## **From Private To Public A Feminist Exploration Of Early Mothering:**

**From Private to Public** Amy Rossiter, 1988 Feminists have forced us to critically re assess several pertinent issues relating to women In *From Private to Public A Feminist Exploration of Early Mothering* Amy Rossiter considers the contradictions of early mothering Including her own experience as a first time mother as well as those of three other women Rossiter keenly analyzes social factors that make early mothering both a joyous and an oppressive experience Incisive and invaluable *From Private to Public* is both for women who are mothers and for anyone who wants to understand the experience of early mothering *Mothering in Marginalized Contents: Narratives of Women Who Mother In the Domestic Violence* Caroline McDonald-Harker, 2016-02-01 This book provides a rare and in depth examination of the narratives experiences and lived realities of abused mothers a group of women who despite being the victims are often criticized vilified and stigmatized for failing to meet dominant ideologies of what a good mother is should be because they have lived and mothered in domestic abuse relationships Based on a qualitative research study conducted with 29 abused mothers residing in abused women s shelters in Calgary Alberta this book highlights the ways that these mothers experience the dominant ideology of intensive mothering negotiate the resulting discourses of the good and the bad mother and ultimately find ways to exercise agency resistance and empowerment in and through their mothering This book discusses how abused mothers engage in empowered mothering by constructing valued fortified and liberating identities for themselves as mothers in the face of an ideology of intensive mothering that delegitimizes and subjugates them These mothers are not passive victims but rather are active agents who resist and question the idealized standards of intensive mothering as being restrictive and unachievable who view their mothering in a positive light even though they have lived and mothered in social milieus deemed outside the boundaries of acceptable mothering and who uphold that they are indeed worthy mothers despite their stigmatized status Particular attention is given to the ways that intersections of gender race and social class shape and influence abused mothers constructions of their mothering identities This book calls into question the false notion that there is only one standard one definition and one social location in which effective mothering is performed It is a voice against the judgment of mothers a call to end the oppressive and restrictive bifurcation of mothers into categories of either good or bad mothers and an attempt to re envision a more inclusive understanding of mothering This book is a movement towards the empowerment of all mothers regardless of differences in their lives and social circumstances *Feminism, Psychoanalysis, and Maternal Subjectivity* Alison Stone, 2013-03-01 In this book Alison Stone develops a feminist approach to maternal subjectivity Stone argues that in the West the self has often been understood in opposition to the maternal body so that one must separate oneself from the mother and maternal care givers on whom one depended in childhood to become a self or in modernity an autonomous subject These assumptions make it difficult to be a mother and a subject an autonomous creator of meaning Insofar as mothers nonetheless strive to regain their subjectivity when their motherhood seems to have

compromised it theirs cannot be the usual kind of subjectivity premised on separation from the maternal body Mothers are subjects of a new kind who generate meanings and acquire agency from their position of re immersion in the realm of maternal body relations of bodily intimacy and dependency Thus Stone interprets maternal subjectivity as a specific form of subjectivity that is continuous with the maternal body Stone analyzes this form of subjectivity in terms of how the mother typically reproduces with her child her history of bodily relations with her own mother leading to a distinctive maternal and cyclical form of lived time

Motherhood and Feminism Amber E Kinser,2010-05-04 How does feminism relate to motherhood how has it changed over time and what does the future of motherhood and feminism look like These are just some of the questions Amber E Kinser PhD tackles in this latest addition to the Seal Studies Series Motherhood and Feminism examines the role of feminism within motherhood a topic that has garnered a lot of attention lately as society shifts to adapt to new definitions of these roles and offers insight into the core questions of motherhood what it means to be a good mother what role mothers play in the family and in society and how motherhood has been redefined throughout time Kinser also speculates on the future directions of feminism focusing on the expansion of contemporary mother activism that has occurred in the last 15 years and emphasizing the need for that expansion to continue and examines how the changing world of motherhood fits into feminist activism

Toni Morrison and Motherhood Andrea O'Reilly,2012-02-01 Traces Morrison s theory of African American mothering as it is articulated in her novels essays speeches and interviews Mothering is a central issue for feminist theory and motherhood is also a persistent presence in the work of Toni Morrison Examining Morrison s novels essays speeches and interviews Andrea O Reilly illustrates how Morrison builds upon black women s experiences of and perspectives on motherhood to develop a view of black motherhood that is in terms of both maternal identity and role radically different from motherhood as practiced and prescribed in the dominant culture Motherhood in Morrison s view is fundamentally and profoundly an act of resistance essential and integral to black women s fight against racism and sexism and their ability to achieve well being for themselves and their culture The power of motherhood and the empowerment of mothering are what make possible the better world we seek for ourselves and for our children This argues O Reilly is Morrison s maternal theory a politics of the heart As an advocate of a politics of the heart O Reilly has an acute insight into discerning any threat to the preservation and continuation of traditional African American womanhood and values Above all Toni Morrison and Motherhood based on Andrea O Reilly s methodical research on Morrison s works as well as feminist critical resources proffers a useful basis for understanding Toni Morrison s works It certainly contributes to exploring in detail Morrison s rich and complex works notable from the perspectives of nurturing and sustaining African American maternal tradition African American Review O Reilly boldly reconfigures hegemonic western notions of motherhood while maintaining dialogues across cultural differences Journal of the Association for Research on Mothering Andrea O Reilly examines Morrison s complex presentations of and theories about motherhood with admirable rigor and a refusal to simplify

