Effectiveness Of Eu Business Associations:

The Effectiveness of EU Business Associations J. Greenwood, 2016-01-23 This is a unique collection of papers which brings together those who work in and with EU business associations at the very highest level with many of the leading academic authors on associations over the past two decades It examines the factors that influence the effectiveness of EU business associations and the prospects for associations and their members to influence these It is designed to appeal both to analysts of debates about interest groups collective action and European integration and to those who work in and with EU business associations

Effectiveness of EU Business Associations, 2002

Inside the EU Business Associations J. Greenwood, 2001-12-05 Whilst actions by business interests are widely acknowledged to be a central mechanism of European integration the capacity of formal groups which represent them to contribute meaningfully to the integration process is little understood Based on original research with 50 EU business associations and 150 of their members this unique book assesses the effectiveness of EU business associations and their potential to bring value to the EU policy making process and to their members and lends a methodology by which they can be evaluated

The Challenge of Change in EU Business Associations J. Greenwood, 2003-07-31 Key practitioners who work in and with EU business associations come together with leading policy makers from the EU institutions and research academics to analyze change factors for the associations and their role in EU policy making and implementation Contributors include the Head of the team responsible for the EU White Paper on Governance the Chair of the UK CBI Trade Association Forum the Chair of the UK Political Studies Association and the longest serving Secretary General of UNICE

Governing Interests Wolfgang Streeck, Jurgen Grote, Volker Schneider, Jelle Visser, 2006-06-07 In the current period of globalization Governing Interests presents new research on the impact of internationalization on the organization and representation of business interests through trade and employer associations By exploring ongoing gradual but nevertheless profound changes in the structures and functions of business interest associations the book develops a precise understanding of the relationship between the national and the international Both conceptual and empirical some papers included in this significant volume adopt a bird's eye view of the topic whilst others concentrate on individual industries or countries and several through examination and analysis consider the effects on interest representation and the repercussions on effective governance Contributed to and edited by leading academics the diversity of research questions and methods used in this volume provide the reader with an excellent understanding of the subject and importantly caution against rash simplifications Comprehensive and scholarly this text will be of particular relevance to political scientists and sociologists

Interest Representation in the European Union Justin Greenwood, 2017-09-16 Why is the EU so reliant upon exchanges with interest organisations What safeguards have been developed to prevent capture by special interests and how effective are these How does the EU system of interest representation compare with those of other systems and what are its unique features The fully revised fourth edition of this

highly acclaimed book provides an authoritative and comprehensive assessment of the role of organized interests in the EU Showing that interest representation is a key aspect of the European project it examines the significance of interests for everyday policy making for European integration and for the democratic legitimacy of the EU Accessibly written and thoroughly updated the new edition contains additional material on the regulation of lobbying and the European Transparency Register

Regionalism Contested Henrik Halkier, 2016-12-05 As we move further into the 21st century the prominence of regions can no longer be taken for granted A certain skepticism has developed with regard to the feasibility of marginal regions achieving self sustained growth and states have maintained their role as regulators of economic and social activities Thus the notion of the region and its significance is currently much debated and contested Illustrated with a wide range of European case studies this volume brings together the main strands of these contestations as economic political and social actors attempt to institutionalise their vision of their region as the dominant form of territorial governance It questions both the external delimitation and the internal constitution of regions and critically analyses the societal processes circumscribing ways in which regions are created maintained and undermined The volume provides a wide range of analytical perspectives to enable an understanding of the current mosaic of regionalism in Europe

Globalization, Regionalization and Business M. Schelhase, 2008-10-01 The book provides new insight into the role of organised business interests It supports the concept of political economy and demonstrates how it transcends the limitations of CPE or IPE to form a coherent whole The book maps the conflict convergence and influence of

organized business interests in the context of regional integration

Transnational Financial Associations and the

Governance of Global Finance Heather McKeen-Edwards, Tony Porter, 2013-02-11 The role of business in global governance is now widely recognized but exploration of its role in global financial governance has been more haphazard than systematic This book provides the first comprehensive analysis of the role of transnational financial associations TFAs in the organization of global finance This book develops three theoretical themes of assemblage functionality and power as enrolment These themes challenge approaches that treat financial power as emanating from a single location or force Whilst existing approaches tend to treat TFAs as irrelevant or as merely transmitting power originating elsewhere this book argues that power must be created by painstakingly assembling actors networks and objects that are often quite autonomous and working at cross purposes to one another a process in which TFAs play a central role The book explores these themes in chapters examining the roles of TFAs in interacting with public authorities constructing global financial markets and creating financial communities The authors additionally analyse the roles of TFAs in the European Union in the Global South and in promoting goals other than profitability including Islamic finance microfinancing savings banks and cooperatives Making a distinctive contribution to our understanding of global finance and global governance Transnational Financial Associations and the Governance of Global Finance is an important book for students and scholars of international political economy finance global governance and international relations

