From the Female Eye M. N. Panini,1991 From the Female Eye M. N. Panini,2014-06-30 **She Comes to Take Her Rights** Srimati Basu,1999-02-25 Using the contemporary workings of property law in India through the lives and thoughts of middle class and poor women this is a study of the ways in which cultural practices and particularly notions of gender ideology guide the workings of law It urges a close reading of decisions by women that appear to be contrary to material interests and that reinforce patriarchal ideologies Hailed as a radical moment for gender equality the Hindu Succession Act was passed in India in 1956 theoretically giving Hindu women the right to equal inheritance of their parents self acquired property However in the years since the act s existence its provisions have scarcely been utilized Using interview data drawn from middle class and poor neighborhoods in Delhi this book explores the complexity of women s decisions with regard to family property in this context The book shows that it is not passivity ignorance of the law naivet about wealth or unthinking adherence to gender prescriptions that guides women s decisions but rather an intricate negotiation of kinship and an optimization of socioeconomic and emotional needs An examination of recent legal cases also reveals that the formal legal realm can be hospitable to women s rights based claims but judgments are still coded in terms of customary provisions despite legal criteria to the contrary Inside Interviewing James Holstein,Jaber F. Gubrium,2003-03-21 Inside Interviewing highlights the fluctuating and diverse moral worlds put into place during interview research when gender race culture and other subject positions are brought narratively to the foreground It explores the facts thoughts feelings and perspectives of respondents and how this impacts on the research process *Researching with Communities* Ruth DeSouza,Andy Williamson,2007 Researching with communities presents a range of personal and grounded perspectives from academics researchers and practitioners on undertaking research in ways that promote and privilege the voice of the community is respectful of local or indigenous practices and is culturally safe Most definitely not a tick list for approaching community inclusive research this book provides grounded exemplars guides and discussion about the experiences of doing research respectfully and inclusively It does this by drawing on the perspectives of researchers and community practitioners and by providing a range of reflective chapters that explore what community based research means in a range of settings and for a range of people Like the communities in which they are grounded undertaking research in this way is always a unique experience **Gender Relations in an Indonesian Society** Nurul Ilmi Idrus,2016-04-08 Gender Relations in an Indonesian Society offers a comprehensive ethnography of Bugis marriage through an exploration of gender identity and sexuality in this bilateral highly competitive hierarchical society Nurul Ilmi Idrus considers the fundamental concept of siriq honour shame in relation to gender socialization courtship sex within marriage the regulation of sexuality between genders the importance of kinship and status in marriage and the dynamics of marriage divorce and reconciliation This analysis considers the practical combination of Islamic tenets with local adat custom customary law and

the effect of contemporary Indonesia's national ideology on cultural practices specific to Bugis society Anthropological Journeys Meenakshi Thapan, 1998 This collection of papers raises methodological issues and questions concerning the traditional nature of anthropology and addresses current issues and debates in sociology and social anthropology The essays in this volume by well known anthropologists take up these and other issues arising out of their own fieldwork experience The result is a rigorous and deeply moving analysis that leads to an unlearning of inappropriate and insensitive methods that obscure rather than explain the lives of people Encyclopedia of Women's Folklore and Folklife Pauline Greenhill, Liz Locke, Theresa A. Vaughan, 2008-12-08 From the stone age to the cyber age women and men have experienced the world differently Out of a cosmos of goddesses and she devils earth mothers and madonnas witches and queens saints and whores a vast body of women's folklore has come into bloom International in scope and drawing on more than 130 expert contributors this encyclopedia reviews the myths traditions and beliefs central to women's daily lives More than 260 alphabetically arranged entries cover the lore of women across time space and life Students of history religion and spirituality healing and traditional medicine literature and world cultures will value this encyclopedia as an indispensable guide to women's folklore In addition there are entries on women's folklore and folklife in 15 regions of the world such as the Caribbean Central Asia the Middle East and Western Europe Entries provide cross references and cite works for further reading and the encyclopedia closes with a selected bibliography of print and electronic resources Students learning about history world cultures religion and spirituality healing and traditional medicine and literature will welcome this companion to the daily life of women across time and continents Women Researching in Africa Ruth Jackson, Max Kelly, 2018-07-31 This edited collection explores the lives consequences and motivations of female researchers in Africa giving unprecedented insights into how their gender and sometimes their ethnicity and age impacted on their research experiences and how doing research in Africa affected them as women Each contributor considers her place or position in the research process and provides a vivid portrait of that experience Drawing on research findings from Nigeria Ethiopia Cameroon Ghana Guinea Malawi Uganda and other African countries the book looks at gender and identity as a female researcher in Africa relationships with others and unique methodological challenges for female researchers in Africa With refreshing candour each chapter challenges other researchers in Africa both women and men to integrate critical reflections of gender and diverse gendered field experiences into their work Women Researching in Africa will be of interest to students and scholars across a range of disciplines including development studies anthropology geography gender studies and international studies Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It's also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across the board interviews provide today's leading window on the world of experience The Handbook offers a

