Morris,Hannah Vogel,2024-12-13 This book explores disability across time and space from ancient Egypt as a culture to Egyptology as a contemporary field to go beyond simply identifying disability encouraging readers to thoughtfully consider the history of disabled people in ancient Egypt and Egyptology Through a critical investigation this volume reshapes often overlooked narratives of disability within the discipline of Egyptology and Egyptian Archaeology Chapters explore evidence of disability the historiographical ways in which disability has been approached and how disability histories are misrepresented in various contemporary spaces Coverage stretches across Egypt and Nubia from the Predynastic to the Roman periods as well as receptions of these cultures and disability in museums Its editors and many of its authors are disability community members who are experts in their respective professions comprising an international authorship and including voices from typically underrepresented groups Contributors range from early career researchers to senior scholars as well as
