Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21
 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity. In the years following World War II, college and university enrollment doubled, students revolted, faculty unionized and community colleges evolved. Tuition and technology soared as did the number of first-generation minority and women students. These changes radically transformed the American system of postsecondary education. Today that system is in trouble. Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them. A flood of corporate dollars funds commercial research but money for basic research, the seedbed of American scientific preeminence, has dried up. Colleges and universities also face heated competition with for-profit education providers for students, faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education. *Higher Education in the United States* provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study, discuss and grapple with on a daily basis.

The Professional Student Affairs Administrator Roger B. Winston, Don G. Creamer, Theodore K. Miller, 2013-08-21
 Styled as a complete update to the 1991 book *Administration and Leadership in Student Affairs*, this work addresses issues of importance to student affairs professionals. Grounded in human development, learning, leadership, group dynamics, management theories and social science research and evaluation methods, this book articulates the means for college student affairs administrators to function in the forefront of student learning and personal development initiatives. The book focuses on the three essential roles played by student affairs administrators: as educators who play a significant role in addressing the academic goals of their institutions; as leaders who help to shape the vision of their institution's student affairs practice and education mission; and as managers who are responsible for coordinating programs and services, supervising staff and overseeing university facilities and budgets.
