For the Love of Letters John O'Connell, 2013-01-01 Remember letters They were good weren't they The thrill of receiving that battered envelope all the better for the wait In this richly entertaining book paper geek John O'Connell puts forward a passionate case for the value of letter writing in a distracted technology obsessed world Drawing on great examples from the past he shows that the best letters have much to teach us Samuel Richardson's familiar letters Wilfred Owen's outpourings to his mother the sly observational charms of Jane Austen And in doing so he reminds us of the kind of letters we would all write if we had the time the perfect thank you letter a truly empathetic condolence letter and of course the heartfelt declaration of love Was there a Golden Age of Letters Why is handwriting so important Can we ever regain the hallowed slowness of the pre Twitter era In answering these questions O'Connell shows how a proper letter is an object to be cherished its crafting an act of exposure which gives shape and meaning to the chaos of life The nib touches the paper And instinctively I follow the old formula address in top right hand corner date just beneath it on the left hand side My writing looks weird I hand write so infrequently

Denisoff,2016-12-05 During the rise of consumer culture in the nineteenth century children and childhood were called on to fulfill a range of important roles In addition to being consumers themselves the young functioned as both goods to be used and consumed by adults and as proof that middle class materialist ventures were assisting in the formation of a more ethical society Children also provided necessary labor and raw material for industry This diverse collection addresses the roles assigned to children in the context of nineteenth century consumer culture at the same time that it remains steadfast in recognizing that the young did not simply exist within adult articulated cultural contexts but were agents in their formation

Topics include toys and middle class childhood boyhood and toy theater child performers on the Victorian stage gender sexuality and consumerism imperialism in adventure fiction the idealization of childhood as a form of adult entertainment and self flattery the commercialization of orphans and the economics behind formulations of child poverty Together the essays demonstrate the rising investment both children and adults made in commodities as sources of identity and human worth Sale Catalogues American Art Association, Anderson Galleries (Firm),inc American art association Aderson galleries,1924
