Rethinking China's Rise Jilin Xu, 2018-07-05 China s rise to power is the signal event of the twenty first century and this volume offers a contemporary view of this nation in ascendancy from the inside Eight recent essays by Xu Jilin a popular

historian and one of China's most prominent public intellectuals critique China's rejection of universal values and the nation's embrace of Chinese particularism the rise of the cult of the state and the acceptance of the historicist ideas of Carl Schmitt and Leo Strauss Xu's work is distinct both from better known voices of dissent and also from the New Left perspectives offering instead a liberal reaction to the complexity of China's rise Yet this work is not a shrill denunciation of Xu's intellectual enemies but rather a subtle and heartfelt call for China to accept its status as a great power and join the world as a force for good

The Self as Enterprise Peter Kelly, 2016-03-03 Twenty first century flexible capitalism creates new demands for those who work to acknowledge that all aspects of their lives have come to be seen as performance related and consequently of interest to those who employ them or fire them At the start of the 21st century we can identify borrowing from Max Weber new work ethics that provide novel ethically slanted maxims for the conduct of a life and which suggest that the cultivation of the self as an enterprise is the life long activity that should give meaning purpose and direction to a life The book provides an innovative theoretical and methodological approach that draws on the problematising critique of Michel Foucault the sociological imagination of Zygmunt Bauman and the work influenced by these authors in social theory and social research in the last three decades The author takes seriously the ambivalence and irony that marks many people's experience of their working lives and the demands of work at the start of the 21st century The book makes an important contribution to the continuing debate about the nature of work related identities and the consequences of the intensification of the work regimes in which these identities are performed and regulated In a post global financial crisis GFC world of sovereign debt austerity and recession the author's analysis focuses academic and professional interest on neo liberal injunctions to imagine ourselves as an enterprise and to reap the rewards and carry the costs of the conduct of this enterprise

Great Dragon Fantasy, The: A Lacanian Analysis Of Contemporary Chinese Thought Guanjun Wu, 2014-05-21 China has undergone a unique path of development in the post Maoist era Especially the

last decade witnessed China's rapid rise to economic wealth and superpower status vis vis the severe developmental predicaments of the West financial crises socio political turbulences etc This book analyzes how the leading Chinese thinkers understand China's prosperity and rapid development today and whether there is any hidden mechanism that has been playing a crucial role of forming contemporary Chinese thinkers shared passionate endeavor of resuscitating classical Chinese ideas and thus shows how the fervor for discovering essential characteristics of Chinese thought reveals a hidden psychological mechanism

The Subject in Crisis in Contemporary Chinese Literature Rong Cai, 2004-05-31 Post Mao China produced two parallel discourses on the human subject in the New Era 1976-1989 One was an autonomous Enlightenment humanist self aimed at replacing the revolutionary paragon that had dominated under Mao The other was a more problematic subject suffering from either a symbolic physical deformity or some kind of spiritual paralysis that undermines its apparent normalcy How do we explain the stubborn presence in the literature of the 1980s and 1990s of this crippled agent who fails to realize the humanist autonomy envisioned by post Mao theorists What are the anxieties and tensions embedded in this incongruity and what do they reveal This illuminating and original critical study of the crippled subject in post Mao literature offers a detailed textual analysis of the work of five well known contemporary writers Han Shaogong Can Xue Yu Hua Mo Yan and Jia Pingwa The author investigates not only the literary characters within the texts but also their creators real subjects in history Chinese writers whose own agency was being tested and established in the search for a new subjectivity She argues that reenacting the Maoist legacy the literary search failed to provide a viable model for a postrevolutionary China In addition the deficiency and inadequacy of the subject cannot always be contained in the Communist past a history to be transcended in the design of modernity after Mao The representation of the problematic subject thus punctured post Mao optimism and foreshadowed the eventual abandonment of the move to rethink subjectivity in the 1990s By diving beneath the euphoria of the 1980s and the confusion and frustration of the 1990s these critical readings offer a unique perspective with which to gauge the complexity of China's quest for modernity and a fuller understanding of the self's multifaceted experience in the post Mao era

