From Ragtime To Wartime 1922 1939 Good Housekeeping:

Ragtime to Wartime, 1995 **Virginia Woolf's Good Housekeeping Essays** Christine Reynier, 2018-07-11 In the mid twentieth century Virginia Woolf published Six Articles on London Life in Good Housekeeping magazine a popular magazine where fashion cookery and house decoration is largely featured This first book length study of what Woolf calls little articles proposes to reassess the commissioned essays and read them in a chronological sequence in their original context as well as in the larger context of Woolf's work Drawing primarily on literary theory intermedial studies periodical studies and philosophy this volume argues the essays which provided an original guided tour of London are creative and innovative works combining several art forms while developing a photographic method Further investigation examines the construct of Woolf's essays as intermedial and as partaking both of theory and praxis intermediality is closely connected here with her defense of a democratic ideal itself grounded in a dialogue with her forebears Far from being second rate the Good Housekeeping essays bring together aesthetic and political concerns and come out as playing a pivotal role they redefine the essay as intermedial signal Woolf's turn to a more openly committed form of writing and fit perfectly within Woolf's essayistic and fictional oeuvre which they in turn illuminate **The Feminine Middlebrow Novel, 1920s to 1950s** Nicola Humble, 2004 Humble presents a study of the novels by and for middle class women that dominated the publishing market in the first half of the 20th century She studies the work of authors such as Agatha Christie alongside cultural products such as cookery books *Historicizing Lifestyle* David Bell, 2016-04-22 Lifestyles have a history and lifestyle media is fundamentally implicated in this history This original volume examines issues of taste media and lifestyle from the 1900s to 1970s providing a wealth of empirical evidence and debate from varied international perspectives Including examples as diverse as Good Housekeeping and Playboy it explores the continuities and discontinuities between the past and present to provide a better understanding of the representation of lifestyle and its relationship to the self The volume demonstrates how ideas about gender nation and race problematize taken for granted assumptions about lifestyle with particular emphasis on the new middle classes in the US The book also examines the role of advertising and marketing in mediating ideas about lifestyle the role of material culture in the construction of cultural hierarchies and the positioning of social groups within wider cartographies of taste The volume makes a significant contribution to this growing field and will interest academics and students in media and cultural studies communication studies cultural history and sociology *Virginia Woolf and Her Female Contemporaries* Julie Vandivere, Megan Hicks, 2016 Virginia Woolf and Her Female Contemporaries helps us comprehend the ways that women writers and artists contributed to and complicated modernism by contextualizing them alongside Woolf's work *Working-class Housing in England Between the Wars* Andrzej Olechnowicz, 1997 This book presents an important episode in the twentieth century history of the United Kingdom the largest public housing scheme ever undertaken in Britain and at the time of its planning in the world Built between 1921 and 1934 the London County council's

Becontree Estate housed over 110 000 people in 25 000 dwellings Andrzej Olechnowicz discusses the early years of the estate looking in detail at the philosophy behind its construction and management policies and showing how it eventually came to be denigrated as a social concentration camp exemplifying all the political dangers of a mass culture He investigates life on the estate both through an appraisal of the facilities provided and as far as possible through the eyes of the inhabitants using interviews with surviving tenants from the inter war period Thus he is able to show how high rents excluded many families in greatest housing need and how tenants found it difficult to adjust to the costs of suburban living This is a wide ranging study that deals with both the nuts and bolts of mass housing with ideas on citizenship and the creation of communities Women's Periodicals and Print Culture in Britain, 1918-1939 Catherine Clay,2018-03-07

Explores the problem of anthropomorphism a major bone of contention in 8th to 14th century Islamic theology Political Women Maggie Andrews,2024-05-02 The lives of women changed immeasurably during the twentieth century not just because of technological and economic advances but as a result of a multiplicity of small and large local national and international political campaigns by women The activities of the Edwardian suffrage campaigns are the most well known example of this but in less well known political struggles women fought with equal tenacity sacrifice and inventiveness to demand for example equal pay analgesics for women and childbirth an end to virginity testing at airports or wages for housework This book focuses on 15 such campaigns and the thousands of women who sought to influence decision making exercise and challenge power in the twentieth century These political activities were sometimes small scale and short lived or seemingly unsuccessful but together they helped to bring about immeasurable changes in women s lives during the twentieth century With limited financial resources and hefty domestic responsibilities women have often chosen to pick their political battles very carefully Some fought for workers rights or the right to education some prioritised stopping male violence on the streets in the home or between nations others like Radcliffe Hall campaigned so women could define their own sexuality Women organised self help childcare rape crisis centres and peace camps They set up birth control clinics and women s refuges Ordinary women took on exploitive landlords immigration officers international companies local councils the media and successive governments A few of the hundreds of thousands of these political women like Maggie Wintringham and Nancy Astor were MPs others became local councillors However women s access to traditional areas of political power was limited even when Britain had its first woman prime minister in 1979 she was one of only 19 women MPs in parliament Consequently women sought other spheres of activity through which to fight for change using all the resources and imagination at their disposal to challenge injustice and abuse They employed deeds and words petitions and protests legal and illegal devices peaceful and violent strategies to further their political aims Their motivations and contributions were varied many made sacrifices to be involved in political battles but this book seeks to celebrate some of these unsung heroines who tried to make a difference **Turning Houses into Homes** Clive Edwards,2017-05-15 From the earliest times people