and the result is one of the most penetrating and insightful studies of Morrison yet to appear a book that will prove invaluable to any scholar teacher or reader of Morrison South Atlantic Review it serves as a sort of annotated bibliography of nearly all the major theoretical work on motherhood and on Morrison as an author anyone conducting serious study of either Toni Morrison or motherhood not to mention the combination should read this book O Reilly's exhaustive research her facility with theories of Anglo American and Black feminism and her penetrating analyses of Morrison's works result in a highly useful scholarly read Literary Mama By tracing both the metaphor and literal practice of mothering in Morrison's literary world O Reilly conveys Morrison's vision of motherhood as an act of resistance American Literature Motherhood is critically important as a recurring theme in Toni Morrison's oeuvre and within black feminist and feminist scholarship An in depth analysis of this central concern is necessary in order to explore the complex disjunction between Morrison's interviews which praise black mothering and the fiction which presents mothers in various destructive and self destructive modes Kudos to Andrea O Reilly for illuminating Morrison's maternal standpoint and helping readers and critics understand this difficult terrain Toni Morrison and Motherhood is also valuable as a resource that addresses and synthesizes a huge body of secondary literature Nancy Gerber author of Portrait of the Mother Artist Class and Creativity in Contemporary American Fiction In addition to presenting a penetrating and original reading of Toni Morrison O Reilly integrates the evolving scholarship on motherhood in dominant and minority cultures in a review that is both a composite of commonalities and a clear representation of differences Elizabeth Bourque Johnson University of Minnesota Andrea O Reilly is Associate Professor in the School of Women's Studies at York University and President of the Association for Research on Mothering She is the author and editor of several books on mothering including with Sharon Abbey Mothers and Daughters Connection Empowerment and Transformation and Mothers and Sons Feminism Masculinity and the Struggle to Raise Our Sons

Public Power, Private Interests and Where Do We Fit In? Edmund F. Byrne,1998 All over the world the statues of Mary are miraculously crying In the meantime a journalist in Washington D C is diverted away from her own personal demons when she takes it upon herself to question why the Vatican is not declaring these occurrences as miracles

after witnessing the unexplainable phenomena herself The journalist suspects her nightly barrage of haunting nightmares about the violent murders of countless women from five thousand year old priestesses to women accused of being witches in the seventeenth century may have something to do with the answer as she investigates the biggest story of her life Women all over the world in the 21st century are feeling the awakening as the discovery of ancient artifacts are disproving the beliefs set forth by patriarchal religions for thousands of years When the journalist receives a visitation from a beautiful Goddess who at first appears to be the Virgin Mary she suddenly realizes that an ancient religious and political cover up has grossly distorted some very important historical truths As the journalist investigates and begins to publicly write about what she has uncovered death threats and terror follow next as powerful members of the world's patriarchal religions and the age old male run organizations that support them fight viciously to keep one of the world's oldest and most deceptive societal form of control against women hidden from the world But as intimidation and threats increase so too do the miracles and visitations from the real Sleeping Goddess as she awakens once again to bless and protect the world while igniting the hearts and souls of oppressed women everywhere Anatomising Embodiment and Organisation Theory K. Dale, 2000-11-08

Giroux, 1991-01-22 This book introduces central assumptions that govern postmodern and feminist theory offering educators a language to create new ways of conceiving pedagogy and its relationship to social cultural and intellectual life It challenges some of the major categories and practices that have dominated educational theory and practice in the United States and in other countries since the beginning of the twentieth century Rejecting the apolitical nature of some postmodern discourses and the separatism characteristic of some versions of cultural feminism the contributors take a political stand rooted in concern with cultural and social justice In so doing these essays represent a linguistic shift regarding how we think about ethics foundationalism difference and culture The selections present a concern with developing a language that is critical of master narratives racism sexism and those technologies of power in schools that subjugate infantilize and oppress students The authors also develop a language of possibility that focuses on analyzing how power can be linked productively to knowledge how teachers can construct classroom social relations based on notions of equity and justice how critical pedagogy can contribute to an identity politics that is grounded in democratic relations and how teachers can develop analyses that enable students to become self reflective actors as they transform themselves and the conditions of their social existence