Turning his back on neoliberalism at exactly the moment that its advocates were in their pomp Gray s was a lone voice of scepticism **Theorizing Teaching and Learning in Asia and Europe** John Chi-Kin Lee,Kerry J. Kennedy,2017-03-27

There has been much debate in recent times between the Anglo American tradition of curriculum studies and the Continental and North European tradition of didactics Didaktik As important as such debate has been this book seeks to add new voices to the debate representing ideas and traditions from a different part of the world The focus is on Chinese curriculum thinking that has passed through a number of stages and currently represents a blend of some aspects of the American tradition and Chinese cultural traditions How does Chinese thinking about curriculum teaching and learning resonate with European didactic traditions and what are the implications for theorizing an expanded field of curriculum studies This book deliberately transcends borders and cultures to explore new territory to provide a platform for open dialogue and to open up new areas of investigation Chapters include Curriculum Reform and Research in China A Social Historical Perspective What Mathematics Did Teachers Learn Comparison of the School and the Pre Service Teacher Mathematics Curricula in Germany and Taiwan Living in Parallel Worlds A Transatlantic Dialogue between General Didactics and Instructional Design *Disenchantment* (□ □) Vol. I: *Fracture (1980-1983)* By Zhang Kangkang,2025-09-18 This is a book about memory and forgetting The 1980s grow increasingly distant occasionally returning with wind and snow but transformed to dust or drizzle or wavering suspended in the tainted air like a deathless specter That decade marking the end of our youth has the desolate beauty of an elegy ushering in our middle age it has the solemn and stirring quality of a processional Gravity has smashed the past into fragments that only words can laboriously piece together While knowing that it is merely a pointless addendum a futile reboot a belated tribute I have stubbornly attempted to look back and write this book Luo Yi once said History is essentially a court that is constantly in retrial One person s biased and narrow memories are trivial against the grand and stirring historical narrative written by the victors But I ve always forgotten what should be remembered and remembered what should be forgotten The opus magnum of a writer who has experienced the whole period of the communist regime in China *Disenchantment* is filled with scenes and stories oozing authenticity Michel Bonnin The author deconstructs the enchantment of ideology and reveals the brutal political violence of this period through the backgrounds and stories of her characters Su Xiaokang A stellar contribution to Chinese literature and the understanding of contemporary Chinese history Michael Duke A courageous and important work which deserves to be published in the Chinese speaking world and beyond Richard King An epic of an extraordinary age of great transformations and convulsions Bernadette Y Li A Chinese version of Doctor Zhivago David Rong **Michel Foucault: A Research Companion** Sverre Raffnsøe,Morten S Thaning,Marius Gudmand-Hoyer,2016-08-31 Michel Foucault continues to be hugely influential His diagnoses challenge us to rethink crucial phenomena such as madness discipline the human sciences the state neoliberalism sexuality and subject formation Based on his work in its entirety and with special emphasis on his many recently published lecture series this book provides an

updated comprehensive and original account of his thought By reading Foucault as a philosopher it offers an extensive systematic assessment and discussion of his unique conception of philosophical practice and brings a unifying trajectory in his work to light

Sentimental Republic Hang Tu, 2025-02-18 How does emotion shape the landscape of public intellectual debate In *Sentimental Republic* Hang Tu proposes emotion as a new critical framework to approach a post Mao cultural controversy As it entered a period of market reform China did not turn away from revolutionary sentiments Rather the post Mao period experienced a surge of emotionally charged debates about red legacies ranging from the anguished denunciations of Maoist violence to the elegiac remembrances of socialist egalitarianism *Sentimental Republic* chronicles forty years 1978 2018 of bitter cultural wars about the Maoist past It analyzes how the four major intellectual clusters in contemporary China liberals the left cultural conservatives and nationalists debated Mao's revolutionary legacies in light of the postsocialist transition Should the Chinese condemn revolutionary violence and bid farewell to socialism Or would a return to revolution foster alternative visions of China's future path Tu probes the nexus of literature thought and memory bringing to light the dynamic moral sentiments and emotional excess at work in these post Mao ideological contentions By analyzing how rival intellectual camps stirred up melancholy guilt anger and resentment Tu argues that the polemics surrounding the country's past cannot be properly understood without reading the emotional trajectories of the post Mao intelligentsia
