Groening, 2005-01-18 Groening argues that what Frantz Fanon terms the manichean allegory has shaped European understanding of the New World to such an extent that the image patterns fundamental to the allegory continue to dominate depictions of Native characters. Although a world separated into two categories defined by light and dark reason and emotion, mind and body, technology and nature, future and past is no longer also characterized as good and evil, revaluing the tropes has not made them disappear. And without their disappearance, good intentions notwithstanding, nonaboriginal Canadian writers will continue to portray Native characters as part of a dead and dying culture. Groening demonstrates that the real issue cannot be about censorship, as censorship involves the abrogation of freedom and the imagination is never truly free.

for Oceania John William Henderson, 1971 Social, political, economic and governmental aspects of Melanesia, French Polynesia, Micronesia. Inuit Women Janet Mancini Billson, Kyra Mancini, 2007-04-09 Inuit Women is the definitive study of the Inuit

during a time of rapid change. Based on fourteen years of research and fieldwork, this analysis focuses on the challenges facing Inuit women as they enter the twenty-first century. Written shortly after the creation of Nunavut, a new province carved out of traditional Inuit homelands in the Canadian North, this compelling book combines conclusions drawn from the authors' ethnographic research with the stories of Inuit women and men told in their own words. In addition to their presentation of the personal portraits and voices of many Inuit respondents, Janet Mancini Billson and Kyra Mancini explore global issues, the impact of rapid social change and Canadian resettlement policy on Inuit culture, women's roles in society and gender relations in Baffin Island in the Eastern Arctic. They also include an extensive section on how the newly created territory of Nunavut is impacting the lives of Inuit women and their families. Working from a research approach grounded in feminist theory, the authors involve their Inuit interviewees as full participants in the process. This book stands alone in its attention to Inuit women's issues and lives and should be read by everyone interested in gender relations, development, modernization, globalization and Inuit culture. *Pacific Voices Talk Story* Margo King Lenson, 2007 *Pacific Voices Talk Story* invites Pacific Americans to record their hearts and minds to be turned into pages not only Pacific Americans want to read but our neighbors up the street. **Cooperation and Competition Among Primitive Peoples** Margaret Mead, 2018-02-06 In many respects this volume is a pioneer effort in anthropological literature It remains firmly part of the genre of cooperative research or interdisciplinary research though at the time of its original publication that phrase had yet to be coined Additionally this work is more theoretical in nature than a faithful anthropological record as all the essays were written in New York City on a low budget and without fieldwork The significance of these studies lies in the fact that Cooperation and Competition Among Primitive Peoples was the first attempt to think about the very complex problems of cultural character and social structure coupled with a meticulous execution of comparative study

**Kinship to Kingship** Christine Ward Gailey, 2013-12-06 Have women always been subordinated If not why and how did women's subordination develop Kinship to Kingship was the first book to examine in detail how and why gender relations become skewed when classes and the state emerge in a society Using a Marxist feminist approach Christine Ward Gailey analyzes women's status in one society over three hundred years from a period when kinship relations organized property work distribution consumption and reproduction to a class based state society Although this study focuses on one group of islands Tonga in the South Pacific the

author discusses processes that can be seen through the neocolonial world This ethnohistorical study argues that evolution from a kin based society to one organized along class lines necessarily entails the subordination of women And the opposite is also held to be true state and class formation cannot be understood without analyzing gender and the status of women Of interest to students of anthropology political science sociology and women s studies this work is a major contribution to social history

**The Forgotten Centuries** Charles M.

Hudson, Carmen Chaves Tesser, 1994 *The Forgotten Centuries* draws together seventeen essays in which historians, archaeologists, and anthropologists attempt for the first time to account for approximately two centuries that are virtually missing from the history of a large portion of the American South. Using the chronicles of the Spanish soldiers and adventurers, the contributors survey the emergence and character of the chiefdoms of the Southeast. In addition, they offer new scholarly interpretations of the expeditions of Lucas Vasquez de Ayllon from 1521 to 1526, Panfilo de Narvaez in 1528, and most particularly Hernando de Soto in 1539-43, as well as several expeditions conducted between 1597 and 1628. The essays in this volume address three other connected topics: Describing some of the major chiefdoms, Apalachee, the Oconee Province, Cofitachequi, and Coosa; the essays undertake to lay bare the social principles by which they operated. They also explore the major forces of structural change that were to transform the chiefdoms: disease and depopulation, the Spanish mission system, and the English deerskin and slave trades. And finally, they examine how these forces shaped the history of several subsequent southeastern Indian societies, including the Apalachees, Powhatans, Creeks, and Choctaws. These societies, the so-called native societies of the Old South, were in fact new ones formed in the crucible fired by the economic expansion of the early modern world.
