## **From Zamindar To Ballot Box:**

**From Zamindar to Ballot box** Richard G. Fox ,1969      Political Kinship in Pakistan Stephen M. Lyon,2019-10-16 In Political Kinship in Pakistan Stephen M Lyon illustrates how contemporary politics in Pakistan are built on complex kinship networks created through marriage and descent relations Lyon points to kinship as a critical mechanism for understanding both Pakistan s continued inability to develop strong and stable governments and its incredible durability in the face of pressures that have led to the collapse and failure of other states around the world      The New Institutional Economics and Third World Development John Harriss,Janet Hunter,Colin Lewis,1995-12-14 Contributors to this volume address the significance of new institutional economics to third world development It includes articles from Douglas North political scientist Robert Bates and John Tye      **Reader In Urban Sociology** Others,1991      **South Asia Area Syllabus** Robert Rossow,1975      **Hindu Nationalism and the Language of Politics in Late Colonial India** William Gould,2004-04-15 In this book William Gould explores what is arguably one of the most important and controversial themes in twentieth century Indian history and politics the nature of Hindu nationalism as an ideology and political language Rather than concentrating on the main institutions of the Hindu Right in India as other studies have done the author uses a variety of historical sources to analyse how Hindu nationalism affected the supposedly secularist Congress in the key state of Uttar Pradesh In this way the author offers an alternative assessment of how these languages and ideologies transformed the relationship between Congress and north Indian Muslims The book makes a major contribution to historical analyses of the critical last two decades before Partition and Independence in 1947 which will be of value to scholars interested in historical and contemporary Hindu nationalism and to students researching the final stages of colonial power in India      **Way of Life** T. N. Madan,1988-01-01      Rural Capitalists in Asia Mario Rutten,2005-08-18 This is a comparative study of small capitalists and rural industrialists in three Asian countries Studies on the entrepreneurial class in South Asia tend to focus on the structural aspects of entrepreneurial behaviour while studies on this class in Southeast Asia tend to focus on cultural aspects of their behaviour In fact this book points to striking similarities between Indian overseas Chinese and Muslim businessmen in Asia similarities usually hidden under variations in analytical approaches Although this study emphasizes similarities within Asia it does not support the view of a specific Asian business pattern different to the rise of non Asian especially European entrepreneurs The findings are of major interest not just within the fields of anthropology and entrepreneurship but to all scholars working on South or Southeast Asia who will find much of interest in the author s observations of variable research results between the two regions      **The Asian City: Processes of Development, Characteristics and Planning** Ashok K. Dutt,F.J. Costa,Surinder Aggarwal,A.G. Noble,2012-12-06 In The Asian City the Asian urbanisation processes nature and characteristics of the 1990s have been analyzed by countries by comparing different countries and in an international context The authors are urban specialists from four continents This volume has been divided into six parts Part I Urbanisation in an

*The Democratic Predicament* Jyotirmaya Tripathy, Sudarsan Padmanabhan, 2014-03-14 Both India and Europe have been undergoing a difficult process of negotiating cultural religious and ethnic diversity within their democratic frameworks In fact recent incidents of xenophobic backlash against multiculturalism and minority communities in Europe as well as myriad movements for constitutional recognition of castes tribes and languages and the emergence of Islamophobic terror in India question the conventional idea of democracy as the idyllic preserver of diversity This volume contests the simplistic connection between democracy and diversity by proposing that democracy in fact produces sediments and reinforces cultural heterogeneity It argues that in democratic polities disparate cultural practices are often converted into identity categories with disturbing implications for national identity constitutionalism political governance and citizenship While mobilizations on the plank of cultural differences are typically viewed as being born in undemocratic spaces with little toleration for diversity they also find fertile soil in democracy insofar as democracy celebrates diversity and allows cultural dissent to thrive Such dissent while essential for democracy has difficult consequences Examining the fundamental conflict between constructions of particular cultural identities and mandates of a unifying democratic ethos the book brings forth the complexities underlying the politics of identity recognition and national integration In making a radical intervention in the discourse this volume offers a critique of existing paradigms of multiculturalism It will interest scholars and students of political science sociology and postcolonial and comparative studies

*The Social System and Culture of Modern India* Danesh A. Chekki, 2017-04-07 According to Arnold J Toynbee India is a world in itself it is a society of the same immensity and importance as is our Western society In global perspective the immensity diversity and unique importance of Indian society and culture can hardly be underestimated This reference volume first published in 1975 encompasses studies that reflect both the unity and diversity of India's culture and social system

