*Sustainable Development of Modern Digital Economy* Julia V. Ragulina,Arutyun A. Khachaturyan,Armen S. Abdulkadyrov,Zoya Sh. Babaeva,2021-06-30 The digital economy is a new direction in which the modern global economic system is now heading This book seeks to adapt the digital economy concept to the priorities of humanity including the implementation of global development goals The authors develop and substantiate scientific and methodological criteria for assessing the sustainability of the modern digital economy and offer several concrete recommendations for improving the concept of the digital economy by incorporating global development goals      The Revolution to Come Dan Edelstein,2025-04-15 How an event once considered the greatest of all political dangers came to be seen as a solution to all social problems Political thinkers from Plato to John Adams saw revolutions as a grave threat to society and advocated for a constitution that prevented them by balancing social interests and forms of government The Revolution to Come traces how evolving conceptions of history ushered in a faith in the power of revolution to create more just and reasonable societies Taking readers from Greek antiquity to Leninist Russia Dan Edelstein describes how classical philosophers viewed history as chaotic and directionless and sought to keep historical change especially revolutions at bay This conception prevailed until the eighteenth century when Enlightenment thinkers conceived of history as a form of progress and of revolution as its catalyst These ideas were put to the test during the French Revolution and came to define revolutions well into the twentieth century Edelstein demonstrates how the coming of the revolution leaves societies divided over its goals giving rise to new forms of violence in which rivals are targeted as counterrevolutionaries A panoramic work of intellectual history The Revolution to Come challenges us to reflect on the aims and consequences of revolution and to balance the value of stability over the hope for change in our own moment of fear and upheaval      Handbook of Revolutions in the 21st Century Jack A.
