Hansen,2023-07-03 Synthesizing the best current thinking about learning course design and promoting student achievement this is a guide to developing college instruction that has clear purpose is well integrated into the curriculum and improves student learning in predictable and measurable ways The process involves developing a transparent course blueprint focused on a limited number of key concepts and ideas related tasks and corresponding performance criteria as well as on frequent practice opportunities and early identification of potential learning barriers Idea based Learning takes as its point of departure the big conceptual ideas of a discipline that give structure and unity to a course and even to the curriculum as opposed to a focus on content that can lead to teaching sequences of loosely related topics and aligns with notions of student centered and outcomes based learning environments Adopting a backwards design model it begins with three parallel processes first identifying the material that is crucial for conceptual understanding second articulating a clear rationale for how to choose learning outcomes based on student needs and intellectual readiness and finally aligning the learning outcomes with the instructional requirements of the authentic performance tasks The resulting syllabi ensure cohesion between sections of the same course as well as between courses within a whole curriculum assuring the progressive development of students skills and knowledge Key elements of IBL include Helping students see the big picture Building courses around one or more authentic performance tasks that illuminate the core concepts of the discipline Clearly identifying performance criteria for all tasks Incorporating practice in the competencies that are deemed important for students success By placing the onus of learning on the student liberating faculty to take on the role of learning coaches

Designing tasks that help students unlearn simplistic ideas and replace them with improved understandings Edmund Hansen expertly guides the reader through the steps of the process providing examples along the way and concluding with a sample course design document and syllabus that illustrate the principles he propounds *Discursive Psychology* Sally Wiggins, 2016-11-03 Discursive Psychology is a theoretical and analytical approach used by academics and practitioners alike widely applied though often lost within the complicated web of discourse analysis Sally Wiggins combines her expertise in discursive psychology with her clear and demystifying pedagogical approach to produce a book that is committed to student success This textbook shows students how to put the methodology into practice in a way that is simple engaging and practical **Plato and Aristotle's Ethics** Robert Heinaman, 2017-03-02 This volume emanating from the Fourth Keeling Colloquium in Ancient Philosophy presents essays and comments by nine outstanding scholars of ancient philosophy which examine the influence of Plato on the development of Aristotle's ethics The essays focus on the role of pleasure in happiness and the good life Christopher Taylor and Sarah Broadie the irreducibility of ethical concepts to value neutral concepts Anthony Price and Sarah Broadie the relation of virtue to happiness Roger Crisp and Christopher Rowe Terry Irwin and Sir Anthony Kenny the role of the requirement of self sufficiency in determining the content of happiness John Cooper and Sir Anthony Kenny and the question of whether the just man should be a participant in the political life of his city Richard Kraut and Christopher Rowe Quantum Leaps in the Wrong Direction Charles M. Wiggins, 2025-07-17 Set near Tarrytown New York Washington Irving's short story The Legend of Sleepy Hollow has become mythic in American culture Its repeated reconceptions range from written works such as Christopher Golden and Ford Lytle Gilmore's Horseman 2005 and Austin Dragon's two Hunt for the Foul Murderer of Ichabod Crane books 2015 to film and TV adaptations such as Etienne Arnaud's The Legend of Sleepy Hollow 1912 Edward D Venturini's The Headless Horseman 1922 Disney's The Adventures of Ichabod and Mr Toad 1949 Tim Burton's Sleepy Hollow 1999 and Fox Television's Sleepy Hollow 2013 17 that combined Sleepy Hollow's Ichabod Crane with Irving's other creation Rip Van Winkle This book explores the tale's host of afterlives tracing its path from a gothic comic story of Crane's encounter with the ominous Headless Horseman to Halloween and horror icon and cultural landmark for generations **Descartes's Concept of Mind** Lilli Alanen, 2009-07-01 Descartes's concept of the mind as distinct from the body with which it forms a union set the agenda for much of Western philosophy's subsequent reflection on human nature and thought This is the first book to give an analysis of Descartes's pivotal concept that deals with all the functions of the mind cognitive as well as volitional theoretical as well as practical and moral Focusing on Descartes's view of the mind as intimately united to and intermingled with the

body and exploring its implications for his philosophy of mind and moral psychology Lilli Alanen argues that the epistemological and methodological consequences of this view have been largely misconstrued in the modern debate Informed by both the French tradition of Descartes scholarship and recent Anglo American research Alanen s book combines historical contextual analysis with a philosophical problem oriented approach It seeks to relate Descartes s views on mind and intentionality both to contemporary debates and to the problems Descartes confronted in their historical context By drawing out the historical antecedents and the intellectual evolution of Descartes s thinking about the mind the book shows how his emphasis on the embodiment of the mind has implications far more complex and interesting than the usual dualist account suggests **Canadian Books in Print** ,2000 **The Watseka Wonder** E.
