The Bipolar Express David Coleman, 2014-07-08 In the past few decades awareness of bipolar disorder has significantly increased but understanding of the condition remains vague for most of the general public Though the term itself is relatively recent the condition has affected individuals for centuries and no more profoundly than in the arts The historical connections among manic depression and such fields as literature music and painting have been previously documented However the impact of bipolar disorder on movie makers and its depiction on the screen has yet to be thoroughly examined In *The Bipolar Express* Manic Depression and the Movies David Coleman provides an in depth examination of the entwined natures of mood disorders and moviemaking In this volume Coleman looks at the writers directors and actors who have faced the mood swings and behavior that are hallmarks of this condition from Greta Garbo and Orson Welles to Marilyn Monroe and Jonathan Winters In addition to recognizing the cinematic contributions of manic depressive filmmakers the author also looks at movies that have portrayed bipolar disorder with varying degrees of accuracy including *Citizen Kane* *Rebel without a Cause* *Breakfast at Tiffany's* *Hannah and Her Sisters* *The Aviator* and *Silver Linings Playbook* From early silents of the twentieth century through critically acclaimed films of today this book compares depictions of mood swings on screen with clinical examples of actual manic depression carefully distinguishing real from stereotypical portrayals This fascinating study is augmented by a concise filmography of more than 400 feature length films from around the world with themes or characters relating to manic depressive illness Though aimed at film fans and anyone interested in manic depression mental illness or related medical studies this book will also prove valuable to medical and mental health professionals

Film Michael Wood, 2012-01-26 Film is considered by some to be the most dominant art form of the twentieth century It is many things but it has become above all a means of telling stories through images and sounds The stories are often offered to us as quite false frankly and beautifully fantastic and they are sometimes insistently said to be true But they are stories in both cases and there are very few films even in avant garde art that don't imply or quietly slip into narrative This story element is important and is closely connected with the simplest fact about moving pictures they do move Even the older meanings of the word film a membrane a covering a veil an emanation now seem to have something to do with moving pictures Many people believe films are an instrument of illusion an emphatic way of seeing what is not there and this capacity has been both celebrated and condemned Like a movie mostly means like some sort of fairy tale But what about the reverse proposition that more than any other invention film brings us close to the world as it actually is Photography is truth a character says in a film by Jean Luc Godard And cinema is the truth twenty four times per second The same claim is made every day albeit less epigrammatically by newsreels and surveillance cameras In this *Very Short Introduction* Michael Wood provides a brief history and examination of the nature of the medium of film considering its role and impact on society as well as its future in the digital age

Cross, 2024-02-13 2024 Outstanding Academic Title given by Choice Reviews The history of leisure time from the earliest societies to the work from home era Free time one of life s most precious things often feels unfulfilling But why And how did leisure activities transition from strolling in the park for hours to doomscrolling on social media for thirty minutes Today despite the promise of modern

industrialization many people experience both a scarcity of free time and a disappointment in it Free Time offers a broad historical explanation of why our affluent society does not afford more time away from work and why that time is often unsatisfying Gary S Cross explores the cultural social economic and political history especially of the past 250 years to understand the roots of our conceptions of free time and its use By the end of the nineteenth century a common expectation was that industrial innovations would lead to a progressive reduction of work time and a subsequent rise in free time devoted to self development and social engagement However despite significant changes in the early twentieth century both goals were frustrated thus leading to the contemporary dilemma Cross touches on leisure of all kinds from peasant festivals and aristocratic pleasure gardens to amusement parks movie theaters and organized sports to internet surfing and even the use of alcohol and drugs This wide ranging cultural and social history explores the industrial era origins of our modern obsession with work and productivity but also the historical efforts to liberate time from work and cultivate free time for culture

Seiler, 2013 In this authoritative work Seiler and Seiler argue that the establishment and development of moviegoing and movie exhibition in Prairie Canada is best understood in the context of changing late nineteenth century and early twentieth century social economic and technological developments From the first entrepreneurs who attempted to lure customers into movie exhibition halls to the digital revolution and its impact on moviegoing *Reel Time* highlights the pivotal role of amusement venues in shaping the leisure activities of working and middle class people across North America As marketing

efforts the lavish interiors of the movie palace and the romantic view of the local movie theatre concealed a competitive environment in which producers exhibitors and distributors tried to monopolize the industry and drive their rivals out of business. The pitched battles and power struggles between national movie theatre chains took place at the same time that movie exhibitors launched campaigns to reassure moviegoers that theatres were no longer the unclean and immoral places of amusement of yesteryear. Under the leadership of impresarios the movie theatre rose up from these attacks to become an important social and cultural centre one deemed suitable for women and children. An innovative examination of moviegoing as a social practice and movie exhibition as a commercial enterprise, *Reel Time* depicts how the industry shaped the development of the Canadian Prairie West and propelled the region into the modern era.
