Effective Aids Education On Campus New Directions For Student Services:

New Directions for Student Services, 1997-2014: Glancing Back, Looking Forward Elizabeth J. Whitt, John H. Schuh, 2015-09-11 Student affairs has changed greatly in the almost twenty years that the series editors have been managing *New Directions for Student Services*. This volume provides a look back at this period of time from 1997 through 2014 with topical chapters focused on trends in student affairs during the past two decades, changes in students and the most effective student affairs responses, progress and recommendations for assessment in student affairs and challenges with and skills needed for digital technologies, finance and budgets, and staff preparation. The volume concludes with a look into the future of student affairs practice based in part on the lessons learned from looking at the recent past. This is the 151st volume of this Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals. *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual. **The History and Practice of College Health** H. Spencer Turner, Janet L. Hurley, 2014-07-11 This volume is the first definitive reference and textbook in the one hundred fifty year history of college health. Written for professionals and for those working in student services and higher education administration, it covers the history of college health administrative matters including financing and accreditation and clinical issues such as women's health, HIV/AIDS, and mental health. The book also focuses on prevention including immunization and tuberculin testing. The contributors are well respected in the field and are actively working in the specific areas on which they write. *Effective AIDS Education on Campus* Richard P. Keeling, 1992-03-31 This is a book of enhancements. In its chapters, the authors offer analysis, rationale, justification, and guidelines for focusing, evaluating, and improving HIV education and sexual health promotion programs on college and university campuses. Our purposes are to demonstrate and model the value of thinking carefully, repeatedly, and deeply about audiences, needs, formats, content, and impact in health promotion programs, to combine theoretical constructs and research data with practical implications, to raise some important questions for future study, and most of all, to prompt and support educators and clinicians to take the next significant steps in building health for campus communities. This is the 57th issue of the quarterly journal *New Directions for Student Services*. **Serving Students with Disabilities** Holley A. Belch, 2011-09-28 This issue examines what student services professionals can do to ensure the success of the growing population of students with disabilities. The contributors explore the critical role that community and dignity play in creating a meaningful educational experience for students with disabilities and show how to help these students gain meaningful access and full participation in campus activities. In addition to such common concerns as fulfilling legal requirements and overcoming architectural barriers, the contributors also address a full range of important issues such as effective approaches to recruitment and retention, strategies for career and academic advising, and the impact of financial resources on funding programs and services. This is

the 91st issue of the quarterly journal New Directions for Student Services **Student Services in a Changing Federal Climate** Michael D. Coomes,1994 Every aspect of campus life is affected by federal policy The federal government has become a significant force in the creation of individual campus policies Student affairs administrators must understand the nature of this federal intervention This volume of New Directions for Student Services provides an overview of the development of federal intervention and how the rationale for that involvement has changed over time The laws affecting student life on campus are also examined to help student affairs administrators understand the various mandates they must comply with on a daily basis This sourcebook also explains the federal policy process so that campus administrators can more effectively exercise their rights to influence that process Strategies are provided for administrators who must implement federal mandates on campus as well as warnings to be on guard against the loss of their liberties by overzealous federal enforcers This is the 68th issue of the quarterly journal New Directions for Student Services For more information on the series please see the Journals and Periodicals page Encyclopedia of AIDS Raymond A. Smith,1998-08-27 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company Student Services for the Changing Graduate Student Population Anne S. Pruitt-Logan,1995 The central theme of this volume of New Directions for Student Services is the graduate student experience It has been assumed that because graduate students have completed undergraduate degrees they have developed to the point where they can handle the new responsibilities of graduate study on their own Moreover because graduate study is characterized as trial by fire systems of support are seen as unnecessary Although there have always been those who have been alert to the attention these students need it has often been left to chance This book brings together in one place a discussion of issues and needs from the points of view of both graduate education and student affairs Drawing on the research and practical experiences of leading scholars the book leads off with excerpts from a graduate student s diary and then reviews the current landscape of graduate education The challenge to graduate education and student affairs concludes the volume This is the 72nd issue of the quarterly journal New Directions for Student Services For more information on the series please see the Journals and Periodicals page **Strategies for Staff Development: Personal and Professional Education in the 21st Century** William A. Bryan,Robert A. Schwartz,1998 An educated energetic and motivated student affairs staff is critical to the delivery of quality learning opportunities and services for students This volume offers a range of strategies for recruiting retaining and developing such a staff The authors show how supervisors and mentors can make a positive impact on staff members growth and discuss how to build a solid career foundation for entry level professionals They also describe the influence of behavioral style on professional development and present a performance based approach to human resource development that emphasizes goal setting coaching and performance assessment This is the 84th issue of the quarterly journal New Directions for Student Services **History of Professional Nursing in the United States** Arlene W. Keeling,John Kirchgessner,Michelle C. Hehman,2017-08-28 The