*Interrogating Caste* Dipankar Gupta, 2000 The caste system has conventionally been perceived by scholars as a hierarchy based on the binary opposition of purity and pollution Challenging this position leading sociologist Dipankar Gupta argues that any notion of a fixed hierarchy is arbitrary and valid only from the perspective of the individual castes The idea of difference and not hierarchy determines the tendency of each caste to keep alive its discrete nature and this is also seen to be true of the

various castes which occupy the same rank in the hierarchy It is in fact the mechanics of power both economic and political that set the ground rules for caste behaviour which also explains how traditionally opposed caste groups find it possible to align in the contemporary political scenario With the help of empirical evidence from states like Bihar Maharashtra and Uttar Pradesh the author illustrates how any presumed correlations between caste loyalties and voting patterns are in reality quite invalid Provocative and finely argued Interrogating Caste is a remarkable work that provides fresh insight into caste as a social political and economic reality

**New Perspectives in Critical Data Studies** Andreas Hepp,Juliane Jarke,Leif Kramp,2022-05-20 This Open Access book examines the ambivalences of data power Firstly the ambivalences between global infrastructures and local invisibilities challenge the grand narrative of the ephemeral nature of a global data infrastructure They make visible local working and living conditions and the resources and arrangements required to operate and run them Secondly the book examines ambivalences between the state and data justice It considers data justice in relation to state surveillance and data capitalism and reflects on the ambivalences between an entrepreneurial state and a welfare state Thirdly the authors discuss ambivalences of everyday practices and collective action in which civil society groups communities and movements try to position the interests of people against the big players in the tech industry The book includes eighteen chapters that provide new and varied perspectives on the role of data and data infrastructures in our increasingly datafied societies

India's Emerging Economy Kaushik Basu,2004 Essays by leading academics policymakers and industrialists examine India s economic success in the late 1990s India s economy over the last decade looks in many ways like a success story after a major economic crisis in 1991 followed by bold reform measures the economy has experienced a rapid economic growth rate more foreign investment and a boom in the information technology sector Yet many in the country still suffer from crushing poverty and social and political unrest remains a problem These essays by leading academics policymakers and industrialists including one by Amartya Sen the 1998 winner of the Nobel Prize in economics for his work on poverty and inequality examine the facts of India s recent economic successes and their social and cultural context India s rate of economic growth after the 1991 reforms were instituted reached a remarkable 7 percent for three consecutive years from 1994 to 1997 Several contributors to India s Emerging Economy ask what this means for the nation as a whole In his essay Democracy and Secularism in India Amartya Sen argues that economic progress is not the only way to measure a nation s performance Other essays examine the actual effect India s economic growth has had on reducing poverty and recommend policies to empower the poor Essays also address such issues as globalization and the vulnerabilities and opportunities it creates India s experience with monetary and fiscal reform the rapid growth of the information technology sector including a case study of India s software industry and India s grassroots economy

Patronage as Politics in South Asia Anastasia Piliavsky,2014-10-16 Western policymakers political activists and academics alike see patronage as the chief enemy of open democratic societies Patronage for them is a corrupting force a hallmark of failed and

failing states and the obverse of everything that good modern governance ought to be South Asia poses a frontal challenge for this consensus Here the world's most populous pluralist and animated democracy is also a hotbed of corruption with persistently startling levels of inequality Patronage as Politics in South Asia confronts this paradox with calm erudition sixteen essays by anthropologists historians and political scientists show from a wide range of cultural and historical angles that in South Asia patronage is no feudal residue or retrograde political pressure but a political form vital in its own right This volume suggests that patronage is no foe to South Asia's burgeoning democratic cultures but may in fact be their main driving force

A Century of Protests Arupjyoti Saikia, 2015-08-12 Addressing an important gap in the historiography of modern Assam this book traces the relatively unexplored but profound transformations in the agrarian landscape of late and post colonial Assam that were instrumental in the making of modern Assamese peasantry and rural politics It discusses the changing relations between various sections of peasantry state landed gentry and politics of different ideological hues nationalist communist and socialist and shows how a primarily agrarian question concerning peasantry came to occupy the centre stage in the nationalist politics of the state It will especially interest scholars of history agrarian and peasant studies sociology and contemporary politics as also those concerned with Northeast India

**Bazaar India** Anand A. Yang, 1999-02-01 The role of markets in linking local communities to larger networks of commerce culture and political power is the central element in Anand A Yang's provocative and original study Yang uses bazaars in the northeast Indian state of Bihar during the colonial period as the site of his investigation The bazaar provides a distinctive locale for posing fundamental questions regarding indigenous societies under colonialism and for highlighting less familiar aspects of colonial India At one level Yang reconstructs Bihar's marketing system from its central place in the city of Patna down to the lowest rung of the periodic markets But he also concentrates on the dynamics of exchanges and negotiations between different groups and on what can be learned through the voices of people in the bazaar landholders peasants traders and merchants Along the way Yang uncovers a wealth of details on the functioning of rural trade markets fairs and pilgrimages in Bihar A key contribution of *Bazaar India* is its many stranded narrative history of some of South Asia's primary actors over the past two centuries But Yang's approach is not that of a detached observer rather his own voice is engaged with the voices of the past and with present day historians By focusing on the world beyond the mud walls of the village he widens the imaginative geography of South Asian history Readers with an interest in markets social history culture colonialism British India and historiographic
