Efficiency And The Social Services:

Efficiency and the Social Services Robert Pruger, 1991 Here is a unique book that addresses the concept of efficiency in relation to the social services Efficiency is a subject of great intellectual challenge and one that has the potential to make a profound impact throughout the social services industry but which until now has not been fully explored by academicians inside or outside the social welfare field Efficiency and the Social Services is dedicated to promoting the idea of efficiency as a fundamental standard in the social services This thought provoking volume presents a serious treatment of the subject from the diverse range of viewpoints of twelve authoritative contributors whose areas of concentration include economics history political science public administration and social welfare This fascinating book is a detailed and multi faceted discussion committed to creating an interest in the efficiency concept The first two chapters present for the first time a strongly argued case for applying efficiency to the social services Subsequent chapters discuss the issue of conceptualizing and measuring unit costs efficiency from the perspective of political culture and the rich history of efficiency in social welfare The possible negative aspects of efficiency are even covered in an examination of the distortions and problems that can result in attempting to make the social services efficient This insightful book s serious approach and detailed presentations will spark interest in further development of the concept of efficiency among practicing administrators and academics in the welfare and social services fields

Privatisation and the Welfare State Julian Le Grand, Ray Robinson, 2018-07-20 Originally published in 1984 Privatisation and the Welfare State brings together a distinguished set of experts on the Welfare State and its main policy areas of health care housing education and transport Each chapter provides some much needed analysis of privatisation policies in areas where too often political rhetoric is allowed to dominate discussion The book makes a major contribution to the reader s understanding of the complex issues involved in this controversial area of social policy As the first systematic evaluation of a broad range of welfare state privatisation proposals it is essential reading for economists social administrators and political scientists

Strategies to Explore Ways to Improve Efficiency While Reducing Health Care Costs Calvin Tchatchoua, 2022-06-02 It was my pleasure to work with Calvin on his Doctoral Study at Walden University from 2014 to 2018 According to the Institute of Medicine of the National Academy of Science 2012 the United States is the only industrialized nation in the world that does not have a

universal healthcare system Citizens in this country spend twice the amount of money on healthcare costs while the quality of services is only ranked 31st in the world by the World Health Organization By using system s theory Calvin identified those factors that are directly and inversely related to healthcare costs If these factors go up healthcare costs go up if they go down healthcare costs go down In Calvin s study he documents and discusses that 667 billion dollars is wasted because we don t manage these factors efficiently He then identifies factors that are inversely related to healthcare costs If they go up healthcare costs go down if they go down healthcare costs go up This represents a total of 391 billion To correct this problem we need to improve efficiencies to reduce costs and we need to reduce inefficiencies to lower costs with evidence based practices that work see Figure 3 on page 98 If only half of these issues were successfully worked on hospital costs could be reduced by 500 billion We would have enough funding to make certain that every person in the United States could have fully funded healthcare insurance Gossett et al 2019 This is a book that is well worth reading Kenneth D Gossett Ph D May 6 2022

Government response to the House of Commons Health Select Committee report on public expenditure (second report of session 2010-11) Great Britain: Department of Health,2011-01-31 Government response to HC 512 session 2010 11 ISBN 9780215555601 **Economic Analysis and the Efficiency of Government** United States. Congress. Joint Economic Committee. Subcommittee on Economy in Government,1970 The Community Survey in Relation to Church Efficiency Charles Eden Carroll,1915 **Public expenditure** Great Britain: Parliament: House of Commons: Health Committee,2012-01-24 The fact that there is another bill going through Parliament changing the management structure of the NHS means that there is a tendency for every comment about the NHS to be framed by the debate about the bill But the NHS is well used to management change In reality the key pressures which are building in the system arise from the fact that demand is continuing to grow at a time when health and social care budgets have stopped growing This development has been well signposted The implications were first highlighted by Sir David Nicholson in May 2009 and endorsed by both the previous government and the Coalition This report is a review of progress within the health and care system towards meeting the Nicholson challenge The NHS funding challenge can only be met by rethinking and redesigning the way health services are delivered now in order to deliver lasting long term benefits The Committee s December 2010 report HC 512 session 2010 11 ISBN 9780215555601 on health expenditure already expressed concerns then about the ability of the health service and local authorities to make the demanding efficiency gains required of them by the 2010 Spending Review while maintaining quality of care Both the NHS and local authorities are struggling to meet current targets in a sustainable long term manner that will maintain high quality efficient care in the future The need to provide high quality and efficient services that meet local needs within the funding available must be addressed as a matter of urgency Efficiency, Institutions, and Economic Policy Rüdiger Pethig,Ulrich Schlieper,2012-12-06 In a neoclassical world the existence of non zero transaction costs nonconvex technologies public goods and so on creates inefficiencies which