Growing Up Gay in Urban India

Ketki Ranade,2018-05-09 This book explores the growing up experiences of gay and lesbian individuals within their homes

schools neighbourhoods among friends and their journeys of finding themselves and their communities while living in a heterosexually constructed society It is based on an exploratory qualitative study with young gay and lesbian persons in two cities of Maharashtra India and employs a life course perspective The author has written this book from two primary loci those of a mental health professional and activist and a queer feminist activist Through layered narratives and psychosocial analyses of experiences that are simultaneously attentive to subjectivities and to social and interpersonal processes the author provides insights into the lives of children who grow up feeling different from their siblings peers and friends and receive constant messages about correct ways of being and expression from their parents teachers friends and counsellors doctors the unique challenges to growing up as gay or lesbian alongside complex processes involved in the decision of coming out and the experience of meeting others like oneself forming intimate romantic relationships bonds of friendship political solidarity families of choice and so on In this book the author employs a critical stance towards mainstream life span development studies developmental psychology child development and childhood studies that make universal assumptions of heteronormativity and gender binarism This book is of interest to a wide readership from psychologists mental health and human rights scholars to scholars of youth and childhood studies gender studies cultural studies social work sociology and anthropology

Meeting the Special Needs of Adult Students Deborah Kilgore, Penny J. Rice, 2003-06-27 In this volume we examine the ways student services professionals in institutions of higher education can best meet the needs of adult learners Most of the discussion here is situated in four year colleges and universities although we recognize that community colleges play a large role in the higher education of adults However we made the decision to focus on four year and post graduate institutions because we believe that these institutions often are focused on traditional aged students despite growing adult enrollments and are most in need of guidance about how to serve this ever growing population Students in higher education often are defined as adult learners or non traditional students if they are 25 twenty five years of age or older and more significantly if they have taken on what we consider adult roles and responsibilities such as caring for children and other family members working full time or participating heavily in community activities Adult students typically are not focused on campus life in the same way that younger traditional aged students are Therefore our theories of the importance of the campus experience outside the classroom to student development usually do not hold for adults Yet adults can and do learn and develop through their engagement in formal higher education Adults bring experiences and wisdom into the classroom and receive a learning experience that informs their own professional and personal practices This is the 102nd issue of the quarterly journal *New Directions for Student Services*

Leveling the Playing Field: Promoting Academic Success for Students of Color Irene Harris Johnson, 1996-08-05 Much of the retention literature has focused on at risk students of color especially freshmen whose admission has been facilitated by attenuated entrance requirements Of course this population of students has needs that urgently beg to be addressed however regularly or traditionally admitted students of color face

college attrition rates that approach or exceed those of their at risk peers Comparatively less attention has been paid to the academically able students of color who are avidly recruited but for whom programs and services are noticeably lacking This volume is intended to fill a conspicuous void to provide ideas narratives and learnings that have relevance for the retention of all students of color but that can be particularly applied to the retention of regularly admitted students of color The authors have tried to bring to the fore the work of individuals who are building state of the art programs Student affairs professionals need to learn from these practitioners successes and insights how retention programs can become established and institutionally supported rather than remain peripheral efforts run on paltry budgets This is the 74th issue of New Directions for Student Services For more information on the series please see the Journals and Periodicals page [The Community College and the Good Society](#) Chad Hanson, 2017-09-08 The community college is the largest single sector of the U S higher education network As of 2005 40 percent of newly enrolled undergraduate students attended community colleges The American two year school is a vast rapidly changing and understudied institution The aim of The Community College and the Good Society is to critically analyze the internal changes and external forces that shifted the focus of the two year college from the liberal arts to job training Chad Hanson raises a series of questions about what is lost or forsaken when public institutions become preoccupied with economic goals When educational institutions turn their attention toward training workers to private sector specifications Hanson argues our social and cultural lives suffer He describes the learning college movement an ideological framework that justifies the current emphasis on vocational training In addition he explores the implications of competency based education a philosophy and method for creating curriculum with strong support among administrators and boards of trustees For more than four decades a steady stream of commentary aimed at understanding the two year school made its way into the literature on higher education In this work Hanson provides an alternative view of the community college He offers suggestions for new teaching strategies curriculum and organizational structure These changes will encourage the potential for the two year college to flourish as an institution that provides a permanent place for the arts and sciences *Current Index to Journals in Education* ,2000-10 **Reporter** United States.
