Doing a Literature Search Chris Hart, 2001-06-25 Doing a Literature Search provides a practical and comprehensive guide to searching the literature on any topic within the social sciences. The book will enable you to search the literature effectively identifying useful books, articles, statistics, and many other sources of information. Split into three parts, Doing a Literature Search takes you through the process step by step. Part 1 introduces the literature search, talking you through the organisation, planning, and searching steps. Part 2 explores literature types, giving you an overview of materials you can use and how to find them. Part 3 takes you a step further, demonstrating advanced searching techniques along with using the internet. Whether you're looking to do a quick indicative literature search or carry out a comprehensive search of literature, this handy guide gives you the tools and structure to undertake successful research.

Research Training for Social Scientists Dawn Burton, 2000-03-15 With indispensable advice for students from all social science backgrounds, this handbook provides the core conceptual and practical skills to embark on successful research. The organization of the book reflects the knowledge that is required in order to become a competent and effective researcher. It follows the life cycle of the research project: it begins with a discussion of ethical and philosophical issues, presents guides to both quantitative and qualitative data collection and analysis, provides help on using computers in research, and includes advice on how to write up and present a research project. Based on the UK Economic and Social Research Council advice on the training which students should undertake in preparation for postgraduate research, this book will be invaluable for all beginning researchers.

Nursing and Midwifery Research - E-Book Dean Whitehead, Daniel Terry, 2024-09-01 An indispensable guide to understanding applying and conducting research in practice. It is essential that nurses and midwives are able to understand, interpret, synthesise, and apply research for effective practice. Nursing and Midwifery Research is a well-established, highly regarded, and comprehensive resource that covers all the key fundamentals needed to become and be an evidence-based practitioner. This book provides an accessible and user-friendly roadmap of the entire research journey, from the conception of a research idea or question through to planning, implementation, evaluation, and dissemination of findings. Readers will develop strong skills in research literacy and critical appraisal and thus build confidence to embark on research projects of their own, an aim of developing research awareness and knowledge. Written by research experts in their fields, specifically for undergraduate and postgraduate students and clinicians in Australia and New Zealand, and fully updated in its seventh edition, this book is a

perfect introduction and long term resource to support research methods and evidence based practice throughout their professional careers
