From Union To Commonwealth Nationalism And Separatism In The Soviet Republics:

From Union to Commonwealth Gail Lapidus, Victor Zaslavsky, Philip Goldman, 1992-09-03 This volume examines the rise of national movements which challenged then destroyed the stability and territorial integrity of the former Soviet state

From Union to Commonwealth Gail Lapidus, Victor Zaslavsky, 1992-09-03 The collapse of the Soviet Union and the emergence of fifteen independent states on its former territory is one of the most momentous developments of the twentieth century In *From Union to Commonwealth* five leading international scholars Leokadia Drobizheva and Galina Starovoiteva from Russia and Gail Lapidus Ronald Suny and Victor Zaslavsky from North America team up to examine the forces that lay behind the rise of national movements which challenged then destroyed the stability and territorial integrity of the former Soviet state Writing from their different disciplinary perspectives from political science modern history and from sociology these authors offer unique insights into the links between political structure and nationalism finding that Soviet policies designed to eliminate national distinctiveness frequently had the unintended result of creating powerful new national identities With the pursuit of perestroika and glasnost such identities became potent political forces impelling the Soviet leadership to grapple with the growing tension between demands for regional sovereignty and the preservation of central economic and political control The authors show how in the course of this struggle the international system often played a critical role Non Russian national movements sought to expand their ties to Europe or Asia even as they pursued independence from Moscow In the end it was the transformation of Russian national consciousness and the emergence of a Russian state which disassociated itself from the legacy of empire which played a decisive role in the collapse of the center The progressive weakening of central institutions and the emergence of increasingly assertive sovereign states was accelerated by the failed coup of August 1991 Presenting a broad and timely analysis of the national dimension of politics after perestroika this book is essential reading for all those seeking to understand the complexities underlying the demise of the Soviet state as well as the emergence of new states actively engaged in defining their national identities at home and abroad

Nationalism and Communism in Eastern Europe and the Soviet Union W. Kemp, 1999-02-08 Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism's attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism's collapse and what lessons that holds for contemporary Europe

Ethnicity, Nationalism and Conflict in and After the Soviet Union Valery Tishkov, 1997 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This

complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism *Russia* Neil Robinson, 2003-09-02 This invaluable text traces Russia's complex historical development in the last century its recent political troubles and economic misfortunes and its place in the contemporary international system

Ethnopolitics and the Transition to Democracy Rasma Karklins, 1994-03 Woodrow Wilson Center Press **Exit from Communism** Stephen R. Graubard, 2021-09-28 Since 1989 it has been possible to review what has been published both at home and abroad on the communist states of Central and Eastern Europe and no less importantly on the Soviet Union itself from a new perspective Few have chosen to engage in this Herculean task whether out of a residual civility in not wishing to mock certain aging scholars whose research would appear curiously dated or out of a sense of fatigue with the whole subject of casting aspersions on mistaken views A New Europe for the Old asks whether the master narratives that circulated so widely in the West in the half century since 1945 remain valid Stephen Graubard's volume raises pertinent questions regarding the current state of the European world as it has evolved since 1989 He includes contributions from important scholars around the world A New Europe for the Old by Martin Malia The Serbs The Sweet and Rotten Smell of History by Tim Judah Illyrianism and the Croatian Quest for Statehood by Marcus Tanner To Be or Not to Be Balkan Romania's Quest for Self Definition by Tom Gallagher Ukraine From an Imperial Periphery to Sovereign State by Roman Szporluk Ethnic Nationalism in the Russian Federation by Anatoly M Khazanov Im Osten viel Neues Plenty of News from the Eastern Lander by Barbara Ischinger Discourse and Dis Integration in Europe The Cases of France Germany and Great Britain by Vivien A Schmidt The European Debate on Citizenship by Dominique Schnapper Has the Nation Died The Debate Over Italy's Identity and Future by Dario Biocca and Postwar Europe by Arne Roth A New Europe for the Old provides greater sympathy for the complexity of societies and argues for greater tolerance of those that are small and that do not cast a long shadow in the world of today In the twenty first as in the twentieth century they may be engines of change both as a result of the disorder that they produce as well as the ways in which their values however seemingly antiquated survive and prosper and not only in their native lands This volume will intrigue historians and European studies scholars alike *Unity or Separation* Daniel R. Kempton, Terry D. Clark, 2001-11-30 Many analysts initially believed that the process of Soviet disintegration would inevitably open a Pandora's box of ethnic nationalism and regional self determination But despite obvious setbacks such as Chechnya the developments of the last decade have shown that while forces of disintegration remain a very real threat the fifteen successor states have managed to stay largely intact One explanation for this somewhat unexpected success is the varied strategies of center periphery relations adopted by the post Soviet states tailored to meet the unique of circumstances faced by each former republic of the Soviet Union The contributors to this up to date volume examine the specific cases of success and failure in center periphery relations in the former USSR and offer some provocative overall conclusions about the progress made and the impact on the process of democratization The cases examined in this volume are drawn from

