He proposes specific definitions of excellence in film art through the creation a personal canon of both well known and obscure movies from around the world and suggests ways in which other canons might be similarly constructed Essential Cinema offers in depth assessments of an astonishing range of films established classics such as Rear Window M and Greed ambitious but flawed works like The Thin Red Line and Breaking the Waves eccentric masterpieces from around the world including Irma Vep and Archangel and recent films that have bitterly divided critics and viewers among them Eyes Wide Shut and A I He also explores the careers of such diverse filmmakers as Robert Altman Ra l Ruiz Frank Tashlin Elaine May Sam Fuller Terrence Davies Edward Yang Hou Hsiao hsien and Orson Welles In conclusion Rosenbaum offers his own film canon of 1 000 key works from the beginning of cinema to the present day A cogent and provocative argument about the art of film Essential Cinema is also a fiercely independent reference book of must see movies for film lovers everywhere

The Press Gang Godfrey Cheshire, Matt Zoller Seitz, Armond White, 2020-09-29 A dialogue about cinema s legacy and best directors through essays by three of the best long form critics out there collected from the legendary NYPress for the first time Comprising of the kind of long form criticism that is all too rare these days the weekly film columns in the NYPress included polemics reviews interviews festival reports and features A far cry from what is often derisively termed the consumer report mode of criticism Cheshire Seitz and White were passionately engaged with the film culture of both their own time and what had come before They constituted three distinctly different voices equally accomplished yet notably individual perspectives on cinema Their distinctive tastes and approaches were often positioned in direct dialogue with each other a constant critical conversation that frequently saw each writer directly challenging his colleagues Dialogue is important in criticism and here you can find a healthy example of it existing under one proverbial roof This three way dialogue between Cheshire Seitz and White assesses the 1990s in cinema along with pieces on New York s vibrant repertory scene that allow us to read the authors takes on directors such as Hitchcock Lean Kubrick Welles

Nichols, 2016-04-05 How do issues of form and content shape the documentary film What role does visual evidence play in relation to a documentary's arguments about the world we live in In what ways do documentaries abide by or subvert ethical expectations Are mockumentaries a form of subversion Can the documentary be an aesthetic experience and at the same time have political or social impact And how can such impacts be empirically measured Pioneering film scholar Bill Nichols investigates the ways documentaries strive for accuracy and truthfulness and simultaneously fabricate a form that shapes reality Such films may rely on reenactment to recreate the past storytelling to provide satisfying narratives and rhetorical figures such as metaphor or devices such as irony to make a point Documentaries are truly a fiction unlike any other With clarity and passion Nichols offers incisive commentaries on the basic questions of documentary's distinct relationship to the reality it represents as well as close readings of provocative documentaries from this form's earliest days to its most recent incarnations These essays offer a definitive account of what makes documentary film such a vital part of our cultural landscape

Reframing Todd Haynes Theresa L. Geller, Julia Leyda, 2022-02-07. For three decades, award-winning independent filmmaker Todd Haynes, who emerged in the early 1990s as a foundational figure in New Queer Cinema, has gained critical recognition for his outsider perspective. Today Haynes is widely known for bringing women's stories to the screen. Analyzing Haynes's films including *Safe* (1995), *Velvet Goldmine* (1998), *Far from Heaven* (2002), and *Carol* (2015), as well as his unauthorized Karen Carpenter biopic *Superstar* (1987) and the television miniseries *Mildred Pierce* (2011), the contributors to *Reframing Todd Haynes* reassess his work in light of his long-standing feminist commitments and his exceptional career as a director of women's films. They present multiple perspectives on Haynes's film and television work and on his role as an artist-activist who draws on academic theorizations of gender and cinema. The volume illustrates the influence of feminist theory on Haynes's aesthetic vision, most evident in his persistent interest in the political and formal possibilities afforded by the genre of the woman's film. The contributors contend that no consideration of Haynes's work can afford to ignore the crucial place of feminism within it.

Too Bold for the Box Office Cynthia J. Miller, 2012-08-02. In *Too Bold for the Box Office*, Cynthia J. Miller has assembled essays by scholars and filmmakers who examine the unique cinematic form of mockumentary. Individually, each of these essays looks at a given instance of mockumentary parody and subversion, examining the ways in which each calls into question our assumptions, pleasures, beliefs, and even our senses. Writing about national film, television, and new media traditions as diverse as their backgrounds, this volume's contributors explore and theorize the workings of mockumentaries as well as the strategies and motivations of the writers and filmmakers who brought them into being.
