Eighteenth Century:

A Companion to Eighteenth-Century Europe Peter H. Wilson, 2009-04-22 This Companion contains 31 essays by leading international scholars to provide an overview of the key debates on eighteenth century Europe. Examines the social, intellectual, economic, cultural, and political changes that took place throughout eighteenth century Europe. Focuses on Europe while placing it within its international context. Considers not just major western European states but also the often neglected countries of eastern and northern Europe.

A Concise Companion to the Restoration and Eighteenth Century Cynthia Wall, 2008-04-15 This Concise Companion presents fresh perspectives on eighteenth century literature. Contributes to current debates in the field on subjects such as the public sphere, travel and exploration, scientific rhetoric, gender, and the book trade and historical versus literary perceptions of life on London streets. Searches out connections between the remarkable number of new genres that appeared in the eighteenth century. Crosses conventional disciplinary lines. Demonstrates that philosophy, history, politics, and social theory both influence and are influenced by literature.

British Women Poets of the Long Eighteenth Century Paula R. Backscheider, Catherine E. Ingrassia, 2022-10-01 This anthology gathers 368 poems by 80 British women poets of the long eighteenth century. Few of these poems have been reprinted since originally published and all are crucial to understanding fully the literary history of women writers. Paula R. Backscheider and Catherine E. Ingrassia demonstrate the enormous diversity of poetry produced during this time by organizing the poems in three broad and deliberately overlapping categories by genre, establishing that women wrote in all of the forms that men did with equal mastery and creativity by theme, offering a revisionary look at the range of topics these writers addressed including war, ecology, friendship, religion, and the stages of life, and by the poems' more specific focus on the women's experiences as writers. Backscheider and Ingrassia have selected poems that represent the best work of skilled poets, creating a wonderful mix of canonical and little known pieces. They include the complete texts of longer poems that are abridged or omitted in other collections. Their substantial part introductions, textual notes, bibliographical information, and biographical sketches situate the poets and their writings within the cultural and political milieu in which they appeared. To generate further scholarship on this subject, this essential anthology puts primary texts in front of students, scholars, and general readers. It fills the persistent need to document women's poetic expression during the long eighteenth century and to rewrite the literary history of the period, a history from which women have largely been excluded.

Architecture, Print Culture and the Public Sphere in Eighteenth-Century France Richard Wittman, 2007 This book focuses on the complex ways in which architectural practice, theory, patronage, and experience became modern with the rise of a mass public and a reconfigured public sphere between the end of the seventeenth century and the French Revolution. Presenting a fresh theoretical orientation and a large body of new primary research, this book offers a new cultural history of virtually all the major monuments of eighteenth century Parisian architecture with detailed analyses of the public debates that erupted around such Parisian monuments as the east

Godless Fictions in the Eighteenth Century James Bryant Reeves, 2020-07-09 Although there were no self avowed British atheists before the 1780s authors including Jonathan Swift Alexander Pope Sarah Fielding Phebe Gibbes and William Cowper worried extensively about atheism s dystopian possibilities and routinely represented atheists as being beyond the pale of human sympathy Challenging traditional formulations of secularization that equate modernity with unbelief Reeves reveals how reactions against atheism rather helped sustain various forms of religious belief throughout the Age of Enlightenment He demonstrates that hostility to unbelief likewise produced various forms of religious ecumenicalism with authors depicting non Christian theists from around Britain s emerging empire as sympathetic allies in the fight against irreligion *Godless Fictions in the Eighteenth Century* traces a literary history of atheism in eighteenth century Britain for the first time revealing a relationship between atheism and secularization far more fraught than has previously been supposed

French Inventions of the Eighteenth Century Shelby T. McCloy, 2021-10-21 The eighteenth century age of France s leadership in

Western civilization was also the most flourishing period of French inventive genius. Generally obscured by England's great industrial development are the contributions France made in the invention of the balloon, paper-making machines, the steamboat, the semaphore telegraph, gas illumination, the silk loom, the threshing machine, the fountain pen, and even the common graphite pencil. Shelby T. McCloy believes that these and many other inventions, which have greatly influenced technological progress, made prerevolutionary France the rival if not the leader of England. In his book, McCloy analyzes the factors that led to France's inventive activity in the eighteenth century. He also advances reasons for France's failure to profit from her inventive prowess at a time when England's inventions were being put to immediate and practical use.

Public Opinion, Propaganda, and Politics in Eighteenth-century England Thomas Whipple Perry, 1962. This book is the first thorough account of the Jewish Naturalization Act of 1753, a notorious but little understood episode in English history. The author discusses the position of the Jews in the mid-eighteenth century and explains why they sought and obtained passage of the bill, which was opposed with a well-organized propaganda campaign.

The Politics of Motherhood Toni Bowers, 1996-07-13. An examination of the eighteenth-century social and cultural struggle to develop new ideas for virtuous motherhood.
