Using Poetry Across the Curriculum Barbara Chatton, 2010-01-13 This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum helping librarians and teachers working with kindergarten through middle school students. This second edition of *Using Poetry Across the Curriculum: Learning to Love Language* offers a comprehensive list of poetry anthologies poetic picture books and poetic prose works in a wide variety of subject areas. While it maintains the original edition's focus on ideas and resource lists for integration of poetry into all areas of the curriculum it is thoroughly revised to cover current issues in education and the wealth of new poetry books available. The book is organized by subject areas commonly taught in elementary and middle schools and within these by the national standards in each area. Numerous examples of poetry and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed. A sampling of units that arise from groups of works writing and performance ideas and links across the curriculum is also included. While many teaching ideas and topics provide references to the standards they meet this title is unique in starting with those standards and making links across them.
