role in Egypt's national life **Early Dynastic Egypt** Toby A.H. Wilkinson, 2002-09-11 Early Dynastic Egypt spans the five centuries preceding the construction of the Great Pyramid at Giza. This was the formative period of ancient Egyptian civilization and it witnessed the creation of a distinctive culture that was to endure for 3 000 years. This book examines the background to that great achievement, the mechanisms by which it was accomplished and the character of life in the Nile valley during the first 500 years of Pharaonic rule. The results of over thirty years of international scholarship and excavation are presented in a single highly illustrated volume. It traces the re-discovery of Early Dynastic Egypt, explains how the dynasties established themselves in government and concludes by examining the impact of the early state on individual communities and regions.

Understanding Early Civilizations Bruce G. Trigger, 2003-05-05 This book offers the first detailed comparative study of the seven best documented early civilizations: ancient Egypt and Mesopotamia, Shang China, the Aztecs and adjacent peoples in the Valley of Mexico, the Classic Maya, the Inka and the Yoruba. Unlike previous studies, equal attention is paid to similarities and differences in their sociopolitical organization, economic systems, religion and culture. Many of this study's findings are surprising and provocative. Agricultural systems, technologies and economic behaviour turn out to have been far more diverse than was expected. These findings and many others challenge not only current understandings of early civilizations but also the theoretical foundations of modern archaeology and anthropology. The key to understanding early civilizations lies not in their historical connections but in what they can tell us about similarities and differences in human behaviour.
