Eighteenth-century British Aesthetics:

Eighteenth-Century British Aesthetics Dabney Townsend, 2019-05-20 In *Eighteenth Century British Aesthetics* editor Dabney Townsend has brought together the work of such well known writers as John Dryden Joshua Reynolds David Hume and Samuel Johnson with the more obscure works of aestheticians such as Uvedale Price Daniel Webb John Baillie and James Harris whose work is difficult to find but is nonetheless important informative and interesting These twenty two selections accompanied by Dabney Townsend's historical essay on the development of eighteenth century aesthetics make the history of aesthetics accessible to both students and specialists alike *The Beautiful, the Sublime & the Picturesque in Eighteenth-century British Aesthetic Theory. [With Plates.]* Walter John HIPPLE, 1957 *The Seventh Sense* Peter Kivy, 2003 Now reissued with substantial new material this is the definitive study of the aesthetic theory of the great 18th century philosopher Francis Hutcheson and its huge influence on 18th century aesthetics *The Beautiful, the Sublime, & the Picturesque in Eighteenth-century British Aesthetic Theory* Walter John Hipple, 1957 *Studies in Eighteenth-Century British Art and Aesthetics* Ralph Cohen, 2021 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 *The Seventh Sense* Peter Kivy, 2003-02-20 The *Seventh Sense* is the definitive study of the aesthetic theory of the great eighteenth century philosopher Francis Hutcheson arguably the founder of the modern discipline of aesthetics and one of the most important figures of the Scottish Enlightenment This new edition brings Peter Kivy's seminal work back into print substantially expanded by the addition of seven essays which deal primarily with Hutcheson's relation to other thinkers and his influence on eighteenth and early nineteenth century aesthetics Part I of *The Seventh Sense* presents a detailed analysis of Hutcheson's aesthetic theory Part II traces the considerable influence of Hutcheson's theory up to the early years of the nineteenth century Part III is a new and substantial addition to the original work collecting Peter Kivy's essays on this topic since the first edition appeared which deal primarily with Hutcheson David Hume and Thomas Reid Philosophers of art historians of philosophy and historians working on eighteenth century European art and culture will find this new edition an invaluable resource *The Sublime* Andrew Ashfield, Peter de Bolla, 1996-08-15 This collection of texts on the Sublime provides the historical context for the foundation and discussion of one of the most important aesthetic debates of the Enlightenment The significance of the Sublime in the eighteenth century ranged across a number of fields literary criticism empirical psychology political economy connoisseurship landscape design and aesthetics painting and the fine arts and moral philosophy and has continued to animate aesthetic and theoretical debates to this day However the unavailability of many of the crucial texts of the founding tradition has resulted in a conception of the Sublime often limited to the definitions of its most famous theorist Edmund

Burke Andrew Ashfield and Peter de Bolla's anthology which includes an introduction and notes to each entry offers students and scholars ready access to a much deeper and more complex tradition of writings on the Sublime many of them never before printed in modern editions *Taste and Experience in Eighteenth Century British Aesthetics* Dabney Townsend, 2022

Figures of

Memory Zsolt Komaromy,2011-04-01 Zsolt Komaromy s Figures of Memory From the Muses to Eighteenth Century British

Aesthetics affects a rapprochement between memory studies and eighteenth century British aesthetics. It argues that the assessment of memory in the history of aesthetics and criticism has been determined by the ideological import of the creative imagination based on the dichotomies of imitative versus creative or reproductive versus productive mental and artistic procedures. The legacy of such an opposition can still be felt in the way the literary relevance of memory is based on either viewing it as a representational reproductive imitative power that is a counter term to the creative sense of the imagination or as a constructive productive creative power that is assimilated by the creative imagination. The notion of memory however harbors problems that unsettle such dichotomies. This book does the timely work of employing insights offered by memory studies in reconsidering memory in the history of aesthetics; it suggests that memory's literary relevance is explained precisely by the problems that make it resistant to the reproductive productive opposition. These problems are explored through various figures representing senses of memory such as the Muses or metaphors for memory in philosophical and critical discourse. Tracing figures of memory from the Muses through Plato and Descartes to works by Pope, Addison, Gerard and Kames, Komrovy reveals an undercurrent of thought in eighteenth century British aesthetics that questions memory's nominal opposition to the imagination and that exploits memory's simultaneously reproductive and constructive nature in the emerging theory of the imagination. By thus claiming that the tradition of memory's literary relevance is not marginalized but in fact perpetuated in eighteenth century British critical thought, *Figures of Memory* gives a powerful new perspective on the history of memory in aesthetics and criticism. A theoretical work with claims for historical generalization, *Figures of Memory* will appeal to those interested in the history of aesthetics and criticism, in memory studies, in literary theory, to students of literature and memory, of literature and psychology, and to scholars of the eighteenth century with theoretical interests.

The book consists of an introduction and eight chapters and is divided into three parts. The first part, *The Age of Taste*, covers the eighteenth century approaches of internal sense theorists, imagination theorists, and associationists. The second, *The Age of Romanticism*, takes readers from debates over the picturesque through British Romanticism to late Victorian criticism. The third, *The Age of Analysis*, covers early twentieth century theories of Formalism and Expressionism to conclude with Wittgenstein and a number of views inspired by his thought.
