## **From The Sphere To The Grave:**

From the Sphere to the Grave Kat Barrett, 2007      *A Saxon Bed Burial on Swallowcliffe Down* George Speake, 2014-06-15 Excavation of a Bronze Age barrow on Swallowcliffe Down Wiltshire in 1996 revealed that it had been reused in the seventh century AD for a richly furnished Anglo Saxon inhumation The burial was that of a young female aged between 18 and 25 laid on an ash wood bed with elaborate iron work fittings and surrounded by a collection of grave goods of high quality These included an iron bound bucket and an iron pan at her head a maple wood casket containing a sprinkler and a spoon together with several other personal items laid at one side and an ornate satchel on the other At the foot of the grave was a bronze mounted bucket This full account of the grave the circumstances of its discovery and of its contents describes these finds in detail and sets the material fully within its seventh century context in art historical terms The significance of the bed burial is examined in the light of other examples of similar burial practices both locally and nationally Examination of the documentary and topographical evidence for the Swallowcliffe barrow in the seventh century leads to the suggestion that it may be identified as Posses Hlaewe recorded in a charter of AD940      *The Graveyard in Literature* Aoileann Ní Éigeartaigh, 2021-11-12 This volume focuses on literary and other cultural texts that use the graveyard as a liminal space within which received narratives and social values can be challenged and new and empowering perspectives on the present articulated It argues that such texts do so primarily by immersing the reader in a liminal space between life and death where traditional certainties such as time and space are suspended and new models of human interaction can thus be formulated Essays in this volume examine the use of liminality as a vehicle for social critique paying particular attention to the ways in which liminal spaces facilitate the construction of alternative perspectives      **Funerary Textiles in Situ** Elsa Yvanez, Magdalena M. Wozniak, 2025-07-11 This open access book explores the role of textiles in death to investigate questions into how the body was prepared before the funeral how the body was seen and perceived by its relatives and community and the role of textiles in its metamorphosis into a deceased The volume's geographic coverage is broad encompassing areas where textile and skeletal conservation is optimal the ancient Nile Valley and areas where only minute fragments could be preserved adhering to metal objects The case studies cover Egypt Sudan Greece the Iberian Peninsula Scandinavia and Central Europe ranging from the 12th century BCE to the end of the 19th century CE Going beyond this geohistorical frameworks the book presents new methods for the study retrieval and conservation of funerary textiles in situ during excavations It offers useful tools for future research in both textile archaeology and bioarchaeology and promote interdisciplinary collaborations between the two fields for a better understanding of burial practices Contributors to this volume include experts from the fields of bioanthropology archaeology textile research and conservation      *Celtic Art in Europe* Christopher Gosden, Sally Crawford, Katharina Ulmschneider, 2014-08-29 The ancient Celtic world evokes debate discussion romanticism and mythicism On the one hand it represents a specialist area of archaeological interest on the other

it has a wide general appeal The Celtic world is accessible through archaeology history linguistics and art history Of these disciplines art history offers the most direct message to a wider audience This volume of 37 papers brings together a truly international group of pre eminent specialists in the field of Celtic art and Celtic studies It is a benchmark volume the like of which has not been seen since the publication of Paul Jacobsthal s *Early Celtic Art* in 1944 The papers chart the history of attempts to understand Celtic art and argue for novel approaches in discussions spanning the whole of Continental Europe and the British Isles This new body of international scholarship will give the reader a sense of the richness of the material and current debates Artefacts of rich form and decoration which we might call art provide a most sensitive set of indicators of key areas of past societies their power politics and transformations With its broad geographical scope this volume offers a timely opportunity to re assess contacts context transmission and meaning in Celtic art for understanding the development of European cultures identities and economies in pre and proto history Nominated for Current Archaeology Book of the Year 2016 *Ancient Burial Practices in the American Southwest* Douglas R. **Making Monuments from Mass Graves in Contemporary Spain** Daniel Palacios González, 2025-10-01 This book narrates how beginning in 1936 bodies buried in mass graves during the Spanish War and subsequent dictatorship were turned into monuments The book describes how the production of monuments evolved and what forms this process and these monuments took it examines how the monuments were incorporated into society and used to influence public opinion and it argues that this process was not simply based on the formal logic of tradition but instead reflected a conscious plan with a specific and rational end goal As such this book puts forward the idea that the monument as a material object became an expression of the historical consciousness of its producers relating how different actors communicated their memories into meaningful gestures while limited by the material reality of integrating the bodies into a novel artefact Finally it contends that the people creating these monuments did not just bury their dead according to a funerary tradition but also sought to influence society *Ancient West & East* G.R. Bureau of American Ethnology,1881      **Public Statues Across Time and Cultures** Christopher P. Dickenson,2021-04-07 This book explores the ways in which statues have been experienced in public in different cultures and the role that has been played by statues in defining publicness itself The meaning of public statues is examined through discussion of their appearance and their spatial context and of written discourses having to do with how they were experienced Bringing together experts working on statues in different cultures the book sheds light on similarities and differences in the role that public statues had in different times and places throughout history The book will also provide insight into the diverse methods and approaches that scholars working on these different periods use to investigate statues The book will appeal to historians art historians and archaeologists of all periods who have an interest in the display of sculpture the reception of public art or the significance of public monuments