comprehensive examination of the interview at the cutting edge of information technology Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals From interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative The Handbook of Interview Research is both encyclopedic and thematic As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi faceted assessment of what has become the method of choice for obtaining personal information in today s society But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it an integral part of society

Overseas Research Christopher Brendan Barrett,Jeffrey W. Cason,1997 Scholars and students engaged in overseas research projects often spend much of their time worrying about mundane details never reported in published research In fact the quality of scholarship often depends on the researcher s ability to navigate a bewildering array of social financial bureaucratic and logistical obstacles encountered in preparing for working in and recovering from the field Overseas Research A Practical Guide is the first book designed explicitly to prepare scholars and professionals for the real life challenges of living and working abroad Opening with a discussion of site selection and project funding the authors advise researchers on preparing for departure setting up residence in the field conducting research in an unfamiliar environment employing field assistants and organizing for and adjusting to the return home The text is supplemented with the insights anecdotes and tips from more than sixty scholars in a wide variety of disciplines who conducted research in more than forty countries

Researching Human Geography Anna Davies,Keith Hoggart,Loretta Lees,2014-04-04 Researching Human Geography is an essential new text for any geography student about to embark on a research project An understanding of how different theories of knowledge have influenced research methodologies is crucial in planning and designing effective research this book makes this link clear and explores how various philosophical positions from positivism to post structuralism have become associated with particular methodologies The book gives an overview of a wide range of methods and data collection both quantitative and qualitative and explores their strengths and weaknesses for different kinds of research Researching Human Geography also looks at the various techniques available for the analysis of data which is presented as an integral and ongoing part of the research process Clearly written with extensive use of examples from previous research to show methodology in action this new text is an invaluable addition to both the theory and method of research in human geography

Gendered Fields Diane Bell,Pat Caplan,Wazir Jahan Karim,2013-07-23 Virtually all anthropologists undertaking fieldwork experience emotional difficulties in relating their own personal culture to the field culture The issue of gender arises because ethnographers do fieldwork by establishing relationships and this is done as a

person of a particular age sexual orientation belief educational background ethnic identity and class In particular it is done as men and women Gendered Fields examines and explores the progress of feminist anthropology the gendered nature of fieldwork itself and the articulation of gender with other aspects of the self of the ethnographer **The Handbook of Social Research Ethics** Donna M. Mertens, Pauline E. Ginsberg, 2009 Brings together international scholars across the social and behavioural sciences and education to address those ethical issues that arise in the theory and practice of research within the technologically advancing and culturally complex world in which we live The Practice of Sociology Maitrayee Chaudhuri, 2003 This book grew out of a need to examine the practice the teaching and research of sociology in India This need was in turn prompted by the experience of the contributors as students and teachers of the problems of understanding communicating the connections between sociology and the society in which one lives and between sociological theory and empirical studies **Handbook of Research Methods in Tourism** Larry Dwyer, Alison Gill, Neelu Seetaram, 2012-01-01 This is an excellent book which significantly contributes to tourism research and education It takes a rigorous yet readable style to address twenty five of the most pertinent quantitative and qualitative techniques applied in tourism research the book will appeal to a wider readership of social scientists as well as to scholars of tourism as each chapter provides a thorough overview and explanation of the techniques irrespective of their tourism application Dimitrios Buhalis Bournemouth University UK This insightful book explores the most important established and emerging qualitative and quantitative research methods in tourism the authors provide a detailed overview of the nature of the research method its use in tourism the advantages and limitations and future directions for research Each chapter is structured to provide information on the nature of the technique and its evolution background and types of problems that the technique is designed to handle applications of the technique to tourism including discussion of studies that have used the technique and their findings advantages and limitations of the technique conceptually and for policy formulation and further developments and applications of the technique in tourism research Handbook of Research Methods in Tourism will appeal to social scientists students as well as researchers in tourism who use quantitative and qualitative research techniques **Out in the Field** Ellen Lewin, William Leap, 1996 Lesbian and gay anthropologists write in Out in the Field about their research and personal experiences in conducting fieldwork about the ethical and intellectual dilemmas they face in writing about lesbian or gay populations and about the impact on their careers of doing lesbian gay research The first volume in which lesbian and gay anthropologists discuss personal experiences Out in the Field offers compelling illustrations of professional lives both closeted and out to colleagues and fieldwork informants It also concerns aligning career goals with personal sexual preferences and speaks directly to issues of representation and authority currently being explored throughout the social sciences **Overseas Research II** Christopher B. Barrett, Jeffrey Cason, 2010-04-05 Researchers in developing countries often find that the particular country in which they work presents a range of unforeseen challenges Indeed their ability to