Competing Interest Groups and Lobbying in the Construction of the

European Banking Union Giuseppe Montalbano, 2021-02-17 This book investigates the role of banking interest groups and

lobbying in the making of the European Banking Union Facing the politicization of financial regulation in the wake of the crisis core players of the European banking industry managed to adapt and re orient their lobbying resources and strategies to influence the reform process This work advances an original Critical IPE approach which combines structural power the collective agency of key socio economic groups and the issue salience as critical determinants to explain corporate influence in policy making The explanatory framework is applied to a comprehensive analysis tracing the Banking Union s development within the broader context of the EU post crisis banking regulation An in depth scrutiny of the interest groups preferences coalitions and attainments is thus provided on the pillars of the Banking Union covering banking supervision resolution deposit insurance as well as the reform of the banks prudential requirements and the failed project of an EU banking structural reform

European Lobbying Christian Lahusen, 2023-02-16 Lobbying is an integral part of the political reality of the European Union and a highly competitive and dynamic field of interest groups This book takes a systematic look at lobbyists in order to broaden our understanding of the staff entrusted with the responsibility of influencing European politics Who are the European lobbyists What are their professional backgrounds career patterns practices and beliefs The study uses a sociological framework to explore the professionalisation and professionalism of the field across national proveniences policy fields and interest groups and develops a systematic analysis that considers three different dimensions occupational patterns shared knowledge and common convictions Based on original research that combines in depth interviews with survey data *European Lobbying* demonstrates that European lobbying is a firmly established and highly professionalised m tier In an organisational field characterised by growth pluralisation and increasing competition the professional staff contributes to the homogenisation of European lobbying and the marginalisation of other non professionalised forms of interest representation It will therefore appeal to scholars and students of sociology and politics with interest in European studies European Union politics and the sociology of the professions The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Effectiveness of European Union Environmental Policy W. Grant, D. Matthews, P. Newell, 2000-10-25 Several hundred directives on environmental policy have

been produced by the European Union What impact has the output of the legislative factory had After considering how decisions on environmental policy in the EU are made and the balance of power between business and environmental interests this book draws on the specialist expertise of the authors to look in depth at the areas of global warming water pollution and air pollution Legislative Lobbying in Context Jan Beyers, Caelesta Braun, Heike Klüver, 2017-10-02 The lack of previous research into political interest groups and taking into account policy specific and institutional context characteristics is largely due to research designs that have been primarily focused on a small number of policy debates with the result that contextual characteristics were largely held constant This book brings together articles from different modules that are part of a larger European Collaborative Research Project INTEREURO carried out by research teams in nine different countries under the auspices of the European Science Foundation The main goal of the book is to analyse strategies framing and influence processes for a set of 125 legislative proposals submitted by the European Commission in an effort to better understand the involvement of interest organizations in the decision making process of the EU Contributors draw on sophisticated and innovative policy driven samples of interest group mobilization allowing them to account systematically for how policy specific and institutional context factors shape mobilization lobbying strategies and influence of interest groups on public policy debates in the EU In this way the book makes an important contribution to the study of interest groups in the EU and represents the breadth of positions taken in the current literature This book was originally published as a special issue of the Journal of European Public Policy **Character is Destiny** Pehr

Gyllenhammar, 2020-05-15 Character is Destiny provides a rare and unique glimpse into Pehr Gyllenhammar's professional triumphs and failures and his successful efforts to shape industry in Europe most notably with his creation of the European Roundtable of Industrialists which revitalized Europe's infrastructure through projects like the France England Channel Tunnel Character is Destiny also provides a window into his friendships with some of the great luminaries of the world It is equal parts history politics and Gyllenhammar's own personal philosophy the foundational elements of his life have always been humanism a fierce commitment to integrity and truth and a deeply rooted respect and admiration for the working class The author of six previous books published in Sweden for the first time Gyllenhammar has chosen to create an original English language book in concert with an American editor/writer The resulting work is directly relevant to the English language reader and Character is Destiny offers his own wisdom as to what people must do if they hope to see a future in which global business and democracy will survive Good CEO Bad CEO Mastering the Art of Effective CEO Management & Transforming CEO Bad Habits into Good Practices Author Researched, Edited, Compiled.
