**The Sagebrush Curtain** Melvin Adams, 2019-08-08 This book contains a diversity of natural and human stories about the southeast quarter of Oregon state an area seemingly empty and barren to many people driving through it This surprising view of the region features the botany geology wildlife and history of the area wrapped in a memoir of the author s youth spent there Born in the sagebrush community of Lakeview in 1941 the author moved on following high school graduation But as with many native sons and daughters from out of the way places the urge to return to his roots proved irresistible I endeavored to write this collection about the Oregon desert because of my childhood there says Adams but also because it is a place of startling mystery subdued danger and beauty *From Shamrocks to Sagebrush* Bob Barry, 1969 **Sagebrush**

**Philosophy - by Bill Barlow** ,1905 *Beaten Down* David Peterson del Mar, 2011-10-01 Selected by Choice as an Outstanding Academic Title for 2003 The word violence conjures up images of terrorism bombings and lynchings *Beaten Down* is concerned with more prosaic acts of physical force a husband slapping his wife a parent taking a birch branch to a child a pair of drunken friends squaring off to establish who was the better man David Peterson del Mar accounts for the social relations of power that lie behind this intimate form of violence this white noise that has always been with us humming quietly between more explosive acts of violence Broad in its chronological and cultural sweep *Beaten Down* examines interpersonal violence in Washington Oregon and British Columbia beginning with Native American cultures before colonization and continuing into the mid twentieth century It contrasts the disparate ways of practicing and punishing interpersonal violence on each side of the U S Canadian border Del Mar concludes that we cannot comprehend the causes and moral consequences of a violent act without considering larger social relations of power whether between colonizers and original inhabitants between spouses between parents and children or between and among different ethnic groups The author has drawn on a vast array of vivid sources including newspaper accounts autobiographies novels oral histories historical and ethnographic publications and hundreds of detailed court cases to account for not only the relative frequency of different forms of violence but also the shifting definitions and perceptions of what constitutes violence This is a thoughtful and probing account of how and why people have hit each other and the manner in which opinion makers and ordinary citizens have censured defended or celebrated such acts Del Mar s conclusions have important implications for an understanding of violence and perceptions of violence in contemporary society