can be dealt with by various institutions But institutions can create inefficiencies of their own This volume addresses the issue of efficiency and institutions from different angles First the efficiency of modern welfare states is analyzed on a general level where topics like social justice redistribution and rent seeking are studied in an environment of pressure groups and self interested politicians papers by Streit Schlieper WickstrAm Second several papers deal with more specific issues like intergenerational transfers in a social insurance system the efficiency of law and contractual arrangements in the labor market Witt Rowley and Brough Monissen and Wenger Third allocation procedures for nonexclusive public goods are analyzed GA1 4th and Hellwig Pethig

Speaking Truth to Power Clive Smee, 2016-07-06 The Human Rights Act is now in force Any NHS body that acts in a way that is incompatible with the rights set out in the European Convention on Human Rights may be acting unlawfully This workbook is a personal perspective based on the authors experience of health service management and the law It explains the impact of the Act raises issues surrounding its implementation and asks questions about its implications for the future It has practical exercises to help readers respond to the challenges of the Act individually or in team sessions

Inclusive GovTech: Enhancing Efficiency and Equity Through Public Service Digitalization Manabu Nose,2023-10-27 How could the GovTech improve budget processes and execution efficiency Could the GovTech strengthen redistributive function of public expenditure Based on an event study method this paper finds that the introduction of digital budget payments and e procurement could significantly enhance budget transparency and help expand the coverage of social assistance to reach the most vulnerable population Exploiting staggered adoption of digital budget payments a synthetic control regression identifies meaningful increase in pre tax income shares among the bottom 50th percentile and female workers especially for emerging market and developing countries with effects materializing gradually over 10 year period The paper delves into the potential mechanism driving these equity benefits highlighting the reduction in business informality as a primary channel However the paper emphasizes that the mere adoption of GovTech strategies or digital technologies is insufficient to unlock its full potential The outcomes are intricately linked to supporting policies regulations organizational and system integration and robust digital connectivity The paper underscores that inter agency coordination facilitated by a dedicated GovTech institution emerges as a critical factor for reaping both efficiency and equity gains from GovTech initiatives

Equity and Efficiency in Economic Development Donald J. Savoie,Irving Brecher,1992-10-16 The ideological foundations of the contributors range from personalized neo Marxism through extreme centre neo Keynesianism to hard line neoclassical mathematical economics Despite this diversity there is a surprising degree of consensus No contributor advocates centralized planning and none expects a free market to cure all economic ills Opinions vary as to how well the market actually works but all agree that equity and efficiency are essential goals which most consider to be complementary rather than mutually exclusive In the concluding chapter it is suggested that current economic problems are caused not so much by government intervention as by the nature of that intervention The authors believe that the recent ideological convergence may lead to a new paradigm a theory of the optimal blend of market and management that will be flexible enough to deal with the varying conditions of diverse societies thus simplifying the task of creating a smooth running global economy The contributors are Irma Adelman Mark Blaug Kenneth Boulding Irving Brecher Albert Breton John S Chipman Andr Gunder Frank Martha Fuentes Frank Niles Hansen Murray C Kemp Robin Marris Richard Musgrave Walt Rostow Donald J Savoie Nicholas Spulber and Paul Streeten Higgins himself contributes a chapter on basic concepts and collaborates with Donald Savoie on the final chapter

Productivity and Efficiency Challenges of Microcredit Program in Bangladesh Md.

