From The Other Side Of The Water:

The Other Side of Water Erika Espinoza, 2020-11-17 He lost his mom He won't let the same thing happen to his friends Zeke Grayson feels so alone He lost his mom and his home in Arizona's Sonoran Desert after a hit and run Now he's stuck living with his estranged father in wintry Illinois where he has exactly zero ties to his Mexican heritage and the only family he has ever known Furious with his dad for thinking he should just get over his mom's death and stop causing trouble at school Zeke runs away to a local lake Watching the water has helped him calm down before but this time his grief for his mom is too much It unlocks a magic he didn't know he possessed and he passes into a world on the other side of the water This world is under attack by a slithering serpentine race known as the Gyraz that can track people through the rivers and travel through them too quickly to avoid Zeke narrowly avoids capture thanks to Naya Thain and Callie members of the Menewa who can teach him how to use his newfound ability to heal with magic and bring him closer to the truth about his parents' secret ties to this world As the friends race both the Gyraz and hidden traitors to stop a cataclysmic attack Zeke must navigate both his grief and his magic or else risk drowning in both

On the Other Side of the Rainbow Lonny Dargavel, 2018-06-29 The deaths of my parents on consecutive days and with the interference of the enemy caused extreme grief in my life It did however open the door of the spirit world for me in a very profound and personal manner In *On the Other Side of the Rainbow* I recount how my grief was transcended by remembering past readings and teachings to strengthen me and I came to develop abilities to perceive and experience my loved ones who were sharing time with me in the present The seeking to heal my soul also led me to connect with Jesus in a very real and personal way His friendship and mentorship has helped me to heal and develop spiritually He has also provided me with the protection I needed and he lifted me up when I needed it and continues to daily Eventually we grew quite close as did my relationship with Mother Mary and Michael the archangel Without their divine help I am sure I could not have lasted in the face of the enemy Encounters with them as well as my loved ones on the other side of life have become normal occurrences I have also had encounters with other spiritual beings whom I consider allies such as Buddha Ganesh King David a fairy princess a British guard from Fort George during the 1812 War St Theresa St John Paul II and others It is especially interesting to see how my parents continued evolving once they reached the other side and how my spiritual growth and relationship with the Lord changed their course as well as my own Prior to my experiences with the Christian faith I had followed and had many other firsthand experiences that are based on truths that simply are Included in this are experiences with past lives and spiritualism as well as Buddhist teachings and Native American as well My personal experiences are based on truths and were a guided path that led to my development as a spiritual clairvoyant and light worker The book starts in more of the self-help variety but soon evolves into a more complex novel that is experiential as well as unique as it

embraces many teachings but is not confined by anything that is not based on truth It eventually broadens onto a serious journey with Christ but it does not leave out any past experiences and knowledge gained as a result of these truths It is not typical or confined by any religious teaching but it does not attempt to say they are not significance or important quite the opposite It is I believe a guided path from above that is meant to bring together many to break down walls not build them as what Jesus desires as are other teachers and great beings who work together to try to win this world away from the dark side and lead it into a world that desires light and welcomes it when it soon arrives I hope that my first book helps to achieve some of these
