Edward D. Andrews

From Text To Tradition:

From Text to Tradition Lawrence H. Schiffman, 1991 *From Text to Tradition* examines the history of Judaism as it developed from the religion of biblical Israel to the Judaism of the talmudic rabbis. Each step in this process is discussed from the historical, literary, and religious points of view and the context of the political history of the Jews. Among the topics covered in this connection are the biblical heritage which underlies all later Judaism, the importance of the Persian period for laying the groundwork for postbiblical Judaism, the confrontation of Judaism with Hellenism, apocrypha, pseudepigrapha, and the Dead Sea Scrolls, Pharisees, Sadducees, and Essenes, the Jewish-Christian schism, the impact of the Jewish revolts against Rome and the destruction of the Temple, the rise of Rabbinic Judaism, and the development of the Mishnah, Talmud, and Jewish law. One of the book's major theses is that the various approaches to Judaism shared sufficient common ground as to be classified as one, albeit variegated, religious tradition. Diverging trends may be and are traced during this period, as is the question of the role of interpretation, the impact of external influences, and the process by which the competing approaches were eventually supplanted by the rabbinic tradition, which became the basis for medieval and modern Judaism. In this way, Judaism is shown to have travelled the long road from the textual heritage of the Hebrew Bible to the oral tradition of the rabbis.

Text and Tradition in Performance and Writing Richard A. Horsley, 2013-11-05. Embedded in modern print culture, biblical scholars have been projecting the assumptions and concepts of print culture onto the texts they interpret. In the ancient world, from which those texts originate, however, literacy was confined to only a small number of educated scribes. And, as recent research has shown, even the literate scribes learned texts by repeated recitation, while the nonliterate ordinary people had little if any direct contact with written scrolls. The texts that had taken distinctive form, moreover, were embedded in a broader and deeper cultural repertoire, cultivated orally in village communities as well as in scribal circles. Only recently have some scholars struggled to appreciate texts that later became biblical in their own historical context of oral communication. Exploration of texts in oral performance, whether as scribal teachers' instruction to their protégés or as prophetic speeches of Jesus of Nazareth or as the performance of a whole Gospel story in a community of Jesus loyalists, requires interpreters to relinquish their print-cultural assumptions. Widening exploration of texts in oral performance in other fields offers exciting new possibilities for allowing those texts to come alive again in their community contexts, as they resonated with the cultural tradition in which they were embedded.

Balaam in Text and Tradition Jonathan Miles Robker, 2019-08-19. The figure Balaam has interested exegetes and scribes for millennia. Jonathan Miles Robker examines the different versions of the literary character Balaam as attested in biblical and epigraphic literature. By contrasting the distinct information about Balaam presented in the various sources—the plaster inscription from Dêla, Numbers 22-24, 31, Deuteronomy 23, Joshua 13, 24, Judges 11, Micah 6, and Nehemiah 13—the author seeks to trace the development of characterizations of Balaam from the oldest available material to the youngest in the Hebrew Bible. In this way, Jonathan

Miles Robker advances discourse about the literary and tradition historical development of the texts that became the Hebrew Bible Beyond the text of the Hebrew Bible he also traces the continued development of Balaam's characterization through the texts of Qumran and the New Testament To this end the author contributes discussions of the history of religion in Antiquity

Between Text and Tradition Pieter De Leemans, Maarten J.F.M. Hoenen, 2016-06-29 New insights into Pietro d'Abano's unique approach to translations The commentary of Pietro d'Abano on Bartholomew's Latin translation of Pseudo Aristotle's *Problemata Physica* published in 1310 constitutes an important historical source for the investigation of the complex relationship between text translation and commentary in a non-curricular part of the *corpus Aristotelicum* As the eight articles in this volume show the study of Pietro's commentary not only provides valuable insights into the manner in which a commentator deals with the problems of a translated text but will also bring to light the idiosyncrasy of Pietro's approach in comparison to his contemporaries and successors the particularities of his commentary in light of the habitual exegetical practices applied in the teaching of regular curricular texts as well as the influence of philosophical traditions outside the strict framework of the medieval arts faculty Contributors Joan Cadden University of California Davis Gijs Coucke KU Leuven B atrice Delaurenti cole des Hautes tudes et Sciences Sociales Paris Pieter De Leemans KU Leuven Fran oise Guichard Tesson KU Leuven Danielle Jacquart cole Pratique des Hautes tudes Paris Christian Meyer Centre d tudes sup rieures de la Renaissance Tours Iolanda Ventura CNRS Universit d Orl ans

From Text to Literature S. Olsen, A. Pettersson, 2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text Adopting an analytic approach the articles attempt to clarify how these concepts govern our thinking about the phenomenon of literature in various ways exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature

Between Text and Text Michaela Bauks, Wayne Horowitz, Bernd Hene, 2013-06-19 The intertextuality research of antique texts and their reception in Medieval and modern times is the subject of this volume 1 What is a text and what is an intertext This concerns the various different forms of text and how they present themselves in architecture iconography lexicography the study of lists etc 2 Forms of intertextuality on the relationship between writtenness and oralness how oral texts are objectified during textualisation and become fixed acts of speech K Ehlich how especially antique texts were shaped by the continual interconnectedness of oral and written traditions

