## **From Violent Men:**

Changing Violent Men R. Emerson Dobash, 2000 *Changing Violent Men* is based on the evaluation of British criminal justice responses and treatment programs for men who use violence against a woman partner. Court enforced abuser programs are compared with more traditional sanctions such as fines and probation. And qualitative and quantitative data are used to delineate patterns of personal change. This book allows the men and women involved to speak about their lives and the impact of criminal justice interventions upon them. The Rehabilitation of Partner-Violent Men Erica Bowen, 2011-03-07 *THE REHABILITATION OF PARTNER VIOLENT MEN* Informed by theory and evidence this text offers a full account of a pressing social problem. Professor Clive Hollin, School of Psychology, The University of Leicester, UK. This is a book which clearly sets out the history, theoretical developments, interventions and possibilities for the future within a UK context. It is an excellent source of good information about where we are and an excellent springboard for future developments in both research and practice. Professor Liz Gilchrist, Department of Psychology, Glasgow Caledonian University, UK. Erica Bowen's book *The Rehabilitation of Partner Violent Men* is a timely and important contribution to the literature of effective interventions. The content would be of interest to students, researchers and practitioners. Dr Nicola Graham Kevan, School of Psychology, University of Central Lancashire, UK. Violence within intimate relationships is not just a modern occurrence yet while the nature of the abuse has changed little over hundreds of years, great strides have been made in dealing with male perpetrators of domestic violence in the UK. *The Rehabilitation of Partner Violent Men* presents an historical account of the policy changes that have led to the provision of rehabilitation programmes for male perpetrators of intimate partner violence within the British criminal justice system. Drawing on both national and international literature, the book provides an overview of the theoretical foundation behind current approaches to rehabilitation as well as a critical examination of evaluation methodology and an appraisal of the effectiveness of current practices. While probing deeply into the nature of intimate partner violence, *The Rehabilitation of Partner Violent Men* offers rich and revealing insights into the efficacy of intervention programmes and their profound influences on the lives of millions of women around the world each year. *Violent Fathering and the Risks to Children* Lynne Harne, 2011 This text focuses on violent fathering and discusses research in the context of domestic violence. It examines fathers' perceptions of their domestic violence and its impact on children, their relationships with children and their parenting practices. It also recommends ways that policy and practice can be improved. *Morning Glory* Junior M. Gonzales, 2019-10-17 *Morning Glory* comprises inspiring and motivational devotionals, prayers and thoughts to get your day off to a spiritually enriched and triumphant start. Wake up each day to fresh new commentary on the word of God which will give you a feeling of hope and an injection of spiritual strength and determination. *Men's Violence Against Women* Christopher Kilmartin, Julie A. Allison, 2007 This text offers a balance of clinical and social psychological theory and research as well as prevention and intervention techniques with the purpose of understanding and ultimately ending gender based violence The authors address several forms of violence including rape intimate partner violence stalking and sexual harassment in a contemporary linguistic style carefully crafted to avoid victim blaming Although most men do not perpetrate violence against women such violence is not a women's issue it will take the strength and courage of both women and men to solve this human issue This book moves full circle in its coverage of the topic as it explores the silent epidemic of men's violence against women the grave consequences of this violence on both individuals and society and the historical and current foundations that serve to both criminalize and tolerate men's violence against women The authors describe a variety of efforts to treat both offenders and victims highlighting both their vital importance and their insufficiency in preventing violence The final part of the book contains descriptions of model violence prevention approaches and techniques for implementing these programs Readers are empowered as they discover how they can be part of the solution Men's Violence Against Women is intended as a text for courses in gender based violence in a variety of disciplines including psychology sociology and women's men's and or gender studies The book is also a valuable resource for college and community gender based violence prevention and intervention program providers
