apparatus Nonetheless the missionaries motives were religious and they struggled with the compromises that made their work possible yet ultimately precluded its success Unlike other missionary studies that focus on biography or on large regions this historical ethnography concentrates on a single field and on the personalities and activities of the several men who pioneered it in its formative years It examines the missionaries assumptions and values describe how the missionaries contrasted themselves with the government and capitalist business and explores the difficulties of translating Christianity across a great cultural gulf The Early Years of a Dutch Colonial Mission will give pause to anyone who has thought missionaries heroic or to anyone who has thought them mislead London labour and the London poor Henry Mayhew,1861
