Manifesting Spirits Jack Hunter,2020-12-12 An exploration of contemporary trance and physical mediumship at a private spiritualist home circle called the Bristol Spirit Lodge Located in a garden on the outskirts of Bristol the Lodge is a wooden shed specially constructed for the purposes of mediumship development and spirit communication Through a combination of ethnographic observations in s ances including his own experiences of mediumship development and interviews with spirits and their mediums Hunter delves into a sub urban world of trance states ectoplasm spirit lights and discarnate entities Issues relating to altered states of consciousness personhood performance and the efficacy of ritual are examined in order to make sense of the processes by which spirits become manifest in social reality A large part of Manifesting Spirits is given over to a broader discussion of anthropology s evolving attitudes toward the paranormal as a component of the life worlds of many people across the globe and argues for the development of a non reductive anthropological approach to the paranormal and mediumship in particular This emerging framework referred to as

ontological flooding does not attempt to explain away the existence of spirits in terms of functional cognitive or pathological theories as most mainstream theorists tend to do but rather embraces a processual perspective that emphasises complexity and multiple interconnected processes underlying spirit possession performances and experiences **Science and Spirit**

Charles F. Emmons, Penelope Emmons, 2012-08-24 Are you out of your body At least part of you may be if consciousness can extend beyond the brain in your skull In *Science and Spirit* authors Charles F Emmons and Penelope Emmons explore some intriguing questions What evidence is there for consciousness apart from the body and what evidence is there for survival of consciousness after bodily death Through ethnographic interviews with scientists observations at conferences and visits to research institutes they investigate the existence and meaning of ESP out of body experiences near death experiences reincarnation spirit mediumship lucid dreaming and ghost experiences In this study they share a variety of scientific frames for looking at these questions and happenings and they disclose their own paranormal experiences *Science and Spirit* uses a unique blend of strong academic and scientific theory and methodology and applies it to the examination of paranormal topics

Strassman,Slawek Wojtowicz,Luis Eduardo Luna,Ede Frecska,2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings Examines how contact with alien life forms can be obtained through the inner space dimensions of our minds Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses Correlates science fiction s imaginal realms with psychedelic research For thousands of years voyagers of inner space spiritual seekers shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses *Teaching Religion and Healing* Linda L. Barnes,Inés M. Talamantez,2006-10-12 The study of medicine and healing traditions is well developed in the discipline of anthropology Most religious studies scholars however continue to assume that medicine and biomedicine are one and the same and that when religion and medicine are mentioned together the reference is necessarily either to faith healing or bioethics Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups such as Christian Scientists and pentecostals Most are now aware of the work of physicians who attempt to demonstrate positive health outcomes in relation to religious practice but few seem to realize the myriad ways in which healing pervades virtually all religious systems This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities An invaluable resource for faculty in anthropology religious studies American studies sociology and ethnic studies it also addresses the needs of educators training physicians health care professionals and chaplains particularly in relation to what is referred to as cultural competence the ability to work with multicultural and religiously diverse patient populations **Spectres of the Self** Shane McCorristine,2010-07-22 Examines the culture of ghost seeing arguing that the ghost represents a symbol of the psychological hauntedness of modern experience Newton in the Pulpit Dale Albert Johnson,2016-10-09 This book is an exploration of neurology and consciousness in the religious brain and scientific brain and how creativity and discovery are mediated from the quantum to classical levels **The Encyclopedia of Parapsychology** Courtney M. Anthropology of Consciousness Responds to a World in Crisis Matthew C. Bronson, Tina R. Fields, 2009-05-05 The greatest crisis of our times in a failure of the human imagination Editors The world is currently undergoing a period of unprecedented crises on virtually every front economic ecological and humanitarian It is starkly apparent that a shift is needed in our dominant structural systems and that by addressing the collective thinking that has created and maintained these systems scholars can do their part to catalyze such a shift The interdisciplinary field known as the Anthropology of Consciousness offers important insights for enacting this necessary shift This book draws on the work of a group of diverse scholars to explore what the intersection of anthropology and consciousness studies can contribute to the public turn within anthropology and the academy in general Its twelve chapters span disparate geographies and disciplinary frameworks yet cohere in their focus on common themes such as imagination empathy agency dialogue and ethics The answers to the question So What Now What differ for a linguistic anthropologist in the South Pacific an environmental educator in Hawai i a grant writing anthropologist serving a refugee agency in Portland Oregon and the founder of a girls school in Brazil Nevertheless they are united in the desire to reframe the anthropology of consciousness as an anthropology of conscience and this pioneering volume is the result **American Hauntings** Robert E. Bartholomew, Joe Nickell, 2015-06-19 This work provides an accurate in depth examination and scientific evaluation of the most famous hauntings in American history as depicted in popular films and television programs Neither a debunking book nor one written for the true believer in the paranormal American Hauntings objectively scrutinizes the historic evidence behind such hugely popular films as The Exorcist The Amityville Horror An American Haunting The Conjuring and The Haunting in Connecticut to ascertain the accuracy of these entertainment depictions of true life hauntings The authors then compare these popular culture accounts against the alleged real life encounters and impartially weigh the evidence to assess whether each incident actually took place Written by highly credentialed recognized authorities on the paranormal and social psychology this book contains

meticulously documented science based information written for a broad audience from middle and high school students and those taking introductory courses at a university level to general readers There is no other work that provides as careful and unbiased an evaluation of the most famous hauntings in American history The book also examines the reliability of popular television shows such as Unsolved Mysteries and Paranormal Witness

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture They can be found in any number of entertainment commercial and other contexts but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them based on tradition or direct experience Personal belief and cultural tradition on the one hand and popular and commercial representation on the other nevertheless continually feed each other They frequently share space in how people think about the supernatural In Haunting Experiences three well known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts Diane E Goldstein Sylvia Ann Grider and Jeannie Banks Thomas take ghosts seriously as they draw on contemporary scholarship that emphasizes both the basis of belief in experience rather than mere fantasy and the usefulness of ghost stories They look closely at the narrative role of such lore in matters such as socialization and gender And they unravel the complex mix of mass media commodification and popular culture that today puts old spirits into new contexts