Mahmudul Alam ,Rafiqul Islam Molla,2013-01-01 There is no denying the fact that microcredit MC has been playing an important role in the movement for poverty alleviation But by the same breath it is also a hard fact that it has serious

limitations in terms of its delivery system rules of repayment interest rate charges etc These limitations made it largely fail to realize its potential and expected goals A credible study on the productivity of MC was required to determine its actual interest profit paying capability In the absence of any established economic justification based on productivity this exorbitantly high interest rate is found morally untenable and has become the primary target of criticism for its minimal or marginal achievements As a result recently the government rightfully fixed 27% as the maximum interest rate chargeable for microcredit with effect from July 2011 However we need not undermine the importance and efforts of the microcredit movement both as an economic as well as a social institution for the betterment of the poor in the society We need not be selfish and miser to give the movement its due credit MC should not be summarily viewed as unuseful and unsuccessful It has been making some contributions to the betterment of the poor and it should be given the appreciation it deserves But like many other researchers we are troubled by the contradicting attitudes of the microcredit providers toward the borrowers In one hand they are concerned and committed to pull the poor out of poverty on the other hand they are so harsh in the timely payment of repayment installments putting a blind eye to the sufferings of these poor borrowers Therefore MCIs need to be more innovative to be able to serve and take care of the wellbeing of the critical group among the borrowers We are also puzzled to see that in spite of the exorbitantly high interest rate charges and all other limitations increasing number of these poor are borrowing credit from these MCIs This surgical study on the inside view of microcredit in Bangladesh using a rich data set developed through a survey of 555 sample borrowers from rural semi urban and urban areas of all 7 administrative divisions of Bangladesh is an effort to address these issues and find answers to these and other questions like its potentiality to become a growth tool in the third sector economy To our own best assessment this study made three major contributions to microcredit literature a application of economic profit counting method in economic productivity analysis b identification of the critically vulnerable group among the borrowers and c the revelation that microcredit is respected by the borrowers more as a social than economic institution To them microcredit has facilitated their social and political empowerments and safeguarded their social status An additional feature of this monograph is that it includes a chapter reflecting on the status of Islamic microcredit in the country We are thankful to the sample micro borrowers for their sincere cooperation and responses in the operation of this research We are equally thankful to the field investigators for their honest and untiring search for information We are thankful to Professor Dr Abu Bakr Rafique Ahmed Pro Vice Chancellor of International Islamic University Chittagong Bangladesh for his most valuable suggestion to include in the book a separate chapter on Islamic microfinance This chapter has certainly enhanced the focus of the monograph Lastly we are grateful to Professor Dr Anisuzzaman Chowdhury of University of Western Sydney Australia and Senior Economic Affairs Officer Department of Economic and Social Affairs United Nations New York for writing a thoughtful foreword to this work

Efficiency and Justice in the Industrial World: v. 2: The Uneasy Success of Postwar Europe Dusan Pokorny,2016-09-16 European market integration was originally seen as the way to overcome national enmities in the wake of World War II Over time it acquired the purpose of social melioration as well Today the advanced market societies are richer than they have ever been yet each is driven by social and economic divisions as some groups thrive while others lose ground The tension between the social demand for equity and security and the market s drive to burst the bonds of state regulation both internally and at the border post has taken on new complexity It is this issue that underlies domestic political struggles over privatisation safety net programmes immigration policies and trade agreements Will European Union survive the stresses of high employment and the strains of German unification These are some of the questions Dusan Pokorny considers in this second volume of his exploration of the efficiency justice conundrum