3 What is understood in ancient Oriental and antique literature by tradition and transmission To this end the research includes languages historical reality and antique thought structures making clear that the transferral of tradition occurs not only within a close cultural circle but in the exchange with neighbouring cultures over large distances and geographic boundaries 4 On the relationship between intertextuality and canon A number of contributions study this aspect of ongoing historical debate as it often found for culturally definitive and canonised texts a necessary part of the their rejuvenation process Contributions by M Bauks A Lange Z Plese Ph Alexandre S Aufr re M Oeming K Davidowicz A Wagner G Selz M F Meyer L Roig Lanzillotta M Dimitrova F Waldman W Horowitz M Risch J van Ruiten L Bormann A Miltenova J Taschner G Brooke G Dorival A Harder and S Alkier **From Text to Political Positions** Bertie Kaal, Isa Maks, Annemarie van Elfrinkhof, 2014-05-15 From Text to Political Positions addresses cross disciplinary innovation in political text analysis for party positioning Drawing on political science computational methods and discourse analysis it presents a diverse collection of analytical models including pure quantitative and qualitative approaches By bringing together the prevailing text analysis methods from each discipline the volume aims to alert researchers to new and exciting possibilities of text analyses across their own disciplinary boundary The volume builds on the fact that each of the disciplines has a common interest in extracting information from political texts The focus on political texts thus facilitates interdisciplinary cross overs The volume also includes chapters combining methods as examples of cross disciplinary endeavours These chapters present an open discussion of the constraints and disadvantages of either quantitative or qualitative methods when evaluating the possibilities of combining analytic tools **Exegeting Orality** Nick Acker, 2024-09-05 For too long critical biblical studies have applied modern textual assumptions to ancient oral cultures Exegeting Orality challenges many of these modern approaches distilling decades of studies in oral traditions to redirect pastors and scholars toward a more accurate narrative of biblical origins identity and meaning Many works in the area of orality textuality performance criticism and media studies focus on critical issues Exegeting Orality guides pastors and scholars through a brief introduction to these fields emphasizing biblical inspiration interpretation and proclamation This work honors the rich oral traditional foundations of the inspired canon urging a transformative shift in how we interpret the Bible The stories we believe define us The Bible is not just a text to be studied but a record of voices from the past who performed our definitive stories The Bible is a tradition to be reproclaimed and reenacted in the community of faith Let us not recast these ancient voices into modern epistemological molds without letting them speak from within their own cultural realities Their voices still call out to us through the abiding Holy Spirit who connects us all to the story of Jesus May we live out that ancient story today together **Rehnquist Justice** Earl M. Maltz, 2003 With seven of its justices appointed by Republican presidents today s Supreme Court has significantly altered America s legal landscape since 1986 by tilting constitutional jurisprudence to the right That was the goal of Presidents Reagan and Bush in filling court vacancies and has been felt in cases related to federalism economic rights and

affirmative action However liberal issues such as abortion have moved only marginally to the right while rulings by the Court on school prayer and gay rights have moved constitutional doctrine slightly to the left In this collection of original articles prominent constitutional scholars are joined by new voices from the cutting edge of academia to subject the Rehnquist Court to closer scrutiny and to show that its brand of conservatism is less extreme than many have supposed Reflecting views across the political spectrum the contributors help readers understand the Court dynamic its constrained conservatism and the forces that shape constitutional law in general As these authors show the overall pattern of decision making in the Rehnquist era cannot be attributed to any single unified approach to constitutional analysis Instead today's Court can only be understood as the product of a complex interaction among individual justices each with an idiosyncratic view of the proper interpretation of the Constitution and the role of the Court in the American political system These provocative essays are designed to provide readers with insight into this interaction by focusing on each member of the bench From the staunch conservatism of Clarence Thomas to the accommodationism of Sandra Day O'Connor to the liberal constitutionalism of David Souter the essays analyze the unique approach of each justice to interpreting the Constitution They also show that the current justices are the product of a nomination and confirmation process that has undergone a major transformation in recent decades one which favors experienced often unknown jurists over high profile public servants By concentrating attention on its members Rehnquist Justice allows us to better understand the Supreme Court as a whole And by assessing today's judiciary in light of a public philosophy that looks askance at government it shows us that the Supreme Court has truly become a mirror of its times *The Book of Tobit: Text, Tradition, Theology* Géza Xeravits, József

Zsengellér, 2005-07-01 This volume contains the proceedings of the first of an international series of conferences on the deuterocanonical literature organised by the Shimeon Centre in Pécs Hungary Renowned international scholars of the field treat questions of text in the Book of Tobit the underlying traditions and theological questions The importance of the deuterocanonical corpus is widely recognised in contemporary scholarship This is marked by the growing number of related publications Yet it remains important to create an opportunity to work through the entire deuterocanonical material as such These conferences aim to provide a yearly forum for discussion of this literature The next conferences planned are on Maccabees 2005 Sirach 2006 Wisdom 2007 Additions 2008 and Judith 2009 and as a result the organisers plan to publish five more volumes Together with the present volume these will cover the entire deuterocanonical corpus *The common tradition of the Synoptic Gospels in the text of the Revised version*, by E.A.
