Writing for the spoken word is a special discipline it requires that speechwriters products be written primarily although not exclusively to be heard not read Speeches are better cast in simple direct and often short sentences that can be easily understood by listeners Rhetorical devices such as repetition variation cadence and balance are available to and should be used by the speechwriter It is important for speechwriters to analyse audiences according to factors such as age gender culture profession and income level size of audience political affiliation if any and on the occasion for or purpose of the speech Most effective speeches do not exceed 20 minutes in length After researching a topic speechwriters must prepare an outline from which the speech will be developed They should strive to maintain a clear theme throughout the speech Most speeches will have a three part structure consisting of an introduction a body and a conclusion The accepted style of contemporary American public address is natural direct low key casual and conversational This puts the listeners at ease and promotes a sense of community between the audience and speaker Punctuation should reflect the sound structure of the speech reinforcing the rhythm and pace of actual speech Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law This book presents the essentials of speechwriting Preface Speechwriting in Perspective A Brief Guide to Effective and Persuasive Communication Thomas H Neale Public Speaking and Speechwriting Selected References Jean M Bowers Index      Speechwriting in Perspective Thomas A. Reference to or quotation from someone's speech, thoughts, or writing is a key component of narrative. These reports further a narrative, make it more interesting, natural, and vivid, ask the reader to engage with it, and reflect historical/cultural understandings of modes of discourse presentation. To a large extent, the way we perceive a story depends on the ways it presents discourse and along with it, speech, writing, and thought. In this book, Beatrix Busse investigates speech, writing, and thought presentation in a corpus of 19th-century narrative fiction, including *Frankenstein*, *Jane Eyre*, *Wuthering Heights*, *Oliver Twist*, and many others. At the intersection between corpus linguistics and stylistics, this book develops a new corpus stylistic approach for systematically analyzing the different narrative strategies of discourse presentation in key pieces of 19th-century narrative fiction. *Speech, Writing, and Thought Presentation in 19th-Century Narrative Fiction* identifies diachronic patterns as well as unique authorial styles and places them within their cultural/historical context. It also suggests ways for automatically identifying forms of discourse presentation and shows that the presentation of characters' minds reflects an ideological as well as an epistemological concern about what cannot be reported, portrayed, or narrated. Through insightful interdisciplinary analysis, Busse demonstrates that discourse presentation fulfills the function of prospection and encapsulation, marks narrative progression, and shapes readers' expectations. Speechwriting in Theory and Practice Jens E. Kjeldsen, Amos Kiewe, Marie Lund, Jette Barnholdt Hansen, 2019-03-14. This book provides students, researchers, and practitioners of speechwriting with a unique insight in the theory, history, and practice of speechwriting. The combination of theory and practice with case studies from the United States and Europe makes this volume the first of its kind. The book offers an overview of the existing research and theory, analysing how speeches are written in political and public life and paying attention to three central subjects of contemporary speechwriting: convincing characterization of the speaker, writing for the ear and appealing with words to the eye. Chapters address the ethics and the functions of speechwriting in contemporary society and also deliver general instructions for the speechwriting process. This book is recommended reading for professional speechwriters wishing to expand their knowledge of the rhetorical and theoretical underpinnings of speechwriting and enables students and aspiring speechwriters to gain an understanding of speechwriting as a profession. **Thematic Teaching of Women's Rights Issues with Social Studies Trade Books**
