The U.S. Department of Homeland Security DHS is responsible for securing and managing the nation's borders Over the past decade DHS has dramatically stepped up its enforcement efforts at the U.S. Mexico border increasing the number of U.S. Border patrol USBP agents expanding the deployment of technological assets and implementing a variety of consequence programs intended to deter illegal immigration During this same period there has also been a sharp decline in the number of unauthorized migrants apprehended at the border Trends in total apprehensions do not however by themselves speak to the effectiveness of DHS's investments in immigration enforcement In particular to evaluate whether heightened enforcement efforts have contributed

to reducing the flow of undocumented migrants it is critical to estimate the number of border crossing attempts during the same period for which apprehensions data are available With these issues in mind DHS charged the National Research Council NRC with providing guidance on the use of surveys and other methodologies to estimate the number of unauthorized crossings at the U S Mexico border preferably by geographic region and on a quarterly basis Options for Estimating Illegal Entries at the U S Mexico Border focuses on Mexican migrants since Mexican nationals account for the vast majority around 90 percent of attempted unauthorized border crossings across the U S Mexico border The ^AOxford Handbook of the Sociology of Latin America Xochitl Bada,Liliana Rivera-Sánchez,2021-04-09 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world
