Eichmann Syndrome:

Neither Good Nor Bad Gerhard Besier, Katarzyna Stokłosa, 2014-06-19 When confronted by a range of violent actions perpetrated by lone individuals contemporary society exhibits a constant tendency to react in terms of helpless even perplexed horror Seeking explanations for the apparently inexplicable commentators often hurry to declare the perpetrators as evil This question is not restricted to individuals history has repeatedly demonstrated how groups and even entire nations can embark on a criminal plan united by the conviction that they were fighting for a good and just cause Which circumstances occasioned such actions What was their motivation Applying a number of historical scientific and social scientific approaches to this question this study produces an integrative portrait of the reasons for human behavior and advances a number of different interpretations for their genesis The book makes clear the extent to which we live in socially constructed realities in which we cling for dear life to a range of conceptions and beliefs which can all too easily fall apart in situations of crisis

A Marxist Interpretation of Church Leadership Jon-Arild Johannessen, 2023-02-15 A Marxist Interpretation of Church Leadership Romans 13 1 7 is a study of Romans 13 1 7 from a Marxist perspective Romans 13 1 7 introduce the concept of obedience to civil authorities As a result obedience has become an integral part of Western culture and may be the cultural foundation of how capitalism can manage control and direct people Romans 13 1 7 have persuaded many Christians including priests bishops and other representatives of the Church to obey Hitler Mussolini Franco and other tyrants and despots Today Romans 13 1 7 are used as an argument in support of the death penalty In this way Jesus s message of love has become by means of seven simple verses in Paul s epistles an argument that is used to support killing people The purpose of this book is to get to grips with the Pauline impulse from a Marxist perspective This is an historic impulse that has oppressed and excluded people and created an intolerant version of Christianity It has also established obedience as a fundamental principle in Western culture and thereby enhanced capitalism

Sephardic Jewry and Mizrahi Jews Peter Y. Medding, 2007 This volume looks at the major and rapid changes undergone by Sephardic Jewry in the last 50 years drawing on essays from the fields of demography history political science literature sociology gender studies and anthropology Themes include identity and the invigoration of Sephardic Judaism

Philosophy of Violence Jon-Arild Johannessen, 2024-01-01 If we know something about the patterns and conditions of genocide we may perhaps at an early point be able to diagnose and identify developments that lead to these acts If such developments can be diagnosed it will be easier for the international community to intervene and stop developments that can lead to a human catastrophe Consequently the only reason to examine the patterns and conditions for genocide is to contribute to efforts that will ensure that such crimes against humanity do not happen again The core message of this volume refers to silence as an ethical crime and historical amnesia as a perspective of the philosophy of violence

The Moral Commonwealth Philip Selznick, 1994-09-09 Establishes the intellectual foundations of a new movement in American thought communitarianism

Emerging in part as a response to the excesses of American individualism communitarianism seeks to restore the balance between individual rights and social responsibilities *Mass Atrocity, Ordinary Evil, and Hannah Arendt* Mark Osiel, 2001-01-01 Is it possible that the soldiers of mass atrocities Adolph Eichmann in Nazi Germany and Alfredo Astiz in Argentina's Dirty War for example act under conditions that prevent them from recognizing their crimes In the aftermath of catastrophic state sponsored mass murder how are criminal courts to respond to those who either gave or carried out the military orders that seem unequivocally criminal This important book addresses Hannah Arendt's controversial argument that perpetrators of mass crimes are completely unaware of their wrongdoing and therefore existing criminal laws do not adequately address these defendants Mark Osiel applies Arendt's ideas about the kind of people who implement bureaucratized large scale atrocities to Argentina's Dirty War of the 1970s and he also delves into the social conditions that could elicit such reprehensible conduct He focuses on Argentine navy captain Astiz who led one of the most notorious abduction squads to discover how he and other junior officers could justify the murders of more than ten thousand suspected subversives Osiel concludes that legal stipulations labeling certain deeds as manifestly illegal are indefensible He calls for a significant change in the laws of war to preserve both justice and the possibility of dialogue between factions in such sharply divided societies as Argentina Osiel's proposals have profound implications for future prosecutions of Pinochet's lieutenants Milosevic's henchmen the willing executioners of Rwanda and East Timor and other perpetrators of state endorsed murder and torture **Monkey Business** Gary Johnson, 1995 At once entertaining *Monkey Business* is your guide to the fundamental truths about management as you look back at the evolution of the behaviour over many millennia It will transform your view of the world of work **The Sociology of War and Violence** Siniša Malešević, 2010-06-10 War is a highly complex and dynamic form of social conflict This book demonstrates the importance of using sociological tools to understand the changing character of war and organised violence The author offers an original analysis of the historical and contemporary impact that coercion and warfare have on the transformation of social life and vice versa Although war and violence were decisive components in the formation of modernity most analyses tend to shy away from the sociological study of the gory origins of contemporary social life In contrast this book brings the study of organised violence to the fore by providing a wide ranging sociological analysis that links classical and contemporary theories with specific historical and geographical contexts Topics covered include violence before modernity warfare in the modern age nationalism and war war propaganda battlefield solidarity war and social stratification gender and organised violence and the new wars debate [International Bibliography Of Jewish Affairs, 1976-1977](#) Elizabeth E. Monsters in the Mirror Sara Buttsworth, Maartje Abbenhuis, 2010-08-31 This collection provides readers with a comprehensive overview of postwar representations of Nazism in popular culture documenting and critiquing their enormous impact and importance From Charlie Chaplin's *The Great Dictator* to the depiction of Nazis in the *Raiders of the Lost Ark* to other various literature comic books video games television programs and pop music Nazism has maintained a constant presence in popular culture after World War II Why are representations of Nazism which are often used to depict the ultimate expression of human evil so entrenched in our culture Each chapter in this book examines this multifaceted topic from different angles highlighting the different incidences of Nazistic representations in the post 1945 period The diverse subject matter in this text ranges from analysis of recent historical novels to the music of the neo folk movement to fetishes and pornography Readers will gain insight on how the imagery and symbology of Nazism in popular culture has changed over time and understand how the disconnect between representations of Nazism and the historical record have developed particularly with regard to the genocide that resulted from Nazi politics

