From the Silent Earth Joseph Alsop, 1965 **Modernism and the Mediterranean** Jan K. Birksted, 2017-07-05

Situated in a Mediterranean landscape the Maeght Foundation is a unique Modernist museum product of an extraordinary collaboration between the architect Jos uis Sert and the artists whose work was to be displayed there The architecture garden design and art offer a rare opportunity to see work in settings conceived in active collaboration with the artists themselves By focusing on the relationship between this art foundation and its Arcadian setting including Joan Mir labyrinth George Braque s pool Tal Coat s mosaic wall and Giacometti s terrace Jan K Birksted demonstrates how the building articulates many of the ideas that preoccupied this group of artists during the culminating years of their lives The study pays special attention to the ways in which architecture can shape the experience of time and addresses the Modernist desire for wilderness and its problematic roots in the classical Mediterranean ideal In showing how the design of the Maeght Foundation is a Modernist representation of Mediterranean culture the author has developed an interpretation of architecture that accommodates not only the architect s handling of material or function but shows as well how it can be the embodiment of a particular vision of space and time *From the Silent Earth* Joseph Alsop, 1962 **The Architecture of the Museum** Michaela Giebelhausen, 2003-11-08 From the Louvre to the Bilbao Guggenheim and Tate Modern the museum has had a long standing relationship with the city Examination of the meaning of museum architecture in the urban environment considering issues such as forms of civic representation urban regeneration cultural tourism and the museumification of the city itself Ranging from the seventeenth century to the present day case studies are drawn from Europe South America and Australia Contributions written by J Birksted V Fraser H Lewi D J Meijers and others **Greek Realities** Finley Hooper, 1978 The questions they raised and the answers they offered are still the concern of us all Finley Hooper *Reconstructing Western Civilization* Barbara Sher Tinsley, 2006 This is a collection of eleven essays laced with humor and irony on the Dawn of Man Mesopotamia Egypt Hebrews Minoans and Mycenaens classical Greece Alexander the Great the Hellenistic world Rome s Republic and Empire and several church fathers Irenaeus Tertullian Jerome and Augustine who influenced the Primitive Church Tinsley highlights current research while showcasing themes of contemporary as well as ancient significance misogyny the manipulation of rhetoric to justify privilege the contributions of the anonymous to the well being of the famous the paradox of progress the distortion of prophecy the use and misuse of myth and other media the exploitation of spiritual intellectual physical and sexual resources the comforts and perils of provincialism versus the dangers and benefits of organization spiritual imperial or both *Carl W. Blegen* Jack L. Davis, Vasiliki Florou, Natalia Vogeikoff-Brogan, 2015-01-01 Carl Blegen is the most famous American archaeologist ever to work in Greece and no American has ever had a greater impact on Greek archaeology Yet Blegen unlike several others of his generation has found no biographer In part the explanation for this must lie in the fact that his life was so multifaceted not

only was he instrumental in creating the field of Aegean prehistory but Blegen his wife and their best friends the Hills the family were also significant forces in the social and intellectual community of Athens Authors who have contributed to this book have each researched one aspect of Blegen s life drawing on copious documentation in the United States England and Greece The result is a biography that sets Blegen and his closest colleagues in the social and academic milieu that gave rise to the discipline of classical archaeology in Greece

The Man Who Deciphered Linear B: The Story of Michael Ventris Andrew Robinson,2012-04-01 Highly readable a fitting tribute to the quiet outsider who taught the professionals their business and increased our knowledge of the human past Archaeology Odyssey More than a century ago in 1900 one of the great archaeological finds of all time was made in Crete Arthur Evans discovered what he believed was the palace of King Minos with its notorious labyrinth home of the Minotaur As a result Evans became obsessed with one of the epic intellectual stories of the modern era the search for the meaning of Linear B the mysterious script found on clay tablets in the ruined palace Evans died without achieving his objective and it was left to the enigmatic Michael Ventris to crack the code in 1952 This is the first book to tell not just the story of Linear B but also that of the young man who deciphered it Based on hundreds of unpublished letters interviews with survivors and other primary sources Andrew Robinson s riveting account takes the reader through the life of this intriguing and contradictory man Stage by stage we see how Ventris finally achieved the breakthrough that revealed Linear B as the earliest comprehensible European writing system
