**Dr. Edward Jenner's Discovery of Vaccination** E. L. B. Godfrey, 1881 **Edward Jenner Letter to "Dear Madam," Dated Cheltenham, 13 January 1807** Edward Jenner, 1807 Letter to your Ladyship and Sir James expressing regret for the delay in responding to her request to have Jenner send a vaccination for their young daughter giving instructions for their doctor to administer it and mentioning other matters such as Jenner's hope to introduce his wife to them Edward Jenner and Vaccination (Classic Reprint) David Fraser Harris, 2016-10-26 Excerpt from Edward Jenner and Vaccination The year 1810 was a sad one for Jenner his eldest son died and that noticeably depressed his health In 1823 he presented a paper to the Royal Society on the migration of birds a subject not even yet fully cleared up On January as in the same year he was stricken with paralysis on the right side and died within twenty four hours His body was buried in the chancel of the parish church of Berkeley where there is a memorial window placed by public subscription In person Edward Jenner was short and rather heavily built his expression of face was pleasant with a touch of sadness All reports agree that in dress he was conspicuously neat looking more like a gentleman farmer than a physician with his blue coat yellow buttons red waistcoat but breeches and top boots About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The War Against Smallpox Michael Bennett, 2020-06-18 A history of the global spread of vaccination during the Napoleonic Wars when millions of children were saved from smallpox *Edward Jenner and the Discovery of Smallpox Vaccination* Louis Harry Roddis, 1930 **Jenner and vaccination** Charles Creighton, 1889

*Benjamin Jesty, the Grandfather of Vaccination* Patrick John Pead, 2019-12-19 Benjamin Jesty has been described as the man history forgot Spanning the late 18th and early 19th centuries this book tells the story of the ingenious Dorset farmer who used cowpox as a vaccine to protect his family against the dreaded disease of smallpox in 1774 This happened 22 years before Dr Edward Jenner used a similar process The origins of vaccination have always been clouded in controversy Probing

previous accounts flawed by myth or subjectivity this text sets the record straight Man's early attempts at stimulating immunity are rooted in folk wisdom of the distant past Vaccination was not a discovery or a medical breakthrough but a development from variolation substituting cowpox as an inoculum instead of smallpox Analysing relevant primary sources with an innovative approach this book reveals the geographical extent of awareness of Jenner's endeavour in Georgian England confirms his priority and seeks to establish his Intellectual Property for the first use of an empirical vaccine Jenner brought vaccination to the world His achievement will always take precedence but the findings of this new research suggest it is now time to honour Benjamin Jenner with the credit he deserves *Edward Jenner's Cowpox Vaccine* Peter Razzell,1980

Smallpox in the New World Stephanie True Peters,2005 Describes the history of smallpox in the Americas covering the arrival of the Spanish as carriers its spread throughout the New World the development of the smallpox vaccine the elimination of the disease and its potential use as a terrorist weapon **Vaccine Development and the Understanding of Immunity** AJ Russo,2024-11-23 For centuries smallpox devastated humanity killing millions and leaving many scarred In 1980 the World Health Organization declared smallpox eradicated after a global campaign lasting over 20 years marking the first elimination of a highly dangerous infectious disease The development of the smallpox vaccine from early variolation to modern immunology has served as a model for inducing long lasting immunity secondary immunity cross protection and interactions with the body's microbiota to enhance immune responses These insights continue to guide vaccine development and immunological research aiding in the fight against infectious diseases and improving global public health This book explores the discoveries about the immune system influenced by vaccine development highlighting the smallpox vaccine's enduring legacy and its testament to the power of immunology and vaccination in disease prevention