Invisibilities of Political Torture Berenike Jung, 2020-07-06 Examines the ways in which moving images can help us better understand factual political torture Examines role of images and film in mis understanding of torture Offers synergised knowledge through comparative angle exploring differences and continuities of torture cases which were documented to vastly different extents Includes key popular movies independent films as well as serial television Combines serious film analysis with ethical political questions and historically and theoretically informed research Expands on the latest developments of comparative media scholarship and integrates the nostalgic material and affective turn Academic work on the subject of torture tends to mirror public debates on its presumed utility to focus on its historically correct representation or on profilmic structures of identification This book moves beyond these ideologically charged questions to explore how contemporary films have responded to a growing popular distrust in visual evidence when referencing factual cases of torture Two case studies the United States around 2004 and Chile from 1973 until the end of the dictatorship provide either an abundance or lack of such visual evidence Drawing on films and television series such as *Zero Dark Thirty* 2012 *NO* 2012 *Homeland* 2011 and *Los 80* 2008 14 amongst many others this book analyses the visible components of torture but also its invisibilities By casting a wider net on the definition of torture the author promotes a radical theoretical reframing of our concept of torture and suggests that audiovisual products can help broaden our comprehension of torture as an event which includes collective and emotional dimensions and long term social effects

The Supremacist Syndrome Marsh, Peter, 2021-03-10 A careful and compelling examination of human supremacism underlies ideologies such as anti-Semitism genocide racism misogyny and cruelty to animals Proponents of human exceptionalism claim that only humans possess certain morally significant capacities and as a result are entitled to be treated better than members of all other species In the last fifty years scientists

have discovered how these capacities are shared by other species which only raises the questions of how and why we evade responsibility for inhumane behavior not only to animals but to one another To answer these questions independent scholar Peter Marsh examines in depth three different ideologies ethnonationalist supremacism the Holocaust in Hungary racial supremacism the rule of King Leopold II of Belgium in the Congo and gender based supremacism men's treatment of women in Victorian and Edwardian England He shows how supremacists applied mechanisms of moral disengagement to legitimize and evade personal responsibility for oppressing and exploiting members of a less powerful group Marsh then considers whether these different types of supremacism have common features and compares them to the way we treat animals to examine whether that too causes unjustified harm to members of a weaker group and is wrong in the same way racism sexism and other supremacist ideologies are Finally he asks the what we can do to overcome human supremacism and other supremacist ideologies providing practical examples of cross cultural collaboration humane education veganism and extending concepts of identity beyond borders of culture race and nation as Europeans have done by establishing the European Union

Exile, Statelessness, and Migration Seyla Benhabib, 2018-09-11 An examination of the intertwined lives and writings of a group of prominent twentieth century Jewish thinkers who experienced exile and migration Exile Statelessness and Migration explores the intertwined lives careers and writings of a group of prominent Jewish intellectuals during the mid twentieth century in particular Theodor Adorno Hannah Arendt Walter Benjamin Isaiah Berlin Albert Hirschman and Judith Shklar as well as Hans Kelsen Emmanuel Levinas Gershom Scholem and Leo Strauss Informed by their Jewish identity and experiences of being outsiders these thinkers produced one of the most brilliant and effervescent intellectual movements of modernity Political philosopher Seyla Benhabib's starting point is that these thinkers faced migration statelessness and exile because of their Jewish origins even if they did not take positions on specifically Jewish issues personally The sense of belonging and not belonging of being eternally half other led them to confront essential questions What does it mean for the individual to be an equal citizen and to wish to retain one's ethnic cultural and religious differences or perhaps even to rid oneself of these differences altogether in modernity Benhabib isolates four themes in their works dilemmas of belonging and difference exile political voice and loyalty legality and legitimacy and pluralism and the problem of judgment Surveying the work of influential intellectuals Exile Statelessness and Migration recovers the valuable plurality of their Jewish voices and develops their universal insights in the face of the crises of this new century

Memory and History Roderick Stackelberg, 2011-11-18 Memory and History the second volume of historian Rod Stackelberg's autobiography picks up his personal and professional reminiscences where his first volume Out of Hitler's Shadow 2010 left off After teaching high school in northern Vermont Stackelberg belatedly resumed his graduate training in pursuit of a college teaching career He resumes his graduate education at the Universities of Vermont and Massachusetts Amherst earning a PhD in modern European history in 1974 a full eighteen years after earning his BA at Harvard University It was not

a good time to enter the academic job market as indeed he had been forewarned by his instructors as early as 1970 Several chapters of *Memory and History* deal with the trials and tribulations of job hunting in the unfavorable academic employment climate of the 1970s He ultimately attained his goal of pursuing a college teaching career ultimately teaching at San Diego State University the University of Oregon and the University of South Dakota before joining the history department at Gonzaga University retiring after more than a quarter century at Gonzaga in 2004 This continuation of Stackelberg's life story shares details of history and of academic life both his own and of more general problems and conflicts in that sphere in the late twentieth century