have striven to turn their houses into homes through the use of decoration and furnishings stimulating in turn a major commercial sector dedicated to offering the products and services essential to feed the ever changing dictates of domestic fashion Whilst there is plentiful evidence to show that these phenomena can be traced to medieval times it is arguable that the eighteenth century witnessed the birth of a widespread and sophisticated consumer society With a comparatively wealthy and socially mobile society eighteenth century Britain proved to be a fertile ground for ideas of home improvement and beautification which were to persist to the present day Turning Houses into Homes not only maps the history changes development and structure of the retail furnishing industry in Britain over three centuries but also examines the relationships between the retailer and the consumer looking at how retailers helped stimulate and shape the demand of their customers Whilst work has been done on specific aspects of the home very little has been written on the interaction between the retailer and consumer and the pressures brought to bear on them by issues such as gender education status symbolism taste decoration hygiene comfort and entertainment As such this book offers a valuable conjunction of retail history and consumption practices which are examined through a multi disciplinary approach to explore both their intimate connections and their wider roles in society

Domestic Cultures

Joanne Hollows, 2008-02-16 Although home is central to most people's experience of everyday life the meaning of home is often taken for granted In this accessible and student friendly introduction to domestic cultures Joanne Hollows surveys current thinking and approaches to demonstrate why home is so central to our lives *Domestic Cultures* examines which meanings and values have been associated with home and demonstrates how these have been transformed and reworked in different historical contexts The book shows that while certain meanings of domestic culture are frequently produced for us these can be negotiated and resisted through everyday home making practices She demonstrates how elements of domesticity have been dislocated and mobilized within public life This wide ranging text challenges a range of ideas about domestic culture It examines how the meanings of domestic life are produced across a range of discourses and practices from architecture lifestyle media and advertising to home decoration cooking and watching television The book demonstrates how domestic cultures are not only linked to particular ideas about gendered identities but how they are also differentiated by class race and sexuality *Domestic Cultures* is a key introductory text for media sociology and cultural studies students

Women, Privacy and Modernity in Early Twentieth-Century British Writing W. Gan, 2009-01-15 Privacy is not often thought of as a marker of modernity but a look at British women's writing of the early twentieth century suggests that it should be so This book examines the female pursuit of privacy particularly of the spatial kind as women began to claim privacy as an entitlement of the modern middle class woman **Gender and Consumption** Lydia Martens, Emma Casey, 2016-04-15 Drawing upon anthropological sociological and historical perspectives this volume provides a unique insight into women's domestic consumption The contributors argue that domestic consumption represents an important lens through which to examine the everyday production and reproduction of socio economic relations Through a variety of case studies such as gambling wedding day consumption and bedroom decor the essays explore and reconsider the nature of public and private spaces and the subsequent nature of domestic space often by challenging traditional notions of what constitutes the domestic The volume demonstrates the broad range of experiences that domestic consumption offers women and reveals some of the complex meanings and motivations underpinning women's consumption practices **Gender, rhetoric and regulation** Helen Glew, 2016-01-01 The Civil Service and the London County Council employed tens of thousands of women in Britain in the early twentieth century As public employers these institutions influenced both each other and private organisations thereby serving as a barometer or benchmark for the conditions of women's white collar employment Drawing on a wide range of archival sources including policy documents trade union records women's movement campaign literature and employees' personal testimony this is the first book length study of women's public service employment in this period It examines three aspects of their working lives inequality of pay the marriage bar and inequality of opportunity and demonstrates how far wider cultural assumptions about womanhood shaped policies towards women's employment and experiences Scholars and students with interests in gender British social and cultural history and labour history will find this an invaluable text *Hunger* James Vernon, 2007-11-30 This book draws together social cultural and political history to show us how we came to have a moral political and social responsibility toward the hungry Vernon forcefully reminds us how many perished from hunger in the empire and reveals how their history was intricately connected with the precarious achievements of Britain's welfare state *Interdisciplinary/multidisciplinary Woolf* Ann Martin, Kathryn Holland, 2013 Edited collection from acclaimed contemporary Woolf scholars linking inter and multidisciplinary scholarship to the intellectual and creative projects of Virginia Woolf and her modernist peers **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library, 1988
