Ahdar,Nicholas Aroney,2010 Leading scholars from a range of countries and academic disciplines and representing different political viewpoints and faith traditions explore the complex issues surrounding the legal recognition of religious faith in a multicultural society *Jewish Life in Early Modern Rome*

Kenneth Stow, 2018-01-18 The essays in this second volume by Kenneth Stow explore the fate of Jews living in Rome directly under the eye of the Pope. Most Roman Jews were not immigrants; some had been there before the time of Christ. Nor were they cultural strangers. They spoke Roman Italian, ate and dressed as did other Romans, and their marital practices reflected Roman noble usage. Rome's Jews were called *cives*, but unequal ones, and to resolve this anomaly, Paul IV closed them within ghetto walls in 1555. The rest of Europe would resolve this crux in the late eighteenth century through civil emancipation. In its essence, the ghetto was a limbo from which only conversion, promoted through disciplining, offered an exit. Nonetheless, though increasingly impoverished, Rome's Jews preserved culture and reinforced family life, even many women's rights. A system of consensual arbitration enabled a modicum of self-governance. Yet Rome's Jews also came to realize that they had been expelled into the ghetto, *nostro ghet*, a document of divorce as they called it. There they would remain segregated so long as they remained Jews. Such are the themes that the author examines in these essays.

The Genesis of Marriage: A Drama Displaying the Nature and Character of God Richard Shenk, 2018-08-01 A theological exploration of Genesis 2 which renews our vision of the purpose of marriage as the central drama within God's salvation plan. Marriage seems increasingly irrelevant to many people today. But is this a true understanding of marriage? Could it be that God may have expectations for marriage which are distinct from our own and wholly unaffected by our feelings or debates? If God is the author and definer of marriage, then we must look to the Author to discern its meaning rather than ourselves. The Genesis of Marriage sets out a biblical theology of marriage grounded in the Marriage Text of Genesis 2:18-25 and investigates how it fits in its own context of Genesis 1:3 and the whole of Scripture. Examining the Marriage Text exegetically and theologically, Shenk shows this as the climax and conclusion of the two creation accounts and explores what this reveals about the nature and character of God. The doctrinal implications of this are then explored, answering such practical questions such as: What are the ethics of marriage? and How do we approach the real-world concerns of separation, divorce, and remarriage? Shenk's exploration helps dispel our modern disillusionment with marriage, or at least our ideas and beliefs about marriage which may be at odds with God's, to reveal deep truth about the nature and character of God.

Christianity and the Disciplines Mervyn Davies, Oliver D. Crisp, Gavin D'Costa, Peter Hampson, 2012-11-02 This volume will show how various intellectual disciplines most found within the modern university can learn from theology and philosophy in primarily methodological and substantive terms. It will explore the possible ways in which current presuppositions and practices of the discipline might be challenged. It will also indicate the possibilities of both a Christian culture in relation to that discipline or the way in which that discipline might look within a real or theoretical Christian university.

The Great Immigration Waldemar Kowalski, 2015-10-14 In the second half of the sixteenth century, Scottish immigrants to Little Poland became a visible ethnic minority in numerous towns of that province and particularly in its capital Cracow. This is the first study to examine this urbanized immigration in the period until the 1660s, when Poland-Lithuania was devastated by the mid-century Swedish invasion.

was no longer an attractive migrant destination From around the 1570s affluent Scottish merchants developed intense commercial relations in central Europe while peddlers of that nationality distributed so called Scotch goods at local markets The majority of Scots participated in the life of local Evangelical congregations and suffered religious persecutions together with their co religionists This prompted their collaboration with the Swedish occupants against their Catholic neighbors

Reynolds,2016-06-30 Among the contributions of the medieval church to western culture was the idea that marriage was one of the seven sacraments which defined the role of married folk in the church Although it had ancient roots this new way of regarding marriage raised many problems to which scholastic theologians applied all their ingenuity By the late Middle Ages the doctrine was fully established in Christian thought and practice but not yet as dogma In the sixteenth century with the entire Catholic teaching on marriage and celibacy and its associated law and jurisdiction under attack by the Protestant reformers the Council of Trent defined the doctrine as a dogma of faith for the first time but made major changes to it Rather than focusing on a particular aspect of intellectual and institutional developments this book examines them in depth and in detail from their ancient precedents to the Council of Trent **The Rise of Western Power**
