Effective Advocacy For The Criminal Defendant The Barrister Vs The Lawyer:

Effective Advocacy for the Criminal Defendant Peter W. Tague, 1996 This book explores whether barristers merit the praise and lawyers deserve the criticism that each group receives by examining the incentives to perform efficiently and effectively the procedural rules governing litigation and the barristers culture and working relationships William S Hein Co Inc 1996

The Supreme Court's Role in Mass Incarceration William T. Pizzi, 2020-09-17 The Supreme Court's Role in Mass Incarceration illuminates the role of the United States Supreme Court's criminal procedure revolution as a contributing factor to the rise in U S incarceration rates Noting that the increase in mass incarceration began climbing just after the Warren Court years and continued to climb for the next four decades despite the substantial decline in the crime rate the author posits that part of the explanation is the Court's failure to understand that a trial system with robust rights for defendants is not a strong trial system unless it is also reliable and efficient There have been many explanations offered for the sudden and steep escalation in the U S incarceration rate such as it was the war on drugs to it was our harsh sentencing statutes Those explanations have been shown to be inadequate This book contends that we have overlooked a more powerful force in the rise of our incarceration rate the long line of Supreme Court decisions starting in the Warren Court era that made the criminal justice system so complicated and expensive that it no longer serves to protect defendants For the vast majority of defendants their constitutional rights are irrelevant as they are forced to accept plea bargains or face the prospect of a comparatively harsh sentence if convicted The prospect of a trial once an important restraint on prosecutors in charging has disappeared and plea bargaining rules This book is essential reading for both graduate and undergraduate students in corrections and criminal justice courses as well as judges attorneys and others working in the criminal justice system

International Handbook of Penology and Criminal Justice Shlomo Giora Shoham, Ori Beck, Martin Kett, 2007-10-08 At the outset of the twenty first century more than 9 million people are held in custody in over 200 countries around the world from the essay Prisons and Jails by Ron King The first comparative study of this increasingly integral social subject International Handbook of Penology and Criminal Justice provides a comprehensive and balanced review

Trials Without Truth William T. Pizzi, 2000-06 Uncovers a major deficiency of U S criminal justice a trial system that prioritizes winning over truth Reginald Denny O J Simpson Colin Ferguson Louise Woodward all names that have cast a spotlight on the deficiencies of the American system of criminal justice Yet in the wake of each trial that exposes shocking behavior by trial participants or results in counterintuitive rulings often with perverse results the American public is reassured by the trial bar that the case is not typical and that our trial system remains the best in the world William T Pizzi here argues that what the public perceives is in fact exactly what the United States has a trial system that places far too much emphasis on winning and not nearly enough on truth one in which the abilities of a lawyer or the composition of a jury may be far more important to the outcome of a case than any evidence How has a system on which Americans have lavished enormous amounts of energy

time and money been allowed to degenerate into one so profoundly flawed Acting as an informal tour guide and bringing to bear his experiences as both insider and outsider prosecutor and academic Pizzi here exposes the structural faultlines of our trial system and its paralyzing obsession with procedure specifically the ways in which lawyers are permitted to dominate trials the system s preference for weak judges and the absurdities of plea bargaining By comparing and contrasting the U S system with that of a host of other countries Trials Without Truth provides a clear headed wide ranging critique of what ails the criminal justice system and a prescription for how it can be fixed **Adversarial Case-Making** Thomas

Scheffer,2010-09-24 Cases are not objects at hand for legal decision making cases are not echoes from a past crime Cases are first of all made within compound discourse apparatus here the English Crown Court and the procedure s attached to it This book reveals the legal production of cases including their relevant features The socio legal ethnography visits the natural sites of adversarial case making law firms barristers chambers and Crown Courts It examines the role and dynamics of client lawyer meetings pre trial hearings plea bargaining sessions and jury trials It focuses on the lawyers case making activities their procedural contexts and the resulting cases As an ethnographic discourse study the book develops a trans sequential perspective on the interrelated events and processes of case making and by doing so overcomes the shortcomings of talk bias and text bias The trans sequential approach pays out in detailed case studies on an alibi on guilt or the barrister s notes it pays out as well in cross case studies dealing with legal care procedural infrastructure or the case system in the common law tradition *Searching the Law, 3d Edition* Frank Bae,Edward Bander,Francis Doyle,Joel Fishman,Paul
