From Perestroika To Privatisation:

From Perestroika to Privatisation Terry Cox, 1996 This study provides a sociological approach to the changes in economic relations that took place in Soviet society under Gorbachev including both the growth of small scale private ownership and centralized management of the economy Social and economic relations are also examined **The Political Economy of Privatization** Thomas Clarke, Christos Pitelis, 2005-08-17 This book considers the many facets of the privatization process in advanced industrialised countries along with the marketization of Eastern Europe and the pressures on developing countries to adopt privatization as the route to growth **Privatisation and Its Limits in Central and Eastern Europe** H. Engerer, 2001-06-18 Hella Engerer analyses the emergence evolution and theory of property rights and establishes the limits for privatization of state owned enterprises in the transitional economies of Eastern Europe She counters the assumption that reduction of the state sector helps to create the basis for a private property system showing that privatization actually presupposes a stable framework including property order She makes use of an outstanding methodological approach reaching well beyond the limits of pure economic observation This is a major contribution to the understanding of the emerging economic order of Central and Eastern Europe Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia s distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia s Soviet development within Russia s own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former s mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states *Privatizing Eastern Europe* J.M. Van Brabant, 2012-12-06 This volume is meant to be a modest contribution to the ongoing debate about the transitions away from the administrative planning environment typical of the former communist regimes The central subject matter is a fairly special one namely the privatization of these economies together with the restoration and effective monitoring of property rights These are paramount tasks of the ongoing transformations once progress toward pOlitical democracy is secured Though I would not allot divestment of existing state owned assets the kind of pivotal importance that some observers

reserve for it changing rules on the utilization of these assets is evidently at the core of what the transition toward market based economic systems should be all about Rather than examining the entire range of issues that surround the controversy on privatization this volume is primarily concerned with the economics of taking the state out of the decision making about existing assets Among the several aspects of this discussion three stand out One is the establishment of clear property rights This is fundamental to minimize transaction costs in an environment where decisions will increasingly be taken by independent economic agents acting on their own account Second I look only incidentally at the various angles of creating capital markets particularly for existing assets in these economies

Economic Nationalism in a Globalizing World Eric Helleiner, Andreas Pickel, 2018-08-06 Is economic nationalism an outdated phenomenon in light of globalization Economic Nationalism in a Globalizing World demonstrates the enduring and even heightened economic significance of national identities and nationalism in the current age The volume's contributors pioneers in the reinterpretation of economic nationalism explore diverse ways in which national identities and nationalism continue to shape contemporary economic policies and processes The authors examine the question in a range of geographical contexts and issues European Union food politics competitiveness strategies in New Zealand East Asian development strategies Japanese liberalization monetary politics in Quebec and Germany and post Soviet economic reforms Together the cases explore the policy breadth of nationalism It is not just a protectionist ideology but is in fact associated with a wide variety of economic policies including support for economic liberalization and globalization

Perestroika, Privatization, and Worker Ownership in the USSR I. N. Keremet, John Logue, 1991 *The Soviet Transition* Ottorino Cappelli, Rita di Leo, Stephen White, 2014-04-08 Of course we watched it all on television day by day as the Evil Empire transmuted into the Circus Bear but seeing it and knowing what to think about it are not the same Scholars from eastern and western Europe and North America help out in 14 papers from an April 1992 conference in Naples

At the Crossroads of Post-Communist Modernisation C. Pursiainen, 2012-09-10 This volume takes a comparative approach to understand general tendencies in post Communist transition in Russia and China Bringing together perspectives from Political Science Sociology and IR it analyses three arenas of social change socio economic systems political systems and foreign policies

Developments in Central and East European Politics 2 Stephen White, Judy Batt, Paul G. Lewis, 1998 *Privatisation and Development* Claude V. Chang, 2017-11-28 The book interrogates privatisation in terms of its effectiveness vis vis its stated goals and more fundamentally in terms of its success in delivering economic development It investigates why privatisation was successful in the UK and other OECD countries and why it has not met with equal success in developing countries In this regard it further examines the policy prescriptions of the IMF and World Bank in relation to the conceptualised benefits and theoretical assumptions underlying these supposed benefits The author assesses the extent to which culture and customs indeed the mode of production stand in determinate relationship to the goals techniques and outcome of the process Furthermore

Chang examines the degree to which socioeconomic and moral consequences of privatisation have been ignored in pursuit of the ideological imperative implicit in the Washington Consensus Hence the book contributes to the reflective thought that must necessarily be part of theory validation and provides the basis for a balanced and empirically valid theory of privatisation

Moscow's Heavy Shadow Isaac McKean Scarborough, 2023-08-15 Moscow's Heavy Shadow tells the story of the collapse of the USSR from the perspective of the many millions of Soviet citizens who experienced it as a period of abjection and violence Mikhail Gorbachev and the leaders of the USSR saw the years of reform preceding the collapse as opportunities for rebuilding perestroika rejuvenation and openness glasnost For those in provincial cities across the Soviet Union however these reforms led to rapid change economic collapse and violence Focusing on Dushanbe Tajikistan Isaac McKean Scarborough describes how this city experienced skyrocketing unemployment a depleted budget and streets filled with angry young men unable to support their families Tajikistan was left without financial or military resources unable and unprepared to stand against the wave of populist politicians of all stripes who took advantage of the economic collapse and social discontent to try to gain power By May 1992 political conflict became violent and bloody and engulfed the whole of Tajikistan in war Moscow's Heavy Shadow tells the story of how this war came to be and how it was grounded in the reform and collapse of the Soviet economy that came before

