From Walden Pond To Jurassic Park:

From Walden Pond to Jurassic Park Paul Lauter, 2001-04-17 Explores the changes that have occurred in the field of American Studies over the past 40 years **The Key Concept of the Frontier Transformed - From "Walden" to "Jurassic Park"** Andreas Schwarz, 2012-02 Seminar paper from the year 2011 in the subject American Studies Culture and Applied Geography grade 2.0 Free University of Berlin John F Kennedy Institut language English abstract This paper will try to work and point out parallels and differences between a classical piece of American literature Henry David Thoreau's Walden and contemporary Hollywood blockbuster cinema represented by Steven Spielberg's Jurassic Park Point of departure and main focus of this paper will be the concept and aspects of the frontier and its reoccurrence as a mythological tool throughout American cultural history After establishing the historical concept of the frontier I will therefore go ahead and dig for traces of how this is woven into both works which in conclusion will hopefully show the assumed American cultural connection between the later acclaimed book written some 150 years ago looking deep into the romantic soul of its protagonist and a consumerist movie from the early nineties that was able to use the benefits of a huge marketing machine to attract its viewership and became a worldwide box office hit The usefulness of such an undertaking may be questionable for followers of classical cultural American studies but I would like to go with Paul Lauter here and filter out the trivial in mass culture to get to the subject's core of meaning Essays from his book From Walden Pond to Jurassic Park inspired to look for similarities in those two pieces and maybe find a development of what the concept of the frontier has been transformed into through societal and cultural changes within the last century **The Fiction of America** Susanne Hamscha, 2013-05 The Fiction of America juxtaposes classic literature of the American Renaissance with twentieth century popular culture pairing for instance Ralph Waldo Emerson with Finding Nemo Walt Whitman with Spiderman and Hester Prynne with Madonna to investigate how the Americanness of American culture constitutes itself in the interplay of the cultural imaginary and performance Conceptualizing America as a transhistorical practice Susanne Hamscha reveals disruptive spectral moments in the narrative of America which confront American culture with its inherent inconsistencies **Traveling Home** Kiri Miller, 2008 The participatory tradition of Sacred Harp singing fosters a diverse musical community *Working Through the Contradictions* Epifanio San Juan, 2004 Gathering together classic and new essays by the internationally renowned US based Filipino artist and thinker E. San Juan Jr Working through the Contradictions addresses major issues of cultural theory comparative politics and international relations Committed to the ideal of a popular egalitarian democracy San Juan exposes the limits of the current vogue of transnationalism cosmopolitan humanitarianism and varieties of dissensual multiculturalism Opposing the triumphalist discourse of US centered globalization San Juan reaffirms the value and power of a historical materialist critique of the new world order Connecting the theoretical debates in American Studies to the recent US intervention in the Philippines against the Abu Sayyaf guerrillas Spinoza's philosophy to current racism against Asian

Americans European surrealism to Caribbean history San Juan's dialectical method illuminates the contractions of thought and practice that open up opportunities for social transformation and spiritual renewal **Rereading the Machine in the Garden**

Eric Erbacher, Nicole Maruo-Schröder, Florian Sedlmeier, 2014-11-06 The volume reexamines the trope of the intrusive machine and the regenerative pastoral garden laid out fifty years ago by Leo Marx in *The Machine in the Garden* one of the founding texts of American Studies Contributions explore the lasting influence of the trope in American culture and the arts rereading it as a dialectics where nature is as much technologized as technology is naturalized They trace this dialectic trope in filmic and literary representations of industrial bureaucratic and digital gardens they explore its function in the aftermath of the civil war the rural electrification during the New Deal in landscape art and in ethnic literatures and they discuss the historical premises and lasting influence of Leo Marx's seminal study **Our Sixties**

Paul Lauter, 2020 The social movements of the 1960s still vital and challenging seen through the author's experiences as a civil rights activist a feminist an antiwar organizer and a radical teacher Today some fifty years after we celebrate or excoriate the Sixties Using his wide ranging experience as an activist and writer Paul Lauter examines the values the exploits the victories the implications and sometimes the failings of the Movement of that conflicted time In *Our Sixties* Lauter writes about movement activities from the perspective of a full time participant 1964 Mississippi freedom schools Students for a Democratic Society SDS the Morgan community school in Washington DC which he headed a variety of antiwar antidraft actions the New University Conference a radical group of faculty and graduate students The Feminist Press which he helped found and the United States Servicemen's Fund an organization supporting antiwar GIs He got fired got busted got published and even got tenure He honed his skills writing for the New York Review of Books among other magazines As a teacher he created innovative courses ranging from Revolutionary Literature and Contesting the Canon to The Sixties in Fiction Poetry and Film He led the development of the groundbreaking Heath Anthology of American Literature and remains its general editor Lauter's book offers both a retrospective look at the social justice struggles of the Sixties and an account of how his participation in these struggles has shaped his life Social history as well as personal chronicle this account is for those who recall that turbulent decade as well as for those who seek to better understand its impact on American politics and society in our current era *The Value of Herman Melville*

