From The Roots The Last Rural Frontier:

From the Roots - The Last Rural Frontier P. C. La Nuevo,1994 Three Frontiers Dean L. May,1997-04-28 This book studies how in the Far West Americans moved from communal values to individualistic and exploitative ones **War Against Islam** George P. Robertson,2008-06 This novel is a fictional depiction of the rise of a right wing Presidential candidate who wins the 2008 election takes measures to reduce American dependence on Middle Eastern oil and then wages unfettered war on Islamic nations The story weaves imagination and reality There are many references to current and historical events The principal characters resemble actual politicians and world leaders Astute readers will be able to make the necessary connections if they so wish Nonetheless the fictional equivalents are probably more extreme than similar figures in the real world Accomplished authors of political thrillers as well as television shows such as 24 usually venture to the brink then retract This book goes beyond the precipice that s what makes it unique , **Resources in Education**

Cobb,Charles Reagan Wilson,2014-02-01 Volume 11 of The New Encyclopedia of Southern Culture examines the economic culture of the South by pairing two categories that account for the ways many southerners have made their living In the antebellum period the wealth of southern whites came largely from agriculture that relied on the forced labor of enslaved blacks After Reconstruction the South became attractive to new industries lured by the region s ongoing commitment to low wage labor and management friendly economic policies Throughout the volume articles reflect the breadth and variety of southern life paying particular attention to the region s profound economic transformation in recent decades The agricultural section consists of 25 thematic entries that explore issues such as Native American agricultural practices plantations and sustainable agriculture Thirty eight shorter pieces cover key crops of the region from tobacco to Christmas trees as well as issues of historic and emerging interest from insects and insecticides to migrant labor The section on industry and commerce contains 13 thematic entries in which contributors address topics such as the economic impact of military bases resistance to industrialization and black business Thirty six topical entries explore particular industries such as textiles timber automobiles and banking as well as individuals including Henry W Grady and Sam M Walton whose ideas and enterprises have helped shape the modern South

Southern Criminology Kerry Carrington,Russell Hogg,John Scott,Máximo Sozzo,Reece Walters,2018-09-18 Criminology has focused mainly on problems of crime and violence in the large population centres of the Global North to the exclusion of the global countryside peripheries and antipodes Southern criminology is an innovative new approach that seeks to correct this bias This book turns the origin stories of criminology which simply assumed a global universality on their head It draws on a range of case studies to illustrate this point tracing criminology s long fascination with dangerous masculinities back to Lombroso s theory of atavism itself based on an orientalist interpretation of men of colour from the Global South uncovering criminology s colonial legacy perhaps best exemplified by the over representation of Indigenous peoples in settler societies drawn into the criminal justice system analysing the ways in which the sociology of punishment literature has also been based on Northern theories which assume that forms of penalty roll out from the Global North to the rest of the world and making the case that the harmful effects of eco crimes and global warming are impacting more significantly on the Global South The book also explores how the colonality of gender shapes patterns of violence in the Global South Southern criminology is not a new sub discipline within criminology but rather a journey toward cognitive justice It promotes a perspective that aims to invent methods and concepts that bridge global divides and enhance the democratisation of knowledge more befitting of global criminology in the twenty first century *Government of the Shadows* Eric Wilson,2009-01-20 This book uncovers the activities of clandestine governments It explores how covert political activity and transnational organised crime are linked and how they ultimately work to the advantage of state and corporate power Using a variety of case studies from the mafia in Italy to programmes for food and reconstruction in Iraq the authors illustrate that parapolitical structures are not deviant but central to the operation of global governments The creation of this parallel world

economy the source of huge political and economic potential entices states to undertake new forms of regulation either through their own intelligence agencies or through the more shadowy world of criminal cartels *Nipomo and Los Berros* Doug Jenzen,2012 Nipomo Chumash for at the foot of the hills and Los Berros Spanish for watercress comprise an important Central Coast area that is often overlooked by history First established by Chumash Indians and then formally recognized in 1837 in the form of a 38 000 acre land grant from the Mexican government the area evolved into a hidden national treasure What started with a ranch owned by William Goodwin Dana and his wife Maria Josefa Carrillo quickly spread and became vast farmlands With the arrival of the railroad and the immigration of workers unique local goods found their way across the country and trade networks connected the region to the rest of the world Much of this legacy still stands and can be found today if you know where to look *Key to the New World* Luis Martínez-Fernández,2019-08-22 In these often overlooked centuries Mart nez Fern ndez finds the roots of many of Cuba s enduring economic political social and cultural complexities The result is a sweeping history a seminal text that makes clear that to fully grasp revolutionary or contemporary Cuba we must first understand what came before **Reality TV's Real Men of the Recession** Shannon O'Sullivan,2022-10-11 In this book Shannon O Sullivan explores blue collar frontier shows a subgenre of reality television showcasing white working class men performing hazardous occupations in remote wilderness settings O Sullivan argues that the proliferation of these programs represents a subtle yet potent reactionary veneration of white rural working class men as real Americans amid the Great Recession and social movements challenging white supremacy heteropatriarchy and capitalism nearly a decade before Donald Trump kicked off his presidential campaign Through analyses of Deadliest Catch Ax Men Ice Road Truckers and Gold Rush O Sullivan reframes dominant understandings of social class and challenges the neoliberal tendency to configure identity and social categories as stylized performances delinked from power relations The author highlights the political significance of these series in relation to Donald Trump s rhetorical strategy and media narratives about his supporters O Sullivan also incorporates an analysis of Duck Dynasty which exemplifies how affluent white men take up stereotypical white rural working class masculine performances to attain a public perception of masculine authenticity Scholars of media studies gender studies television studies communication and political rhetoric will find this book of particular interest