Russia Lithuania Ukraine Uzbekistan among others These case studies demonstrate that relations between national and local governments have been evolving differently in each of the successor states in the but in each case there has been a conscious attempt to create stable center periphery relations which give a degree of autonomy to minority groups while still providing for a stable state and democratic development This book will be of interest to scholars and students of the former Soviet

Union and those interested in federalization and center periphery **Nation-Building and Minority Politics in Post-Socialist States** David Galbreath, 2005-03-05 Despite socialism's best efforts ethnic identity remained a salient feature in Central and Eastern Europe Not only did ethno nationalism help to bring about the fall of the socialist regimes in this region but it also characterized much of the post socialist politics Nation Building and Minority Politics examines the issue of minority politics in post socialist states within this dual structure In particular it offers an in depth analysis of post restoration politics in Estonia and Latvia covering four issues First it looks at the historical context of the current group relations Second the study explores the domestic nature of minority politics in Estonia and Latvia by looking at domestic politics and policies Third it examines the role of the Russian Federation as an external national homeland through illustrating developments within Russian foreign policy Finally the book analyses the role of three significant European organizations namely the OSCE EU and the Council of Europe as agents of conditionality Overall this study combines old and new theoretical approaches to nation building and minority politics to exhibit the changing nature of the relationship between majority minority external national homeland and international organizations in today's Europe **Federalism,**

Democratization, and the Rule of Law in Russia Jeffrey Kahn, 2002-06-13 Combining the approaches of three fields of scholarship political science law and Russian area studies the author explores the foundations and future of the Russian Federation Russia's political elite have struggled to build an extraordinarily complex federal system one that incorporates eighty nine different units and scores of different ethnic groups which sometimes harbor long histories of resentment against Russian imperial and Soviet legacies This book examines the public debates official documents and political deals that built Russia's federal house on very unsteady foundations often out of the ideological conceptual and physical rubble of the ancient regime One of the major goals of this book is where appropriate to bring together the insights of comparative law and comparative politics in the study of the development of Russia's attempts to create as its constitution states in the very first article a Democratic federal rule of law state **Perestroika and the Party** Francesco Di Palma, 2019-08-01 Countless

studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign relations narrowly defined the research gathered here constitutes a transnational survey of these reforms collective impact showing how they were variably received and implemented and how

they shaped the prospects for proletarian internationalism in diverse political contexts

World Directory of Minorities
Bridget Anderson, James Chin, John Connell, Patrick Costello, Lindsey Crickmay, Chris Dammers, James Ferguson, David Hawk, David McDowall, Anna Matveeva, Julia Maxted, Neil Melvin, Peter O'Neill, Suzanne Pattle, Martyn Rady, Javaid Rehman, Alex Roslin, Nikhil Roy, David Sogge, Bogdan Szajkowski, Carl Wilson, Abebe Zegeye, 1997-01-01

This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997. The full Directory is now available and continually updated on our website. The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders. Ethnic religious and linguistic minorities are often among the poorest of the poor, suffer discrimination and are frequently the victims of human rights abuses. Time and time again in the past the United Nations system, governments and even non-governmental organizations (NGOs) working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities. Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala. It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in 1996 as a result of their peaceful campaigns to promote the rights of their people. The situation of minorities is then a matter of major concern and it is essential that accurate, objective and up-to-date information is made available. This Directory contributes to that process. It is difficult to assess accurately what proportion of the world's population identifies themselves as belonging to minority communities. Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world's population belongs to several thousand different minority groups and subgroups. National statistics are often skewed for political reasons and there is no universally accepted definition of minorities. The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic, Religious and Linguistic Minorities adopted in December 1992. Minority Rights Group focuses its work on non-dominant ethnic, religious and linguistic communities whether or not they are numerical minorities. The concept thus relates to any self-identified community that is marginalized, without power, unable to take decisions over its destiny and often experiencing high levels of illiteracy, under education and overt or covert discrimination. The basic rights of such communities need protection and promotion. There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor, urban migrants, older people, women and children. These groups may be considered as doubly vulnerable. What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation. They are often excluded from political power and decision.

making in the development process without equal opportunities to secure a better quality of life. One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are. Situational ethnicity does occur and individuals and groups do modify their self-identifications depending on circumstances. Please note that the terminology in the fields of minority rights and indigenous peoples' rights has changed over time. MRG strives to reflect these changes as well as respect the right to self-identification on the part of minorities and indigenous peoples. At the same time, after over 50 years of work, we know that our archive is of considerable interest to activists and researchers. Therefore, we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues.

