Frontenac The Courtier Governor:

Frontenac William John Eccles, 1959 W J Eccles brilliant biography of Frontenac first published in 1959 has compelled a radical re assessment of the most colourful governor of New France The brave and resourceful figure portrayed by Francis Parkman has been shown as a rapacious fortune hunter inept in his relations with the Indians and indecisive in his defense of Quebec against the English Professor Eccles demolishes the Frontenac myth by revealing the underlying clash of forces that struggled for the control of the continent in the vital years of 17th century empire building Frontenac the agent rather than creator of these forces is nevertheless a major factor in the drama of French colonial expansion in North America The biography is an authoritative and lively reappraisal of Frontenac as well as a vivid re creation of 17th century New France

The Seigneurial System in Early Canada Cole Harris, 1984 With its long thin fields and straggling rows of farmhouses stretching along either bank of the St Lawrence river for two hundred miles and more the landscape of rural Canada toward the end of the French regime presented a distinctive charm and drew later writers to construct idyllic portraits of the social and legal system which they believed had shaped it

Atlantic American Societies Alan Karras,J.R. McNeill,2002-03-11 Within the chronological framework of Implantation Maturation and Transition this book provides the history of European expansion in the Americas from the age of Columbus through the abolition of slavery Suggesting a shift in the traditional units of analysis away from nationally defined boundaries this volume considers all of the Americas and Africa to encourage students to see the larger interimperial issues which governed behaviour in both the new world and the old It also provides students with a mechanism for viewing interimperial rivalries from the largest possible perspective by focusing not only on commercial and demographic history and military and economic interaction between metropolitan regions and their colonies but on the interdependence of European African and Amerindian peoples and culture

Canada in the European Age, 1453-1919 R.T. Naylor,2006-07-10 When Canada in the European Age 1453 1919 was first published it reversed traditional methodology by placing Canada s evolution in the context of the rise and fall of empires around the world not just in the Americas R T Naylor contends that the struggle for property and political rights in early nineteenth century Newfoundland is incomprehensible without an understanding of events as distinct as the Afro American slave trade or the Napoleonic Wars the opening of the natural resource frontier of British Columbia makes sense only if seen as another manifestation of the same historical forces that fired the opening shots in the Opium wars in China and the fate of Canada s native peoples may have been different in form but not in essence from that of the aboriginal inhabitants on almost every continent
