From Playgrounds To Battlefields:

From Playgrounds to Battlefields Piet van der Byl, 1971 Autobiography of South African politician Piet van der Byl From playground to battlefields deals with his early life until the end of World War I

Playgrounds And Battlefields Francisco Martínez, Klemen Slabina, Mihhail Lotman, Siobhan Kattago, Kevin Ryan, Tom Frost, Flo Kasearu, Marcos Farias-Ferreira, Jaanika Puusalu, Dita Bezdičková, Emeli Theander, Patrick Laviolette, Alastair Bonnett, Oleg Pachenkov and Lilia Voronkova, Anne Vatén, Helena Holgersson, Patricia García Espín and Manuel García Fernández, Benjamin Noys, Kristina Norman, Madli Maruste, Pille Runnel and Ehti Järv, Alessandro Testa, Sean Homer, Tarmo Jüristo, 2014 This book explores whether the metaphors of playground and battlefield might be analytically meaningful terms for understanding contemporary society The duality of playgrounds and battlefields is presented as a space of continuous becoming related to the recreation domination and experience of a place as well as to corresponding practices of excess interaction and enjoyment We believe that a discussion about engagement and responsibility in a modern social setting is possible only through new concepts that avoid binary formulations Playgrounds and battlefields are thus used as a trigger enabling a fresh approach to a contemporaneity that is highly influenced by the way in which societies deal with their past and future In this sense the *Playgrounds and Battlefields* volume is a thematic one mapping the field and offering grammar of possibility

Remains of the Soviet Past in Estonia Francisco Martínez, 2018-07-05 What happens to legacies that do not find any continuation In Estonia a new generation that does not remember the socialist era and is open to global influences has grown up As a result the impact of the Soviet memory in people's conventional values is losing its effective power opening new opportunities for repair and revaluation of the past Francisco Martínez brings together a number of sites of interest to explore the vanquishing of the Soviet legacy in Estonia the railway bazaar in Tallinn where concepts such as market and employment take on distinctly different meanings from their Western use Linnahall a grandiose venue whose Soviet heritage now poses difficult questions of how to present the building's history Tallinn's cityscape where the social spatial and temporal co-evolution of the city can be viewed and debated Narva a city that marks the border between the Russian Federation NATO and the European Union and represents a place of continual negotiation of belonging and the new Estonian National Museum in Raadi an area on the outskirts of Tartu that has been turned into a memory field The anthropological study of all these places shows that national identity and historical representations can be constructed in relation to waste and disrepair too also demonstrating how we can understand generational change in a material sense Praise for *Remains of the Soviet Past in Estonia* By adopting the tropes of repair and waste this book innovatively manages to link various material registers from architecture intergenerational relations affect and museums with ways of making the past present Through a rigorous yet transdisciplinary method Martínez brings together different scales and contexts that would often be segregated out In this

respect the ethnography unfolds a deep and nuanced analysis providing a useful comparative and insightful account of the processes of repair and waste making in all their material social and ontological dimensions Victor Buchli Professor of Material Culture at UCL This book comprises an endearingly transdisciplinary ethnography of postsocialist material culture and social change in Estonia Mart nez creatively draws on a number of critical and cultural theorists together with additional research on memory and political studies scholarship and the classics of anthropology Grappling concurrently with time and space the book offers a delightfully thick description of the material effects generated by the accelerated post Soviet transformation in Estonia inquiring into the generational specificities in experiencing and relating to the postsocialist condition through the conceptual anchors of wasted legacies and repair This book defies disciplinary boundaries and shows how an attention to material relations and affective infrastructures might reinvigorate political theory Maria M lksoo Senior Lecturer Brussels School of International Studies at the University of Kent

Motor Age ,1914 **General Jan Smuts and his First World War in Africa, 1914-1917** David Brock Katz,2022-05-19 A new assessment of Jan Smuts s military leadership through examination of his World War I campaigning demonstrating that he was a gifted general conversant with the craft of maneuver warfare and a command style steeped in the experiences of his time as a Boer general World War I ushered in a renewed scramble for Africa At its helm Jan Smuts grabbed the opportunity to realize his ambition of a Greater South Africa He set his sights upon the vast German colonies of South West Africa and East Africa the demise of which would end the Kaiser s grandiose schemes for Mittelfrika As part of his strategy to shift South Africa s borders inexorably northward Smuts even cast an eye toward Portuguese and Belgian African possessions Smuts his abilities as a general much denigrated by both his contemporary and then later modern historians was no armchair soldier This cabinet minister and statesman donned a uniform and led his men into battle He learned his soldiery craft under General Koos De la Rey s tutelage and another soldier statesman General Louis Botha during the South African War 1899 1902 He emerged from that war immersed in the Boer maneuver doctrine he devastatingly waged in the guerrilla phase of that conflict His daring and epic invasion of the Cape at the head of his commando remains legendary The first phase of the German South West African campaign and the Afrikaner Rebellion in 1914 placed his abilities as a sound strategic thinker and a bold operational planner on display Champing at the bit he finally had the opportunity to command the Southern Forces in the second phase of the German South West African campaign Placed in command of the Allied forces in East Africa in 1916 he led a mixed bag of South Africans and Imperial troops against the legendary Paul von Lettow Vorbeck and his Schutztruppe Using his penchant for Boer maneuver warfare together with mounted infantry led and manned by Boer Republican veterans he proceeded to free the vast German territory from Lettow Vorbeck s grip Often leading from the front his operational concepts were an enigma to the British under his command remaining so to modern day historians Although unable to bring the elusive and wily Lettow Vorbeck to a final decisive battle Smuts conquered most of the territory by the end of his tenure in February

