The chapters will trace the chronological development of these extreme leftist and rightist movements throughout U.S. history. Each chapter will include a discussion of central individuals, organizations, and events as well as their impact on popular opinion, political discourse, and public policy. For movements that have arisen multiple times throughout U.S. history (nativism, religious radicalism, labor separatists), the chapter will trace the history over time, but the analysis will emphasize its most recent manifestations. Sidebar features will be included in each chapter to provide additional contextual information to facilitate increased understanding of the topic.

Reconsider the Lilies Andrew R. H. Thompson, 2023. Christian environmentalism's dominant traditions have for too long avoided decolonial thought's critical gaze. *Reconsider the Lilies* introduces readers to the ways environmental issues are shaped by dynamics of racism and colonialism and orients readers to Christian approaches to environmentalism. By recounting the history of environmental justice, Thompson shows how even well-intentioned Christian environmentalism incorporates racist and colonialist assumptions. Challenging Christian environmentalism's colonial roots requires incorporating the insights of decolonial thought toward a more pluralist, pragmatic approach to environmentalism, one that learns from communities struggling against environmental injustice in the face of ecological collapse. *Reconsider the Lilies* focuses on different conceptions of justice and structural sin and offers a constructive cosmic Christology that traces Christ's presence in the concrete relationships that exist among all living things. But for this Christ-centered conception of ecological community to be decolonial, it must focus less on doctrine and ideology and more on incarnation and embodiment. It must welcome a broad range of knowledge and expression. Environmental theology can be decolonized. Ecological communities can be restored through healing broken relationships and power disparities by equalizing access to ecological power.

Care-Centered Politics Robert Gottlieb, 2022-08-02. Why a care economy and care-centered politics can influence and reorient such issues as health, the environment, climate, race, inequality, gender, and immigration. This agenda-setting book presents a framework for creating a more just and equitable care-centered world. Climate change, pandemic events, systemic racism, and deep inequalities have all underscored the centrality of care in our lives. Yet care work is for the most part undervalued and exploited. In this book, Robert Gottlieb examines how a care economy and care politics can influence and remake health, climate, and environmental policy as well as the institutions and practices of daily life. He shows how through this care-centered politics we can build an ethics of care and a society of cooperation, sharing, and solidarity. Arguing that care is a form of labor, Gottlieb expands the ways we think about home care, child care, elder care, and other care relationships. He links them to the Green New Deal, Medicare for All, immigration, and the militarization of daily life. He also provides perspective on the events of 2020 and 2021, including the COVID-19 pandemic, climate change, and movements calling attention to racism and inequality as they relate to a care politics. Care, says Gottlieb,

must be universal whether healthcare for all care for the earth care at work or care for the household shared equally by men and women Care centered politics is about strategic and structural reforms that imply radical and revolutionary change

Gottlieb offers a practical mindful yet also utopian politics of daily life The Insurgency of the Spirit Robert E. Shore-Goss,2020-10-06 The Insurgency of the Spirit taps mutli disciplinary methodologies of post colonial biblical scholarship and anthropology liberation theologies indigenous studies grief trauma research and nature meditation writings to shape a constructive retrieval of the animist Jesus The vision that emerges is one that sets forward an Earth loving Jesus who challenges Christians in particular to mobilize against the destructive relationship that exists between imperial religion and political systems **Environmentalism in the United States** Elizabeth Bomberg,David Schlosberg,2013-09-13
