The Recursive Frontier Michael Docherty, 2024-05-01 The Recursive Frontier is an innovative spatial history of both the literature of Los Angeles and the city itself in the mid twentieth century Setting canonical texts alongside underexamined works and sources such as census bulletins and regional planning documents Michael Docherty identifies the American frontier as the defining dynamic of Los Angeles fiction from the 1930s to the 1950s Contrary to the received wisdom that Depression era narratives mourn the frontier s demise Docherty argues that the frontier lives on as a cruel set of rules for survival in urban modernity governing how texts figure race space mobility and masculinity Moving from dancehalls to offices to oil fields and beyond the book provides a richer more diverse picture of LA s literary production during this period as well as a vivid account of LA s cultural and social development as it transformed into the multiethnic megalopolis we know today

The Land Wars John Laband, 2020-07-15 Perhaps the most explosive issue in South Africa today is the question of land ownership The central theme in this country s colonial history is the dispossession of indigenous African societies by white settlers and current calls for land restitution are based on this loss Yet popular knowledge of the actual process by which Africans were deprived of their land is remarkably sketchy This book recounts an important part of this history describing how the Khoisan and Xhosa people were dispossessed and subjugated from the time that Europeans first arrived until the end of the Cape Frontier Wars 1779 1878 The Land Wars traces the unfolding hostilities involving Dutch and British colonial authorities trekboers and settlers and the San Khoikhoi Xhosa Mfengu and Thembu people as well as conflicts within these groups In the process it describes the loss of land by Africans to successive waves of white settlers as the colonial frontier inexorably advanced The book does not shy away from controversial issues such as war atrocities committed by both sides or the expedient decision of some of the indigenous peoples to fight alongside the colonisers rather than against them The Land Wars is an epic story featuring well known figures such as Ngqika Lord Charles Somerset and his son Henry Andries Stockenström Hintsa Harry Smith Sandile Maqoma Bartle Frere and Sarhili and events such as the arrival of the 1820 Settlers and the Xhosa cattle killing It is essential reading for anyone who wants to understand South Africa s past and present

The Archaeology of Market Capitalism Gaye Nayton, 2011-04-13 The area claimed by the British Empire as Western Australia was primarily colonized through two major thrusts the development of the Swan River Colony to the southwest in 1829 and the 1863 movement of Australian born settlers to colonize the northwest region The Western Australian story is overwhelmingly the story of the spread of market capitalism a narrative which is at the foundation of modern western world economy and culture Due to the timing of settlement in Western Australia there was a lack of older infrastructure patterns based on industrial capitalism to evoke geographical inertia to modify and deform the newer system in many ways making the systemic patterns which grew out of market capitalist forces clearer and easier to delineate than in older settlement areas However the struggle between the forces of market capitalism settlers and indigenous Australians over space labor physical and economic resources and power relationships are both unique to place and time and universal in allowing an understanding of how such complicated regional interregional and global forces shape a settler society Through an examination of historical records town layout and architecture landscape analysis excavation data and material culture analysis the author created a nuanced understanding of the social economic and cultural developments that took place during this dynamic period in Australian history In examining this complex settlement history the author employed several different research methodologies in parallel to create a comprehensive understanding of the area Her research techniques will be invaluable to researchers struggling to understand similarly complex sociocultural evolutions throughout the globe

Van Diemen's Land Murray Johnson, Ian McFarlane, 2015-03-01 The history of Aborigines in Van Diemen's Land is long The first Tasmanians lived in isolation for as many as 300 generations after the flooding of Bass Strait Their struggle against almost insurmountable odds is one worthy of respect and admiration not to mention serious attention This broad ranging book is a comprehensive and critical account of that epic survival up to the present day Starting from antiquity the book examines the devastating arrival of Europeans and subsequent colonisation

warfare and exile It emphasises the regionalism and separateness a consistent feature of Aboriginal life since time immemorial that has led to the distinct identities we see in the present including the unique place of the islanders of Bass Strait Carefully researched using the findings of archaeologists and extensive documentary evidence some only recently uncovered this important book fills a long time gap in Tasmanian history **Empire, Kinship and Violence** Elizabeth Elbourne,2022-12-22 An ambitious account of Indigenous settler relationships and struggles over Indigenous rights in British white settler colonies from the 1770s to 1830s **Blood Brothers** Jeff Hopkins-Weise,2007-01-22 By the middle of the nineteenth century the very existence of European colonial settlement in New Zealand was under threat With Queen Victoria's British forces stretched thinly across the globe the New Zealand colony had to look to its sister colonial states in Australia for support This ground breaking work shows for the first time in detail how the military social and economic brotherhood later embodied in the notion of the Anzac spirit began not on the sandy beaches of Gallipoli but 50 years earlier in the damp forests and fields of the North Island of New Zealand ***Civilian-Driven Violence and the Genocide of Indigenous Peoples in Settler Societies*** Mohamed Adhikari,2021-07-12 Existing studies of settler colonial genocides explicitly consider the roles of metropolitan and colonial states and their military forces in the perpetration of exterminatory violence in settler colonial situations yet rarely pay specific attention to the dynamics around civilian driven mass violence against indigenous peoples In many cases however civilians were major if not the main perpetrators of such violence The focus of this book is thus on the role of civilians as perpetrators of exterminatory violence and on those elements within settler colonial situations that promoted mass violence on their part **Australia Reborn** Pasquale De Marco,2025-07-12 In this captivating narrative we journey through the heart of Australia exploring its rich history diverse cultures and stunning natural beauty From the ancient Aboriginal heritage to the challenges and triumphs of the modern era this book offers a comprehensive exploration of the forces that have shaped this remarkable nation Through vivid storytelling and insightful analysis readers will gain a deeper understanding of Australia's Indigenous heritage its European colonization the struggles and achievements of its people and its role in the global community The book delves into the country's political economic and social development shedding light on the events and decisions that have shaped its identity From the arrival of the first Europeans to the establishment of the Australian Federation from the gold rush era to the world wars from the post war economic boom to the challenges of the 21st century this book provides a comprehensive overview of Australia's historical trajectory It also examines contemporary issues such as multiculturalism environmental sustainability and Australia's place in the Asia Pacific region With its engaging writing style and thought provoking insights this book is an essential read for anyone interested in gaining a deeper understanding of Australia its people and its place in the world Whether you're a history buff a traveler or simply curious about this fascinating country this book will captivate and inform you from cover to cover If you like this book write a review **Race and Identity in the Tasman World, 1769-1840** Rachel Standfield,2015-09-30 British imperial

Dominion and Civility Michael Leroy Oberg, 2018-08-06 Was the relationship between English settlers and Native Americans in the New World destined to turn tragic This book investigates how the newcomers interacted with Algonquian groups in the Chesapeake Bay area and New England describing the role that original Americans occupied in England's empire during the critical first century of contact Michael Leroy Oberg considers the history of Anglo Indian relations in transatlantic context while viewing the frontier as a zone where neither party had the upper hand He tells how the English pursued three sets of policies in America securing profit for their sponsors making lands safe from both European and native enemies and civilizing the Indians and explains why the British settlers found it impossible to achieve all of these goals Oberg places the history of Anglo Indian relations in the early Chesapeake and New England in a broad transatlantic context while drawing parallels with subsequent efforts by England as well as its imperial rivals the French Dutch and Spanish to plant colonies in America Dominion and Civility promises to broaden our understanding of the exchange between Europeans and Indians and makes an important contribution to the emerging history of the English Atlantic world