carry out effective scholarship is often highly dependent on these factors. The great differences between working in countries as varied as India, China, Bolivia, and Kenya can often come as a shock to the system. An ability to negotiate a bewildering array of cultural and logistical obstacles is therefore essential. *Overseas Research II: A Practical Guide* distils essential lessons learned by scores of students and scholars who have collected data and done fieldwork abroad. The authors fill the reader in on the many crucial pieces of advice: how to prepare for the field, how and where to find funding for one's fieldwork, issues of personal safety and security, and myriad logistical and relational issues that often define one's research experience abroad. As Christopher B. Barrett and Jeffrey Cason suggest, fieldwork is a sequence of decisions, some about the conduct of research, some about the conduct of life. The book focuses new field researchers' attention on that productive intersection and includes many real-life accounts from experienced professionals whose own work abroad can inform those facing the field for the first time.

Fieldnotes Roger Sanjek, Susan W. Tratner, 2016. Examines how anthropological fieldwork has been affected by technological shifts in the 25 years since the 1990 publication of *Fieldnotes: the making of anthropology* edited by Roger Sanjek, published by Cornell University Press.

Fieldwork for Human Geography Richard Phillips, Jennifer Johns, 2012-03-28. A highly readable and superbly fun guide to the why and how of doing fieldwork in human geography. I recommend it highly to any geographer wannabes and practicing geographers. The latter group, including myself, might well rediscover the fun of doing geography. Professor Henry Yeung, National University of Singapore. An excellent introduction to the art and science of fieldwork. It makes clear that fieldwork is not just about getting out of the classroom and gaining first-hand experience of places; it is about instilling passion about those places. Professor Stuart C. Aitken, San Diego State University. An indispensable guide to fieldwork that will enrich the practice of geography in a myriad of different ways. In particular, the diverse materials presented here will encourage students and academics alike to pursue new approaches to their work and instil a greater understanding of the conceptual and methodological breadth of their discipline. Professor Matthew Gandy, University College London. If fieldwork is an indispensable component of geographical education, then this book is equally essential to making the most of fieldwork. This book gives students the tools to realise the full potential of what for many is the highlight of their geography degree. Professor Noel Castree, Manchester University. Fieldwork is a core component of Human Geography degree courses. In this lively and engaging book, Richard Phillips and Jennifer Johns provide a practical guide to help every student get the most out of their fieldwork. This book encourages students to engage with fieldwork critically and imaginatively. Explains methods and contexts. Links the fieldwork with wider academic topics. It looks beyond the contents of research projects and field visits to address the broader experiences of fieldwork: working in groups, understanding your ethical position, developing skills for learning and employment, and opening your eyes, ears, and minds to the wider possibilities of your trip. Throughout the book, the authors present first-person descriptions of field experiences and predicaments written by fieldtrip leaders and students from around the world, including the UK, Canada, Singapore, Australia,

and Africa