1917 General Jan Smuts and His First World War in Africa makes use of multiple archival sources and the official accounts of all the participants to provide a long overdue reassessment of Smuts's generalship and his role in furthering the strategic aims of South Africa and the British Empire in Africa during World War I ***A Military History of Modern South Africa*** Ian van der Waag, 2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti-apartheid movement and the many battles in between Twentieth century South Africa saw continuous often rapid and fundamental socioeconomic and political change The century started with a brief but total war Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa The Union Defence Force later the SADF was deployed during most of the major wars of the century as well as a number of internal and regional struggles the two world wars Korea uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest The century ended as it started with another war This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years The outcome included the final withdrawal of foreign troops from southern Africa the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad based democracy This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars rebellions uprisings and protests of the period It deals in the first instance with the evolution of South African defense policy the development of the armed forces and the people who served in and commanded them It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars ***Course in American Citizenship in the Grades for the Public Schools of Iowa*** Iowa. Department of Public Instruction, 1921 ***The 10 Best of Everything National Parks***, 2011 Collects hundreds of top ten lists highlighting America's national parks ***Children Writing the Holocaust*** S. Vice, 2004-06-29 This book examines a wide range of works written by and about child survivors and victims of the Holocaust The writers analyzed range from Anne Frank and Saul Friedlander to Ida Fink and Louis Begley topics covered include the Kindertransport experience exile to Siberia living in hiding Jewish children masquerading as Christian and ghetto diaries Throughout the argument is made that these texts use such similar techniques and structures that children's eye views of the Holocaust constitute a discrete literary genre ***Media Trust in a Digital World*** Thomas Osburg, Stephanie Heinecke, 2019-11-23 This book examines the shifting role of media trust in a digital world and critically analyzes how news and stories are created distributed and consumed Emphasis is placed on the current challenges and possible solutions to regain trust and restore credibility The book reveals the role of trust in communication in society and in media and subsequently addresses media at the crossroads as evinced by phenomena like gatekeepers echo chambers and fake news The following chapters explore truth and trust in journalism the role of algorithms and robots in media and the relation between social media and individual trust The book then presents case studies highlighting how media creates trust in the

contexts of brands and businesses politics and non governmental organizations science and education In closing it discusses the road ahead with a focus on users writers platforms and communication in general and on media competency skills and education in particular *Cities into Battlefields* Stefan Goebel,Derek Keene,2017-03-02 Cities have always had a key role in warfare as strategic centres which periodically suffered the horrors of siege and sack With industrialisation however they were drawn ever closer to the front line and to direct and continuous experience of fighting and destruction Cities into Battlefields Metropolitan Scenarios Experiences and Commemorations of Total War explores the cultural imprint of military conflict on metropolises world wide in the era of the First and Second World Wars It brings together cultural and urban historians and scholars of related disciplines including anthropology education and geography The volume examines how the emergence of total warfare blurred the boundaries between home and front and transformed cities into battlefields The logic of total mobilisation turned the social and cultural fabric of urban life upside down Arranged so as to bring out the evolution of experience over time the essays explore Eastern and Central Europe Britain and Western Europe and Japan and address several key themes The first strand scenarios explores the apocalyptic imagination of intellectuals and experts in peacetime Artists and writers anticipating doom presented the coming upheaval as an urban event a commonplace of late Victorian and post 1918 pessimism On a different plane civil servants and engineers materialised visions of urban chaos and devised countermeasures in case of emergencies Both groups helped to furnish a repertoire of cultural forms which channelled and encoded the actual experience of war The second strand deals with metropolitan experiences notably mobilisation deprivation and destruction in wartime Ruins and the repercussions of war is the central theme of the third strand commemorations which investigates post war efforts to remember and forget The quest for meaningful forms of commemoration was hard enough after the First World War the Second World War which saw whole cities disappear in flames raised the possibility that the limits of representation had been reached The central contention of this volume that total war in the twentieth century has a significant but often overlooked metropolitan dimension is fully addressed thereby filling a conspicuous gap in the currently available literature *Gettysburg* Jim Weeks,2009-07-26 For Franklin L Bialon
