From Taizz To Tyneside:

From Ta'izz to Tyneside Richard I. Lawless,1995 These sources provide a unique insight into the everyday lives of Arab seamen in Britain and complement information from national archives By exploring not only the relations between the Arab seamen and the host society but also the internal organization and dynamics of this seafaring community and the links with their country of origin the study covers important aspects of the lives of Arab seamen in Britain that have so far been neglected

Ethnic Labour and British Imperial Trade Diane Frost,2019-08-16 This collection of essays identifies a neglected but significant component of Britain s maritime and labour history that of ethnic labour drawn from Britain s colonies in West Africa the Middle East and Asia The interdisciplinary nature of the volume raises a number of important issues race and ethnicity colonialism and migration social class and the complex nature of racial hostility meted out by organized white labour

Mixed Race Britain in The Twentieth Century Chamion Caballero,Peter J. Aspinall,2018-05-07 This book explores the overlooked history of racial mixing in Britain during the course of the twentieth century a period in which there was considerable and influential public debate on the meanings and implications of intimately crossing racial boundaries Based on research that formed the foundations of the British television series Mixed Britannia the authors draw on a range of firsthand accounts and archival material to compare official accounts of racial mixing and mixedness with those told by mixed race people couples and families themselves Mixed Race Britain in The Twentieth Century shows that alongside the more familiarly recognised experiences of social bigotry and racial prejudice there can also be glimpsed constant threads of tolerance acceptance inclusion and ordinariness It presents a more complex and multifaceted history of mixed race Britain than is typically assumed one that adds to the growing picture of the longstanding diversity and difference that is and always has been an ordinary and everyday feature of British life

Reconfiguring Citizenship Mehmoona Moosa-Mitha,2016-03-23 Citizenship as a status assumes that all those encompassed by the term citizen are included albeit within the boundaries of the nation state Yet citizenship practices can be both inclusionary and exclusionary with far reaching ramifications for both nationals and non nationals This volume explores the concept of citizenship and its practices within particular contexts and nation states to identify whether its claims to inclusivity are justified This will show whether the exclusionary dimensions experienced by some citizens and non citizens are linked to deficiencies in the concept country specific policies or how it is practised in different contexts The interrogation of citizenship is important in a globalising world where crossing borders raises issues of diversity and how citizenship status is framed This raises the issue of human rights and their protection within the nation state for people whose lifestyles differ from the prevailing ones Besides highlighting the importance of human rights and social justice as integral to citizenship it affirms the role of the nation state in safeguarding these matters It does so by building on Indigenous peoples insights about linking citizenship to connections to other people and the environment and arguing for the inalienability and portability of citizenship rights guaranteed

collectively through international level agreements These issues are of particular concern to social workers given that they must act in accordance with the principles of democracy equality and empowerment However citizenship issues are often inadequately articulated in social work theory and practice This book redresses this by providing social workers with insights knowledge values and skills about citizenship practices to enable them to work more effectively with those excluded from enjoying the full rights of citizenship in the nation states in which they reside

Refugees, Capitalism and the British State Tom Vickers, 2016-04-08 Today in a period of economic crisis public sector cuts and escalating class struggle Marxism offers important tools for social workers and service users to understand the structures of oppression they face and devise effective means of resistance This book uses Marxism's lost insights and reinterprets them in the current context by focussing on one particular section of the international working class refugees and asylum seekers in Britain Vickers analysis demonstrates the general utility of a Marxist approach enabling an exploration of the interplay between state policies how these are experienced by their subjects and how conflicts are mediated The substantive focus of the book is twofold to analyse the material basis of the oppression of refugees in Britain by the British state and to examine the means by which the British state has managed this oppression through the cultivation of a refugee relations industry within a broader narrative of social capital building These questions demand answers if social workers and other practitioners are to successfully work with refugees and asylum seekers and this book provides these through a detailed Marxist analysis

From Farms to Foundries Kevin Searle, 2009 Yemenis constitute the oldest group of Muslim settlers in Britain This book explores the intersections of the themes of racism class and resistance in the life stories of Yemeni former steelworkers in Sheffield Britain's major steel producing city

The Routledge Handbook of Ocean Space Kimberley Peters, Jon Anderson, Andrew Davies, Philip Steinberg, 2022-07-29 Invisible as the seas and oceans may be for so many of us life as we know it is almost always connected to and constituted by activities and occurrences that take place in on and under our oceans The Routledge Handbook of Ocean Space provides a first port of call for scholars engaging in the oceanic turn in the social sciences offering a comprehensive summary of existing trends in making sense of our water worlds alongside new agenda setting insights into the relationships between society and the seas around us Accordingly this ambitious text not only attends to a growing interest in our oceans past and present it is also situated in a broader spatial turn across the social sciences that seeks to account for how space and place are imbricated in socio cultural and political life Through six clearly structured and wide ranging sections The Routledge Handbook of Ocean Space examines and interrogates how the oceans are environmental historical social cultural political legal and economic spaces and also zones where national and international security comes into question With a foreword and introduction authored by some of the leading scholars researching and writing about ocean spaces alongside 31 further carefully crafted chapters from established as well as early career academics this book provides both an accessible guide to the subject and a cutting edge collection of critical ideas and questions shaping the

social sciences today This handbook brings together the key debates defining the field in one volume appealing to a wide cross disciplinary social science and humanities audience Moreover drawing on a range of international examples from a global collective of authors this book promises to be the benchmark publication for those interested in ocean spaces past and present Indeed as the seas and oceans continue to capture world wide attention and the social sciences continue their seaward turn The Routledge Handbook of Ocean Space will provide an invaluable resource that reveals how our world is a water world

Muslims and Political Participation in Britain Timothy Peace, 2015-05-01 This new volume showcases the latest research into Muslim political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of the participation of ethnic minorities or the impact of race on electoral politics The chapters in this volume address this lacuna by highlighting different aspects of Muslim participation in British politics They investigate voting patterns and election campaigns civil society and grassroots political movements the engagement of young people and the participation of Muslims in formal political institutions Written in an accessible style this book will be of interest to students and scholars of political participation and religious studies

British Immigration Policy Since 1939 Ian R.G. Spencer, 2002-11-01 This is the first survey of British immigration policy to include both its pre World War Two origins and its development after the crucial 1962 Commonwealth Immigrants Act It is an accessible introduction to a subject of increasing popularity with students and academics It also integrates the results of extensive archival research Offering a different perspective to sociological approaches British Immigration Policy since 1939 will be of interest to historians political scientists and those studying public and social policy
