and without evaluating the consequences and outcome of them. This book is a small gesture and a big effort to shake people up to the different ideas and to make people realize to see the world in a different perspective. He believes that we have very many interesting things around us, but we are just stuck in life and regular stuff. We need to realize our true potential and we should see the world in a different way.