The South at the End of the Twentieth Century Timothy M. Shaw, Larry A. Swatuk, 2016-07-27 This collection is concerned with revisiting and redefining the political economy both empirical and theoretical of foreign policy in the South as we approach the twenty-first century, the position of post-colonial states and societies in the post-Bretton Woods and Cold War world. With a focus on Africa, Asia, the Caribbean and Latin America, this collection comparatively examines the impact of changing political and economic structures upon policy makers and civil societies in the South.

The Baltic States Thomas Lane, Artis Pabriks, Aldis Pūrs, David J. Smith, 2013-11-05 Since the end of the Cold War, there has been an increased interest in the Baltics. *The Baltic States* brings together three titles: Estonia, Latvia and Lithuania, to provide a comprehensive and analytical guide integrating history, political science, economic development and contemporary events into one account. Since gaining their independence, each country has developed at its own pace with its own agenda and facing its own obstacles. The authors examine the tensions accompanying a post-communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state. Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004. Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU.

National Identity and Ethnicity in Russia and the New States of Eurasia Roman Szporluk, 1994 First Published in 1995 Routledge is an imprint of Taylor & Francis, an Informa company.

De Facto States in Eurasia Tomáš Hoch, Vincenc Kopeček, 2019-07-17 This book explores the phenomenon of de facto states in Eurasia, such as Abkhazia, Nagorno-Karabakh and the Transnistrian Moldovan Republic. It examines how they are formed, what sustains them, and how their differing development trajectories have unfolded. It argues that most of these de facto states have been formed with either direct or indirect support from Russia, but they all have their own internal logic and are not simply puppets in the hands of a powerful patron. The book provides detailed case studies and draws out general patterns, comparing present-day de facto states with de facto states which existed in the past.

Latvia in Transition Juris Dreifelds, 1996-02-23 During its post-Soviet reconstruction, Latvia has become a role model in macroeconomic stabilization and democratization. *Latvia in Transition* provides the material necessary to understand present

day Latvia The author examines the main events processes and problems of this country during the period of transition from a dependent and Moscow dominated Soviet Republic to an independent and also interdependent state The book presents the most relevant and essential aspects of Latvia s history politics economics and society *Historical Dictionary of Tajikistan* Kamoludin Abdullaev,2018-08-10 Tajikistan is the poorest and only Persian speaking country among the post Soviet independent states Historically the Tajiks of Central Asia and Afghanistan along with the Persians of modern Iran came from a related ethnic group When the Tajik Autonomous Soviet Socialist Republic was established in late 1924 it became the first modern Tajik state that remained one of the 15 union republics of the Soviet Union until 1991 Almost immediately after the collapse of the USSR Tajikistan became a scene of brutal civil war taking place in one of the global hubs of religiously motivated political struggle militancy mass cross border refugee flows insurgency and drug trafficking During the first decade of the 21st century the country was making modest progress toward stability However the heavy burden of socio economic problems in addition to continuing conflict in the neighboring Afghanistan Pakistan presented even bigger challenges for Tajikistan In addition Western economic sanctions against Russia in 2014 coinciding with continuing lower oil prices have negatively affected one million of Tajik labor migrants in Russia Yet Tajikistan has become neither weaker nor less important as a player in world politics This third edition of *Historical Dictionary of Tajikistan* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Tajikistan **The Return** Daniel Treisman,2012-01-10 Assesses modern day Russia to consider such topics as whether the collapse of the Soviet Union was preventable Yeltsin s impact on political order and Putin s public popularity **The Euro-Asian World** Y. Kalyuzhnova,D. Lynch,2000-03-31 This text establishes the concept of Euro Asia as the means to discuss the European and Asian countries that are undergoing post Cold War transformation Elements of the transitional changes covered include conflicts and peacekeeping geopolitical issues and economic realities