Geoffrey Sanborn, 2018-09-06 In *The Value of Herman Melville* Geoffrey Sanborn presents Melville to us neither as a somber purveyor of dark truths nor as an ironist who has outthought us in advance but as a quasi maternal provider a writer who wants more than anything else to supply us with the means of enriching our experiences In twelve brief chapters Sanborn examines the distinctive qualities of Melville's style its dynamism its improvisatoriness its intimacy with remembered or imagined events and shows how those qualities once they have become a part of our equipment for living enable us to sink deeper roots into the world Ranging across his career but focusing in particular on *Moby Dick* *Bartleby the Scrivener* *Benito Cereno* and *Billy Budd* Sanborn shows us a Melville who is

animating rather than overawing who encourages us to bring more of ourselves to the present and to care more about the life that we share with others

Fictionality, Factuality, and Reflexivity Across Discourses and Media Erika Fülöp, 2021-06-08 Concerned with the nature of the medium and the borders between fact and fiction reflexivity was a ubiquitous feature of modernist and postmodernist literature and film While in the wake of the post postmodern return to the real cultural criticism has little time for discussions of reflexivity it remains a key topic in narratology as does fictionality The latter is commonly defined opposition to the real and the factual but remains conditioned by historical cultural discursive and medium related factors Reflexivity blurs the boundaries between fact and fiction however by giving fiction a factual edge or by questioning the limits of factuality in non fictional discourses Fictionality factuality and reflexivity thus constitute a complex triangle of concepts yet they are rarely considered together This volume fills this gap by exploring the intricacies of their interactions and interdependence in philosophy literature film and digital media providing insights into a broad range of their manifestations from the ancient times to today from East Asia through Europe to the Americas

Revolutionary Memory Cary Nelson, 2013-10-11 Revolutionary Memory is the most important book yet to be published about the vital tradition of leftwing American Poetry As Cary Nelson shows it is not only our image of the past but also our sense of the present and future that changes when we recover these revolutionary memories Making a forceful case for political poetry as poetry Nelson brings to bear his extraordinary knowledge of American poets radical movements and social struggles in order to bring out an undervalued strength in a literature often left at the canon's edge Focused in part of the red decade of the 1930s Revolutionary Memory revitalizes biographical criticism for writers on the margin and shows us for the first time how progressive poets fused their work into a powerful chorus of political voices Richly detailed and beautifully illustrated with period engravings and woodcuts Revolutionary Memory brings that chorus dramatically to life and set a cultural agenda for future work

Teaching American Studies Elizabeth A. Duclos-Orsello, Joseph B. Entin, Rebecca Hill, 2021-08-17 What if American Studies is defined not so much in the pages of the most cutting edge publications but through what happens in our classrooms and other learning spaces In Teaching American Studies Elizabeth Duclos Orsello Joseph Entin and Rebecca Hill ask a diverse group of American Studies educators to respond to that question by writing chapters about teaching that use a classroom activity or a particular course to reflect on the state of the field of American Studies Teaching American Studies speaks to teachers with a wide range of relationships to the field To start it is a useful how to guide for faculty who might be new to or unfamiliar with American Studies Each author brings the reader into their classes to offer specific concrete details about their pedagogical practice and their students learning The resulting chapters connect theory and educational action as well as share challenges difficulties and lessons learned The volume also provides a collective impression of American Studies from the point of view of students and teachers What primary and secondary texts and what theoretical challenges and issues do faculty use to organize their teaching How does the teaching we do respond to our institutional and

educational contexts How do our experiences and those of our students challenge or change our understanding of American Studies Chapters in this collection discuss teaching a broad range of materials from memoirs and novels by Anne Moody and Octavia Butler to cutting edge cultural theory to the widely used collection Keywords for American Cultural Studies But the chapters in this collection are also about dancing eating and walking around a campus to view statues and gravestones They are about teaching during the era of Donald Trump Black Lives Matter and giving up authority in the classroom Teaching American Studies is both a new way to think about American Studies and a timely collection of effective ways to teach about race gender sexuality and power in a moment of political polarization and intense public scrutiny of universities