Political Discourse in Transition in Europe 1989–1991 Paul Chilton, Mikhail V. Ilyin, Jacob L. Mey, 1998-03-15 The year 1989 brought political upheavals in Central Eastern and Southern Europe the effects of which have not yet ended The political discourse of the Cold War period disintegrated and gave way to competing alternatives The contributors to this book are linguists discourse analysts and social scientists from all corners of the continent whose tools of analysis shed light on the crucial two years of transition during which political concepts and political interaction changed in dramatic and sometimes violent ways

Privatization of Public Enterprises in India Subhash Garg, Sunil Handa, 1991

Legal Aspects of Privatisation Bulent Seven, 2002 The main aims of this thesis are as follows a To present a comprehensive analysis of the concept of privatisation its origins and limits b To identify the legal and institutional framework for privatisation in different European countries from a comparative perspective c To define and analyse particularly legal issues which arise during the privatisation transactions e.g. labour law competition law etc d To evaluate which features of the successful legal and organisational framework of privatisation have been successful so as to provide guidelines for those individuals and organisations participating in the privatisation exercises This work found out that there is no simple internationally applicable recipe for privatisation various legal methods and techniques can be used to privatise state owned enterprises Because each country has different circumstances it is impossible to provide a unique model for privatisation each country needs to design its own model according to its circumstances Privatisation is an essential but insufficient element for structural economic reform in the economy and society Privatisation is not a panacea it is not the solution to every economic and administrative problem selling an enterprise to the private sector does not mean an

end to all problems Also privatisation is not an overnight process or a magic touch it will be a lengthy process Furthermore a decision that something can be privatised does not mean that it should be privatised In that context privatisation is not good or bad it is an economic and social instrument If it is well designed it may bring substantial benefits to the economy and society In many countries many state owned enterprises particularly the ones which are financially weak have still not been privatised This finding revealed that the privatisation process will be in the political and economic agenda for at least few more decades

Russian Multinationals Andrei Panibratov,2013-06-19 Russian multinationals are playing an increasingly important role in the world economy particularly in some key sectors such as oil gas and metallurgy At the same time Russian multinationals differ in many respects from multinationals from other countries in that they often receive special treatment from the Russian government and because of past experiences international investors are often reluctant to invest in them This book presents a comprehensive overview of Russian multinationals It discusses the rise of Russian multinationals examines Russian multinationals activities in key sectors analyses the relationship between Russian multinationals and the Russian government and between Russian multinationals and international investors and concludes by assessing how Russian multinationals are likely to develop in future

Collected Works of Domenico Mario Nuti, Volume I Saul Estrin,Milica Uvalic,2023-05-20 This book the first of two volumes brings together the work of Domenico Mario Nuti to highlight his significant and varied contribution to economics Bringing together works from across Nuti s career his distinctive intellectual framework is exemplified in relation to discussions on the drivers of economic growth and development the most efficient economic system the organisation of firms and how economies should be managed This volume gives particular attention to socialist economic systems and the transition of former socialist countries to market economies This book through the inclusion of an introduction aims to contextualise his ideas and illustrate their continued relevance It will be of wide interest to students and researchers

Good Governance in the Era of Global Neoliberalism Jolle Demmers,Alex E. Fernández Jilberto,Barbara Hogenboom,2004-08-02 The contributions cover a wide range of territories Argentina Russia the Ukraine Indonesia and Taiwan The book will be the first to call into question the idea of good governance and exactly what that implies The editors have a good track record and have been widely published in the area Book should be of great appeal to all international and development economists

Russia in Transition David Lane,2014-09-25 An accessible book covering the momentous changes that have occurred and are still occurring since the fall of the USSR in 1989 Contributions from an impressive collection of authors are drawn from the most recent and original research available and address political and social issues which impact on all levels of Russian society The book consists of a selection of specially commissioned pieces which have evolved from the conference of the same name held at Cambridge University in December 1994

First the Transition, then the Crash Gareth Dale,2011-09-12 The 1989 91 upheavals in Eastern Europe sparked a turbulent process of social and economic transition Two decades on with the global economic

crisis of 2008 10 a new phase has begun This book explores the scale and trajectory of the crisis through case studies of the Czech Republic Hungary Latvia Poland Russia Ukraine and the former Yugoslavia The contributors focus upon the relationships between geopolitics the world economy and class restructuring The book covers the changing relationship between business and states foreign capital flows financialisation and asset price bubbles austerity and privatisation and societal responses in the form of reactionary populism and progressive social movements Challenging neoliberal interpretations that envisage the transition as a process of unfolding liberty the dialectic charted in these pages reveals uneven development attenuated freedoms and social polarisation
